And Will Swallow the Bitter Medicine. Austria To Keep Bosnia Herzegovina Without Payment. King Peter Wants to Abdicate.

BELGRADE, March 29—(Special)—Serbia has surrendered completely to the demands of Europe. This action probably will set the Balkan question at rest for many years.

Ministers of Great Britain, France, Russia and Italy will inform the Serbian Government of the recognition of the annexation of Bosnia and Herzegovina by Austria Hungary. They will advise Serbia to consider the question closed and issue a circular note to all the powers acknowledging the annexation and at the same time assure Austria Hungary of her peaceful intentions revoking all claims to indemnifying concessions. Serbia will swallow the bitter medicine and follow the advice of the powers.

The execution was the second in this state and was effected without any sensational incident. The spiritual adviser of the condemned woman, following the execution, gave out a statement signed by Mrs. Farmer in which she declared her husband, James Farmer, entirely innocent and that he knew nothing of the crime until after it was committed.

THE DOMINION TO AID BRITAIN

By Subsidising British Shipbuilders to Establish Yards in Canada, Also Big Gun Foundries. Canada Then to Build Warships.

OTTAWA, March 29—(Special)—In Parliament today Sir Wilfrid Laurier stated the position of Canada with reference to helping the Empire. The first steps which Canada will take will be by subsidising first class British shipbuilders to establish works on a large scale at some point in Canada where war and commercial craft can be turned out. A beginning will also be made with the manufacturers of heavy artillery,

so that by the time Canada goes in for Dreadnoughts out of the conditions will be that they can be built in Canada. Another will be Canadian auxiliaries to man and attend them and Canadian bases for the accommodation of British battleships. This is in accordance with the policy outlined to the Colonies as the most desirable by First Lord of the Admiralty at the Colonial Conference.

CROOKS SELL CENTRAL PARK

NEW YORK, March 28—Captain Michael Reddy of the West Sixty-eighth street police station was on the lookout yesterday for two extra clever real estate men, who had sold a goodly section of Central Park to William Sawtelle of Erie, Pa. Sawtelle, who is quite a stranger here, pleads that he does not come from Erie proper, but from a suburb of that prosperous burg. He came to New York in answer to a real estate advertisement, and he was ushered into elaborate real estate offices in West Forty-third street. Sawtelle had with him \$4,000 to bind the proposed deal. The party, two men and Sawtelle, got into an automobile and were whirled up to Central Park, where that proposed part of the city's property that was to go to the man from Erie, for a consideration, was located. This had been neatly labelled with a small sign, "For sale. Apply to Charles Hanks, West Forty-third street." Sawtelle was enamored of the lot. He went to the Plaza to close the deal. Meanwhile a confederate pulled down the sign. Sawtelle paid down \$4,000, and the owners took a mortgage on their property for the remaining \$32,000 and handed over the deed.

DUKE OF WESTMINSTER'S HEIR-PRESUMPTIVE

LONDON, March 27—Lord Arthur Grosvenor, by the recent death of the 4-year-old son of the Duke of Westminster, has become heir presumptive to the most valuable landed estates on earth. This property includes 600 acres of the choicest portions of London's best residential districts, including Park Lane and the palatial country mansion surrounded by about 5000 acres, to say nothing of 30,000 acres in Flintshire and Cheshire, and 40,000 acres of farm land in South Africa. It has been derived by the duke from his vast estates totaling \$3,000,000. A small section of the West End property alone brings in a steady revenue of \$2,000,000. It might afford an idea of the value of these estates to mention that when the late Duke of Westminster died he paid "death duties" amounting to about 10 per cent to the tune of \$6,000,000. It would be almost impossible to give a correct approximation of the actual market value of the Westminster properties, but taking them on a 25-years purchase basis they would probably be "capitalized" at between \$75,000,000 and \$80,000,000.

ARRANGEMENTS FOR ANGLICAN BICENTENARY

HALIFAX, March 28—The arrangements being made for celebrating the bicentenary of the first Church of England service in Canada, which took place at Annapolis in 1718 are rapidly assuming shape. A well attended meeting of the committee in charge was held at the Church of England Institute, His Lordship the Bishop in the chair. The bishop reported that no less than forty English, Scotch and American bishops had already accepted the invitation to be present, while many others, including the Archbishop of York, and the Bishop of London, hope to be able to do so, but cannot yet definitely promise. In addition to this, all the Canadian bishops are expected to attend. A number of other well known clergymen and laymen outside of Canada are also to be invited to attend and take part in the church congress. The secretaries of the congress presented a long report, the result of much thought and deliberation. The celebration is to commence with special services in all Anglican churches on Sunday, August 28th, commemorative of the two hundredth anniversary. The celebration proper will commence with the formal opening of All Saints' cathedral on Saturday, September 3, 1910, which promises to be the most magnificent ecclesiastical event ever held in Canada. The same evening there is to be a grand reception of delegates at St. Paul's, Halifax. On the Sunday following special services in all the churches of Halifax and Dartmouth, with visiting bishops as preachers, and a great mass meeting for men, to be addressed, it is hoped, by the Archbishop of York, the Bishop of London and others. The next three days will be given up to the Canadian Church Congress, which will discuss the church, the child and the home, the evangelization of the world, practical problems of the Canadian church, the church and the commonwealth, etc., with great evening mass meetings on Sunday school work, and missions, and special meeting for women and children. The congress will close with a great devotional meeting at St. Paul's church. Then on Thursday the day will be spent at Windsor, where a special convocation of King's College will be held. The following day will be spent at Annapolis, where appropriate commemorative celebrations will be held, while on the Sunday following special services will be held at St. John's and Fredericton. Rep. R. A. Hiltz's resignation as one of the associate secretaries of the congress was regretfully accepted, but two others were added, the secretaries now being Rev. C. W. Vernon and L. J. Donaldson, Messrs. R. V. Hepburn and C. A. Prescott. The parochial clergy of the deanery of Halifax, with Rural Dean Lemoine as convener, were appointed a hospitality committee, to act in conjunction with a committee to be appointed by the Women's Auxiliary. All the organists and choir masters of the city and Dartmouth, with Rev. K. C. Hind, were appointed a special committee to look after the musical arrangements. All the historical and other learned societies are being interested. It is hoped that British and American warships may attend to take part in the civil celebration of the bicentenary of the establishment of British rule by the capture of Annapolis.

DARTMOUTH MAN KILLED AT AMHERST

AMHERST, March 28—A sad accident resulting in the death of a young man, Watson Gates, of Dartmouth, occurred here today in the rolling mills, connected with Rhodes Curry and Company's works. The deceased was passing a set of rollers and in some unaccountable manner tripped, his hand entering between the revolving rollers, the whole body being drawn in and crushed to a shapeless mass. He was at once removed to the hospital and the arm was amputated at the shoulder, but he lived a short time. Mr. Gates belonged to Dartmouth and it is understood his father will arrive by the Maritime Express this evening. Much sympathy is expressed for the bereaved family.

EARLY OPENING OF ST. LAWRENCE

MONTREAL, March 27—A despatch from Father Point at noon today states that a sailing yacht from Besimias a port on the North Shore, on the St. Lawrence, passed inward at 10 o'clock this morning. The wharf at Father Point is quite clear of ice and the yacht could have moored alongside, but she is going farther up the river. This is the earliest movement on record in the history of the St. Lawrence route, and shipping men say it shows how easily communication could be maintained between the two shores all winter if a vessel were built for the purpose. Thomas Robb, secretary of the Shipping Federation of Canada states that telegraphic despatches from the gulf show that the ice is on the move and everything points to an early opening of navigation this season.

RUN DOWN BY EMPEROR'S YACHT

HAMBURG, March 27—The Imperial yacht Hohenzollern, which left Kiel yesterday through the canal bound for the Mediterranean for the use of Emperor William in the event of his going to make a cruise to Corfu, collided last night in a dense fog near Norderney, in the North Sea with the Norwegian steamer Por, which sank immediately. The crew of the latter were rescued. The Hohenzollern was only slightly injured and put into Wilhelmshafen for examination and repairs.

"As a result of my conference with Secretary Meyer," said Mr. Wheeler, "I expect that quite a flotilla of torpedo boats will be sent to Lake Champlain, including possibly a submarine torpedo boat." "President Taft, Vice-President Sherman and Speaker Cannon, have each formally accepted invitations to be present. The planet Neptune is estimated to be 2,800,000,000 miles from the sun.

NATIONAL MISSIONARY CONGRESS AT TORONTO

Circular matter containing information regarding the National Missionary Congress to be held in Mass. Hall, Toronto, from March 31—April 4 has been received with pleasure by the Guardian. The adoption of an adequate missionary policy is to be carefully considered by many of the most influential laymen of North America and considerable discussion on this most important subject will then take place. A powerful address entitled "The Law of Christ's Kingdom" is to be delivered by Sir Andrew Fraser, one of Great Britain's most distinguished public men, having given thirty-seven years of splendid service to the Crown in India. He is vice chairman of the world's Missionary Congress to be held in Edinburgh in 1910, and comes to Canada by special invitation of the Canadian Council to be present and address the Congress. The general secretary speaks on the "Influence of Missions and how it will conduct the conference on "How to lead the church to its highest missionary efficiency." Those present will hear Dr. S. M. Zwemer, missionary and author, who has spent fourteen years in Arabia, held forth upon "The import of Christianity on non-Christian religions." J. A. Macdonald, well known from Atlantic to Pacific as editor of the Toronto Globe, and a man of sterling integrity and "The Christ-land of our civilization." One third of the people of Canada at least know Rev. C. W. Gordon, of Ralph Connor by name and the greater recall with indescribable pleasure winter evenings spent over the masterpieces of Canadian literature and dealing with the life of those who form the backbone of Ontario. "A

man among men," someone has described him as and those who hear him speak on "Our duty to the English speaking and European settlers" are to be envied. If space permitted many others might be mentioned but this short list will at least give some idea of the Congressional platform. It is expected that not less than two thousand laymen, besides students and clergymen will be in attendance, and for the benefit of those special hotel and railway rates have been granted. On Wednesday March 31st an introductory prayer service will be held at the school house of St. James' Cathedral, in the room where the Laymen's movement was organized and the following services and addresses then take place.
