To Fit OR Not to Fit. That is the question? Any spectacle is no more adapted to your face than any coat to your body.

The fit of the frame is as important as the fit of the lenses. We make a specialty of both.

FENCING THE FARM

To the practical farmer this is one of the most interesting questions of the day. The wide awake man is looking for a strong high fence, proof against large or small stock, requiring but little room, one which will not blow down, burn down, break away, obstruct the view, nor require constant repairing, but will remain tight and secure under hard usage, and constant change of temperature, and last a life time.

While wire fencing has been so high in price and ready woven fencing is still so high that only the WELL to do can afford to buy it in quantities to suit their needs, but the LONDON now brings the cost down far lower than the old style rails, besides, the saving in land will soon pay for it.

It pays to own a LONDON FENCE MACHINE. There is not at other implement on the farm which will save enough to pay for itself in a single day's work, as the London will do. Farmer it will pay you to look into this matter. Buy a LONDON FENCE MACHINE and London spiral coiled spring wire, and build your own fence at times when you can't well do anything else at one half the cost of ready woven fencing. Write for Free Catalogue which is full of valuable pointers on fencing to

ISLAND BLEND TEA Competition

How many days, hours and minutes will it take the new Steamship lately purchased by the Charlottetown Steam Navigation Co. to come from the pier she last casts off her lines at in Britain until she is moored at the first port of call in P. E. Island?

To establish the superiority of Island Blend Tea over all others, I am going to give the people of P. E. Island an opportunity to thoroughly test its good qualities in the following way:—

To the FIRST person sending the correct answer to the above, or who comes the nearest to the correct answer, I will ship 50 lbs. Island Blend Tea; to the three next nearest to the correct answer, 20 lbs. each; to the next five, 10 lbs. each; to the next seven, 5 lbs. each; to the next ten, 3 lbs. each.

CONDITIONS.—Each person making a guess must purchase at least one pound of Island Blend Tea from a merchant. All answers must be forwarded in a special envelope, which will be furnished by the merchant. No other answers than those contained in these special envelopes will be considered. The statement of the captain of the new steamer as regards time taken will be accepted as correct.

All answers must be received by me at least three days before arrival of the steamer. The result will be announced in the newspapers and the tea forwarded to the successful competitors not later than two weeks after the arrival of the steamer.
