THE OLD-FASHIONED HOME.

It cannot be denied that we are getting away from the old-fashioned home, as we are getting away from many of the conditions known to our forefathers.

VANDALISM.

On Monday night, of this week, a few toughs from Charlottetown amused themselves and each other by removing and carrying away the direction-boards set up by the Publicity Association to guide travellers on their way and to welcome visitors to our province.

This change has taken place within the life-time of many still living, of many who have seen the old world transformed into the new, who have seen the old-fashioned home, with its old-fashioned ways transformed into the modern home with its modern ways.

The placing of these direction-boards cost considerable money, and it was cheerfully paid by men and women who respect and love their Island home.

As has very frequently been said in the press of the province, too many vandals and law-breakers get off with their misdeeds. Of fenders are frequently caught, brought to trial and get off with a lecture only to repeat the offence.

EDITORIAL NOTES. Temperance in the province of Ontario has taken a distinctively political turn.

The Caledonian Club lecture course got away to a good start last night and the series promises to be very popular.

We all have good memories for the rainy days, so good that one or two rainy days leave the impression that the whole month was rainy.

The present year promises to end up with a bigger favorable balance than any that preceded it. This province is wealthier today than ever before.

Notes by the Way

The harvest is over, and Summer sleeps fast. Fair Ceres has smiled, as in years that are past; and bounteous was she in swelling the grain.

It is not always that we remember to give thanks for bounties received and to ask blessings on our labors. We recall when the King, as Duke of York, went to Australia his speech for the opening of the Federal Parliament was drafted in the Colonial Office and sent to the Privy Council for approval.

Thanksgiving dinners are nothing new to what they were in days gone by, and one is inclined to think the race is degenerating so far as the art of tucking in is concerned.

Who are the men who have given the largest measure of learning and culture to the world? You can probably name two or three off-hand. But could you select eighteen such geniuses adorning as many fields of human endeavor?

A NEW OLD TREATMENT

One of the old pictures which brought a smile to your face was that of the physician of olden days opening a vein, blood letting, for various ailments.

This method of treatment was discarded almost entirely as it seemed to be a crude method of getting "finess" out of the body.

However physicians who persisted in using this form of treatment were able to show some startling results, and blood letting, venesection as it is now called, has established itself as a common sense method of controlling certain abnormal conditions.

However blood letting is not a method of treatment that can be used day after day in chronic cases of heart disease or high blood pressure.

HONOR THE LORD — "Give thanks unto the Lord, call upon His name, make known His deeds among the people. Sing unto Him, sing psalm unto Him, talk ye of all His wondrous works. 1 Chron 16:8,9.

REJOICE IN SEEKING — "Let the heart of them rejoice that seek the Lord." 1 Chron 16:10.

INVICTUS (By William Henley)

Out of the night that covers me, Black as the pit from pole to pole, I thank whatever gods may be For my unconquerable soul.

My head is bloody, but unbowed, Beyond this place of wrath and tears, Looms but the Horror of the Shade, And yet the menace of the years Finds, and shall find me unafraid.

How charged with punishments I am, Master of my fate; I am the captain of my soul.

OUR PROHIBITION LAW

Sir,—Premier Ferguson of Ontario and the Rev. Mr. Herman of the Central Baptist Church in Charlottetown have caused people to think over again "What's best for the individual and national evils resulting from it."

It is admitted on the one hand that the Prohibition Liquor Law has not been well or satisfactorily enforced, and that the liquor evil continues to grow.

Yet it has to be admitted that there is now, particularly in the town, an increasing tendency towards breachers of the law.

Those who are older know that by one glass the desire for another glass is created and that drunkenness in this world and the next is the heavenly King, as they journey sweetly in.

It is urged by some persons that the Quebec law of Government control of the liquor traffic is better than that of prohibition.

The effects of government control in Quebec, and the facts and opinions concerning them that will be adduced in the coming Ontario election.

Welcome News! A Cheque for \$10,256.20

INSTEAD of asking him to pay any further premiums, the Mutual Life of Canada sent him a cheque for \$10,256.20.

Here is a man who took a ten thousand dollar straight life policy in middle age when he was earning good money, but his family needed protection.

The premium of \$285.20 he could readily pay. And he expected to pay it the rest of his life.

Instead of paying premiums until death, as his form of policy provided for, Mutual profits have enabled him to enjoy the possession and benefits of more than ten thousand dollars in his old age.

The Mutual Life agent will be glad to show you the Mutual Life Result Book.
