New Color in the Cheeks Richness in the Blood

And Health, Vigor and Strength in the Whole System When Dr. Chase's Nerve Food is Used.

Paleness of the gums, lips and inside of eyelids, nervousness, weakness, indigestion, headache and despondency are the symptoms common to chlorosis and anaemia.

These symptoms indicate that the blood is thin and watery, and does not contain sufficient nourishment—symptoms that disappear when Dr. Chase's Nerve Food is used to build up the body and fill the shrivelled arteries with rich, red, life-sustaining blood.

Dr. Chase's Nerve Food is a special formula devised especially for all diseases arising from an exhausted condition of the blood and nerves, and has proved signally successful as a cure for anaemia and chlorosis.

In fact it cannot fail to cure these ailments, because it goes directly to form new red corpuscles in the blood, and so nourishes and restores the system to health and vigor.

It is of incalculable worth to women suffering from the weaknesses and irregularities peculiar to their sex, and is evidenced by the grateful testimonials published from time to time in the daily press.

Dr. Chase's Nerve Food, the great blood builder and nerve restorative; 50 cents a box at all dealers, or Edmanson, Bates & Co., Toronto.

THE MORNING GUARDIAN

THURSDAY, OCTOBER, 17 1901

THE PASSING SEASON.

The opening year of the twentieth century is now in its last quarter and with the falling leaves many will naturally turn to a retrospect of the passing season. It has been in several respects remarkable. In very few years within the memory of persons now living has there been so much clear sunshine. Winter, spring and summer have been marked by a long succession of bright days, and the spring, summer and early fall have been especially free from storms. The strong gales of previous years have not been repeated for months past.

The summer was remarkable for heat and the rainfall, especially in the western part of the Island, was too scant for the crops, but to those who look only too personal comfort the past summer and early autumn may be said to have given us almost ideal weather. This has been greatly enjoyed by the largest number of tourists who have ever visited our shores in a single season. They will doubtless carry to their homes a good account of the Island as a summer resort, and this may be hoped to bear good fruit in the future. The year so far has also been mainly a healthful one, and with fairly good crops in general our people should be prepared to keep a hearty thanksgiving when the appointed day comes round.

THE GUARDIAN has received from the enterprising publisher, Mr. R. A. H. Morrow of St. John, a copy of his newly issued work, The New Household Manual and Ladies' Companion. It is a neat little volume of 160 pages, dealing with almost everything that pertains to the home from the kitchen to the parlor. Among the many topics intelligently discussed are the situation and arrangement of the dwelling, ventilation, the requisites for each room, the art of housekeeping, plans for daily work, house-cleaning, how to promote health and prevent disease, the family medicine chest, marketing, shopping, home amusements, care and management of children, how to beautify the home, house plants, the different classes of food and how to prepare them, &c., &c. The hundreds of receipts are worth many times the price of the book. In concise form the volume presents a complete directory in every department of household affairs. The book cannot be obtained in the bookstores but is on sale by agents or may be had from the publisher, sent post paid for 50 cents.

It is given out that there will be no distribution bill introduced at the coming session of Parliament. The course followed hitherto has been to pass such a measure at each session following the census. But as such redistribution can in no case take effect until the close of the Parliament there is no immediate need of dealing with the matter. A redistribution bill passed next year or the year following will take effect quite as soon as if it were passed this year.

An exchange pertinently remarks: Libel suits against newspapers are about as profitless undertakings as we can imagine. The very purpose of newspapers is to print the news. The people want it, and they will sustain a newspaper in printing it. provided the paper conducts itself in a decent, honorable way, It is rare that a paper fails to make amends, if it makes a mistake in the publication of news. Reputable papers are just as anxious that only facts shall be published as are the people, and when they make a slip, at the best of papers do occasionally, they are only too ready to correct any false impression they may have made, Recognizing this, juries sustain the papers in their efforts to serve the public to the best of their ability.

OUR STREETS.

The city streets betray on every hand neglect and lack of care such as seems unusual, even in Charlottetown. The gutters are filled with grass and rubbish; paper, straw and the sweepings of the stores are blown by the winds up and down the walks and driveways, and stones, large and small obstruct and endanger the horses, carriages and bicycles that traverse the roadways. These things are an offence to lovers of neatness, and are not creditable to a Provincial Capital. Even if the Prince and Princess do not come to visit us, a certain measure of order and cleanliness should be observed. What are the Street Committee about?

FOR some weeks carpenters have been at work upon the steamer Minto, making repairs to the engine room. It will be remembered that the Minto was visited by a disastrous fire shortly before the arrival of the Duke in Quebec and the Minister of Marine, who had planned to go by her, had temporary repairs made in order not to disappoint the members of the party. Since the steamer's return to this port the engine room has been thoroughly repaired and the painters are now at work graining, etc. The wooden store room where the fire is supposed to to have originated has been replaced by a substantial iron one.

Raw, Flaming Eczema, Sale Rheum and Scald Head

The Dreadful Itching and Burning is Promptly Relieved and the Disease Thoroughly Cured by Dr. Chase's Ointment.

Mrs. A. McKnight, Kirkwall, Wellington County, Ont., writes:—"I feel it my duty to let you know what Dr. Chase's Ointment has done in a very bad case of eczema on our baby. We had tried any number of cures without any permanent relief, but from the hour we commenced using Dr. Chase's Ointment there was great relief, and the improvement continued, until there was complete cure. We think it the greatest of family Ointments."

Mrs. R. Stoddard, Delhi, Ont., writes: "I was troubled with psoriasis or chronic eczema for twelve years; used many remedies during that time, but got no relief. Doctored with four or five doctors, but found no cure. I decided to try a box of Dr. Chase's Ointment, and before using half of the box found great relief. I have used about three boxes, and am now completely cured, and have recommended it to many others. It is the best I have ever used, and it is worth its weight in gold."

There is nothing to be compared with Dr. Chase's Ointment as a cure for the most obstinate and torturing skin disease. Its cures are often truly marvellous. 60c a box, at all dealers, or Edmanson, Bates & Co., Toronto.
