Proper Exercise is Essential to Perfect Health

Ask your Druggist he will tell you that without the right sort of exercise, the muscles become weak, soft and flabby instead of strong and firm.

The organs of the body will also perform their functions more naturally if healthy exercise is taken.

Open-air exercise is best,—the kind you get at Fishing, Golfing, Kodaking, Etc., Etc.

We have everything needed to make these sports healthful and pleasant,—right qualities at right prices.

Is a Young Girl Less Interesting Than a Sophisticated Woman?

"A young, untried girl is a good deal like a book with its leaves uncut writes Jane Phelps in her newest novel. "It may be she will be interesting. or that his thoughts will wander because of a sameness in the story, which bores him. Very young women are so anxious to be everything all at once that they leave no page unturned, nothing fresh and new to stir a man's jaded appetite."

Sandra Courtney was this type, and Irma Barton was, oh, so very different. Sandra was just eighteen, Irma had been through the harrowing mill of experience and had come out with no illusions but with startling depths of character.

Which of these would a man find more interesting? Find out in "Sandra the Jealous" which starts on Friday.
