DIGESTION WITHOUT A STOMACH

The fact that people can digest food
after the stomach has been removed
proves that the important part of diges-
tion takes place in the intestines.
Hence it comes that Dr. Chase's Kidney-
Liver Pills are so wonderfully successful
in curing chronic indigestion and dys-
pepsia. They act directly on the kidneys,
urinary and intestinal, making them healthy
active, and vigorous, and so insure per-
fect digestion and prompt removal of
poisonous waste matter.
