Ex-Kaiser's Court Preacher Is Dead

BERLIN, Sept. 7.—There died today in Berlin, a man whose German title, literally translated is "Upper Court Preacher." He was Ernest Dryander, for more than thirty years the friend, confidant and court preacher of the Kaiser. During his incumbency he officiated regularly on Sundays in the Dom-Kirche, the gingerbread architectural attempt at a cathedral directly opposite the Imperial Palace.

William listened to Dr Dryander's preaching when he was a student in Bonn University. In 1890 Dryander was called to the "Upper Court Preaching" in Berlin and joyously accepted the appointment. He was intimate with the whole Hohenzollern family and in his memoirs he wrote thus about his relations with its members:

"At all times I endeavored with every ounce of strength in me to serve the Imperial House and to be loyal to it and, to be sure, loyal not only in what I talked about, but also what I kept secret as not being part of my clerical job."

Despite his age—he was more than 70 years old—he was one of the relatively few Germans able to adapt themselves intellectually

to the new times that followed the war. Probably his best saying was "Truth is simple. The simpler it is the truer."

This rugged Imperial parson had another human touch. He admitted in confidence that he wrote out his own sermons, and the longer they were the more work he had to do.

In September, 1918, the Kaiser conferred upon him the Order of the Black Eagle, which carried with it the patent of hereditary Prussian nobility. It was said to have been the first instance of a Lutheran clergyman being so honored.

BALFOUR RESENTS NON-APPROVAL OF NAURU MANDATE

GENEVA, Sept. 6.—The Earl of Balfour feeling that criticism was implied in the mandate commission's report on class C mandates in which the section dealing with the island of Nauru was exempted from general approval, told the council of the League of Nations yesterday that he could not accept such criticism. The question involved is the alleged exploitation of the rich phosphate mines of the island for the exclusive benefit of Great Britain, Australia and New Zealand. The mandate for the island was originally given to the British Em-

The total production to date is 22,283 eggs.

IN LIGHTWEIGHT CLASS.

A particularly small but very dapper man was walking between two fashionably-attired girls. At the corner of a side street they happened to pass two street urchins who looked at them and grinned. To the obvious embarrassment of the girls' escort, one of them said: "Ain't much 'am in that sandwich, is there, Bill?"

But some of the dominions abandon their rights, leaving the exercise of the mandate to Great Britain, New Zealand and Australia alternately.

HAD ROUGH TIME IN A SEAPLANE

HALIFAX, N. S., Sept. 6.—After a day of trying, experimenters in attempting to make his way to Lockport, N. S., in the dense fog of yesterday, Major A. B. Shearer of the Halifax air station was expected to arrive back around noon in the seaplane with which he left here yesterday morning.

About twenty miles southwest of Lunenburg, he was compelled to take the water on a heavy sea. This was so rough that he was unable to get into the air again for two hours. Meanwhile the plane was washed around, the water coming over her and necessitating the use of pumps. Finally a small bay with smooth water was made. From there Major Shearer decided to return to Halifax.

HERE FROM AFRICA TO STUDY METHOD OF HANDLING CROP

OTTAWA, Sept. 6. — W. J. K. Skillcorn, chief assistant to Sir William Hay, general manager of the South African Railways, has been here interviewing the department railways on the matter of operation of the railway system of Canada, particularly with reference to the handling of crops. He will go west to inspect the elevator system and to see the whole process of the bulk handling of grain with a view to introducing something similar in South Africa. The South African government is now undertaking the construction of a system of terminal elevators and Canadian experience will be largely drawn upon.

WALTER S. THOMPSON HEADS GRAND TRUNK PUBLICITY BUREAU

MONTREAL, Sept. 6.—It is announced that Walter S. Thompson has been appointed Publicity Agent of the Grand Trunk Railway System, reporting to the office of the Vice-President and General Manager. AT JESUS' FEET

At Jesus feet, 'tis sweet to meet, And bow our heads in silence there; In God above we place our love, Our souls in the hour of care, Our trust so sweet, 'tis so replete With hope that's fed by Heaven's dew;

'Round us the while, the angels smile,
God watches over me and you.
At Jesus' feet, let us abide,
'O Lord, O Thou Crucified One,
As here we kneel, hear our appeal
Teach us to say 'Thy Will be done.'
Thy call is clear, Thy voice we hear
Thy blood stained Cross, it was Thy way.
Then sorrow's dart must pierce our heart
To teach us how we must obey."
At Jesus' feet, 'tis sweet to meet,
God gave us light His work to see,
In Him to trust, to say "I must"
And share in His Gethsemane
To do His work and never shrink
To bear it all and be at rest,
To kiss the Cross and bear our loss
For this we know that God knows
best.
We need the Cross, the Cross we bear
It draws us to His side in prayer,
And soothes our weary load of care.

LIVING COST IS DROPPING

TORONTO, Sept. 7.—The index number of wholesale prices in Canada, constructed by Professor H. Mitchell of McMaster University, Toronto, stood at 164.7 at the end of August, thereby registering a decline of 2 per cent from the previous figure of 165.3, for the month of July. This compares with 176.7 for August, 1921; 254.4 for August, 1920, and 249.3 for August, 1919. Since April of this year foodstuffs have declined 2.4 per cent, while manufacturers' goods have advanced 7.9 per cent. This probably indicates that while the cost of living is still slowly dropping, the cost of manufacturing is rising fairly sharply.

Lancashire Leads In Trade Revival

LONDON, Sept. 7.—"Politically, Europe is in a nightmare, but commercially it is approaching convalescence." This opinion was expressed today by Sir Edward Mackay Edgar, who predicts a steady revival of British trade. He forecast an exceptionally busy time in the Lancashire cotton industry, which even now, is sending abroad as much cotton yarn as before the war.

Sir Edward said that Europe was beginning to place orders once more, while, outside of Europe, the Indian and Chinese markets in which Lancashire is particularly interested, are better and the outlook decidedly brighter. He looked to the northern country to lead in the coming trade revival, which would extend to the iron, steel, shipbuilding, coal and wool and other industries. British trade was now quietly, persistently and definitely on the upgrade. There would not be a boom or anything sensational, but a steady even advance all down the industrial line, which neither blunders, politicians nor chaos of exchanges

would be able to prevent, he said. Since the armistice without the country being aware of it, Lancashire has been the scene of steady progress on the reconstruction and consolidation of the country's greatest industry, which will soon be as well equipped for external competition as it is for internal efficiency. Sir Edward concluded.

CHINESE WISDOM.

He who knows not, and knows not that he knows not—
Count him a fool, unworthy of thy speech.
He who knows not and knows that he knows not—
Count him as one whom it were well to teach.
He who knows, and likewise knows he knows—
A slumberer he, who but awakes in need.
He who knows, and likewise knows he knows—
Mark such a one, and follow where he leads.

Heavy Crop of Goodyear Tires 1922

A record-breaking crop—the crop of Goodyear tires for 1922.

Like Canadian No. 1 Wheat, a crop famous the world over for quality.

But a crop required by the consumer demand.

Only a record-breaking demand could keep the immense Goodyear factory at New Toronto busy for 24 hours a day (three 8 hour shifts) as it has been for months.

And only record-breaking mileage could produce this demand.

Goodyear Tires go farther to-day than ever before. Goodyear Tires cost less to-day than ever before.
