SECOND DAY OF VICE REGAL VISIT

A Scenic River Sail-Duke Plants Tree-Other Functions Attended

This morning at six o'clock the C. G. S. Earl Grey with the Vice Regal party on board will leave Charlottetown harbor for Pictou, the visit of the Royal Governor General to this city having been officially concluded last evening by the dinner at the Government House.

At this dinner there were present Their Royal Highnesses the Duke and Duchess of Connaught, Princess Patricia, Col. Lowther, Capt. Bulkeley, Capt. Buller and Miss Adam. Besides His Honor Governor Rogers and Mrs. Rogers there were Premier and Mrs. Mathieson, Chief Justice Sullivan, and Miss Sullivan, U. S. Consul and Mrs. Frost, Mayor and Mrs. Lyons, Senator Yeo, Col. and Mrs. Peake and Capt. Palmer.

Speaking to the Governor His Royal Highness expressed great pleasure on his visit to this province and to Charlottetown.

Yesterday morning a large number of invited guests including the Royal party, enjoyed a sail up scenic West River on the S. S. Harland which was dressed especially for the occasion.

The weather was fine and the sail was greatly enjoyed. Those invited were presented to the Duke and Duchess and Princess Patricia.

In the afternoon at three o'clock the party disembarked from the Earl Grey and His Royal Highness proceeded to the Experimental Farm and the Duchess and Princess Patricia drove to the Golf Links.

At the Experimental Farm His Royal Highness planted a tree in front of Prof. Clark's dwelling. The Duke took an active interest in the farm and discussed farm work in a practical way frequently offering judicious suggestions.

He went through Prof. Clark's home and was concerned in everything brought to his notice. The residence had been tastefully decorated by Stanley Bros and presented a splendid appearance.

On the driveway flags and streamers were used and a pretty effect was secured throughout.

Leaving there in time to reach his destination at 5 o'clock His Royal Highness departed for the Golf Links to join the others of the Royal Party and was met there by rousing cheers.

The club house was splendidly decorated and there were many club members present.

Princess Patricia, despite the shower of rain, enjoyed several rounds of golf with others of the party.

In the club house in the afternoon tea was served by the ladies. Mrs. Mathieson and Mrs. Longworth received the guests.

The previous night Sir Louis H. and Lady Davies entertained His Royal Highness and from the lawn the fireworks display was viewed.

Yesterday evening the private electrical and other illuminations were again in evidence.

CAPTAIN BERNIER GOES TO ARCTIC ON GOLD HUNT

QUBBEC, July 30—Capt. Bernier, former Commander of the government steamer Arctic, left yesterday quite secretly on the schooner Minnie Maud for a cruise in the Arctic Islands in search of gold mines.

He refused to give information as to destination, but intimated that he might be absent two or three years.

KING GIVES CUP

NEW YORK, July 30—The New York Yacht Club received word from England today that King George V had presented a cup to the club to take the place of the cup presented by the late King Edward VII.

King Edward's cup has been raced for each year at the finish of the club's cruise off Newport. The new cup presented by King George is to take the place of King Edward's cup as a trophy.

The King Edward cup will be retained by the club as a memorial.

HARVEST EXCURSION

MONTREAL, July 30—The C. P. R. has announced the dates of the harvester's excursion, commencing from the Maritime Provinces August 12th and the second leaving August 16th from Quebec and Eastern Ontario.

RED MANY WERE DROWNED.

BINZ, Germany, July 29—A shocking catastrophe, causing the death of a large number of German excursionists occurred last evening at the Baltic bathing resort. The landing stage which was crowded to its utmost capacity, during the concert given by the local band collapsed and threw over a hundred people into the sea.

There was a terrible scene of excitement as the people on shore and on the ruins of the landing stage endeavored to rescue the men, women and children, struggling in the water among the wreckage. Twenty one bodies have been recovered but it is believed that many more people lost their lives.

BARRY DEFEATS ARNST.

LONDON, July 29.—Ernest Barry, the English champion sculler, today defeated Richard Arnst, of Australia, in a race over the Thames course for the sculling championship of the world. This was the first time in sixteen years that the world's sculling championship had been competed for on the Thames. Richard Arnst, the holder of the title, started the race with the prestige of a previous victory over his opponent, Ernest Barry, who he had defeated on the Zambesie in August, 1910.

Barry claimed at the time that he was not in condition and he had been anxious ever since for another attempt to defeat the world's champion and for the chance of bringing the title back to England and where it had not been held by an Englishman since 1876.

The contract between the rival scullers both in action and physique could scarcely have been greater. Arnst standing six feet one inch is so finely proportioned that he did not look the height nor did he seem to be carrying the announced weight of 200 pounds. Barry is more lighter in form but was muscled in a manner which proved that he was equally strong. In style Arnst seemed to have superior thrusting power, but Barry showed better form.

The race was for a purse of \$5,000 and the championship cup, which had been held for several years by Arnst.

THREE QUARTERS OF A MILLION ESTIMATED LOSS

Resulting From Collision of Empress of Britain and The Helvetia

MONTREAL, July 30—An approximate estimate of the loss to the C. P. R. and the British and Chilian Steamship Co. as the result of the collision of the Empress of Britain and the steamer Helvetia in the Gulf of St. Lawrence Saturday afternoon by which the Helvetia was sunk and the Empress was badly battered is given at nearly three quarters of a million dollars by local steamship authorities.

I.C.R. PASS CASE

MONCTON, July 30—There were few developments of interest in the I. C. R. pass investigation today. Tilman Legere testified to having purchased a pass from Elmer Ferguson, then of the Moncton Trans-Atlantic, and Tilman Melanson testified that he went to Campbellton on the curling team in 1910 skipped by D. Murray. Mr. Murray had undertaken to provide transportation for the party but witness had not seen it.

The enquiry was adjourned to Aug. 8th pending the arrival of an important witness from Winnipeg.

AMENDMENT REFUSED

WASHINGTON, July 30—The House today refused by a vote of 127 to 107 to agree to Senate's amendment to the excise tax bill providing for a repeal of the Canadian reciprocity act.

ANOTHER DINNER

PARIS, July 30—The visit to Paris of the Canadian Premier and other Canadian Ministers closed tonight with a dinner given by the Franco-American committee in their honor.

The dinner was presided over by Premier Poincare and Gabriel Nantoux, President of the Committee. Premier Poincare, during the course of a lengthy speech said he was sure the Canadians felt it in France the same cordial atmosphere of home which the Champlain delegation had felt in Canada.

FATHER AND SON KILLED TOGETHER.

NEW YORK, July 29—Nine persons were hurled to the roadway last night when a big automobile in which they were riding and which was driven by August Becker, wholesale grocer, of Brooklyn, crashed into a surface car at Manor and Jamaica avenues, Union Course, L. I. Two occupants of the machine, a man and a boy, were so severely hurt that it was said at St. Mary's Hospital, Jamaica, they would die. The automobile was smashed. Persons in the trolley car were pitched forward, sustaining slight injuries, and the front part of the surface car was bent and broken.

THE WEATHER THE TEMPERATURES TIDES, SUN, MOON, ETC.

(Special to The Guardian.) TORONTO, July 31—Moderate winds; fair and much the same temperature with some local showers.

The lowest temperature recorded yesterday was sixty-three degrees above zero and the highest was sixty-four above. The lowest recorded the previous night was fifty-five degrees above. At nine a. m., yesterday it was sixty-three above and at nine p. m. it was sixty-four above.

MONROE DOCTRINE WILL BE INVOKED

No Foreign Nation Allowed To Secure Naval Base At Magdalena Bay

WASHINGTON, July 30—That the Monroe Doctrine forbids the United States to permit any foreign nation to secure a naval base at Magdalena Bay or any other similarly situated points on the American continent is understood to be the substance of the report to be made tomorrow by Senator Lodge to the Senate Committee on Foreign Relations.

It is understood that there is no evidence that the Japanese government is itself behind the corporation that was endeavoring to secure the land for a naval base.

MOVE MADE FOR PEACE

The New Cabinet Makes First Move Towards Peace With Italy

CONSTANTINOPLE, July 30—Official announcement was made in the Turkish Chamber of Deputies today of the willingness of the government to enter into peace negotiations with Italy.

This is the first important work of the new Turkish cabinet and is the only definite indication hitherto given that Turkey is ready to bring hostilities to a conclusion.

On the last occasion when there was talk of peace it was stated on July 12th that the Italian government had unofficially informed the powers that it was ready and anxious to bring the war to an end and was willing to pay a heavy cash indemnity to Turkey to transfer its sovereign rights in Tripoli to Italy and act in a similar way in regard to Turkish Islands in the Aegean Sea now occupied by Italy.

MARTIAL LAWS IN PORT ARTHUR COAL DISTRICT

PORT ARTHUR, July 30—The entire C. N. R. coal and iron district at this place is under martial law today following the strike of dock laborers in sympathy with those at Duluth and Superior.

Three hundred soldiers from 94th Regiment, under command of Col. Little, today made a search in the homes of striking laborers for weapons following the reading of the riot act by Mayor Ray and a formidable array of revolvers, knives and water soaked slings was confiscated.

CONDENSED ADS TOO LATE FOR CLASSIFICATION

One cent per word each insertion in this column. Cash must accompany order and five per cent discount allowed. Minimum charge, twenty-five cents.

WANTED GIRL. APPLY AT ELDON HOUSE. 7-31 M U. HARRY RIGGS, PUBLIC TRANSPORTER. Stand Medical Hall, Phone 217. 7-31 M U. WANTED A COUPLE OF PAINT AND VEST MAKERS. Permanent employment given. Minards Liniment cures garget in cows

QUEBEC WILL INSIST ON A DRY DOCK

Delegation To Wait On Minister of Public Works For This Purpose

QUEBEC, July 30—The Quebec Board of Trade together with the Harbor Commission, the municipal authorities and leading citizens of Quebec will form a delegation to interview Hon. F. D. Monk, Minister of Public Works, who will visit here tomorrow.

They will insist on the urgent necessity of having a dry-dock built at Quebec, illustration of this necessity having just been shown by the experience of the Empress of Britain which will be obliged to go to England for permanent repairs.

EMPERORS DEATH

TOKYO, July 30—The death of the Emperor of Japan, which caused widespread grief, has had small effect on normal conditions here.

There has been a remarkable absence of demonstrations of any kind and aside from closed banks and commercial houses, crepe bands, flags at every entrance and evident signs of grief by the foreigners, the nation has moved along on its accustomed business.

NEW ANNAN RACES

The horse races that are to take place at New Annan on Wednesday, August 7th, promises to be unexcelled.

Three splendid classes have been chosen by the Management, viz: 2.35 Trot and Pace, purse \$100.00 2.40 Trot straight, purse \$75.00. Green race, purse \$50.00, and a running race.

James Pendergast, Secretary of this new race track, is sparing no pains in making the opening a grand success. Everything is being done to insure a good time as thousands are expected to be present.

A special train will leave Summerside at one o'clock a. m., and special rates have been arranged from all points on the P. E. I. Railway.

Captain D. A. MacKinnon, of the MacKinnon Drug Company, Charlottetown, will start three of his horses, viz: Iona Girl, Red Wing and Ruby Rexall, while T. C. Edgett will start Cherry Ripe and White Wing.

It is expected that there will be a large field of starters in each event.

THE KING NEEDS REST.

LIVERPOOL, July 29—The Daily Post is responsible for the following story: The person who really needs a rest cure is the King. He is quite exhausted by the continual strain of being so much in the public eye. At Sandown Park on Friday week, when the Elipse stakes were being run, on which every one's attention was concentrated, King George rested his face on his hands and gazed abstractedly, as though he were thankful for a minute, not to be the cynosure of all eyes. The King is bothered with insomnia, and it is likely that he will go to Harrogate next season, to take a course in the waters.

INCREASED PAY FOR RAILWAY EMPLOYEES

PREMIER ASQUITH DENIES RUMOR RE SINGLE TAX

LONDON, July 30—The British Premier, Herbert Asquith, denied in the House of Commons this afternoon that the government proposes to frame a measure for single tax on land.

POLICE SENSATIONS

NEW YORK, July 30—Sworn statements tending to show that the annual graft collected by the high officials in the New York city police force from gambling houses and other illegal resorts last year amounted to \$2,400,000 are in the hands of District Attorney Whitman.

The statements were made by "Bald" Jack Ross, the self-confessed graft collector for police lieutenant Becker, who tonight began his second day in the toombs as the alleged instigator of the murder of Rosenthal.

ESTABLISHES B N

SHANGHAI, July 30—It is reported that Dr. Sui Yat Sen and general Tuang Sing have concluded negotiations for the establishing of a foreign and Chinese Bank in Shanghai with a capital of \$10,000,000.

The object is to checkmate the proposed foreign loan.

TRANSCONTINENTAL TRAIN SERVICE

FRIDERICTON, July 30—A report says that the Intercolonial will soon start a train service on the Transcontinental between Moncton and Grand Falls, N. B.

DOCKSTRIKERS REFUSE TO WORK. LONDON, July 29—The refusal of the dock workers in London, to obey the manifesto, issued by the strike leaders on Saturday, declaring the strike at an end since it has lasted ten weeks, was given practical effect today, when very few of the men returned to work. It had been announced that all of the agreements between employers and men which existed before the strike began, would continue in force. The strikers are generally of the opinion that their leaders have betrayed them into an unconditional surrender and they are unwilling to agree to such step.

A new spirit seems to have entered into the men and today it was observed that most of them displayed a much more ugly temper than noticeable on this account an even stronger force of police than usual was stationed at the dock gates, to protect the non-unionists, who have continued at work, throughout the strike. These men appeared in their usual numbers and as they entered the gates were regarded sullenly by a large number of the strikers. The secretary of the strike committee this morning said that the strike will probably be resumed. Several of the unions involved meet today to discuss the situation and it is expected that most of them will vote for a continuance of the strike.

IRON WORKS PROBABLY COMING TO ST. JOHN. ST. JOHN, July 29—W. Burton Stewart, vice-President and General Manager for Norton and Griffith Co. Courtenay Bay contract, said today that the big steel and iron industry must come here, and if it must come, it must come soon. He regarded the prospect as more than a likelihood, and said that there was nothing to prevent it if expenses were not too enormous. The site would likely be close to the new dry dock. The cost would be three or four million dollars. The plant would employ one thousand men at the outset, and the output roughly one thousand tons a day. It would not be necessary to go to England for the capital as there was a Canadian firm, already in operation elsewhere, interested in the project. He was not in a position to announce the name of this company.

Will Be Suggested By the Board of Adjustment of I. C. R. and P. E. I. R.

(Special to The Guardian.) HALIFAX, July 30—The report of the Joint Board of Adjustment of the Intercolonial and P. E. I. Railway to consider rules and rates of pay of those represented by the Canadian Brotherhood of Railway Employees will be forwarded to Ottawa in ten days.

An increase in pay will be recommended on the ground of increased cost of living, an increase placed by the Board at 12 per cent, was upon this basis, and members believed the revised schedule will be adopted.

Grand Secretary McLean said about 2,000 men in Quebec, New Brunswick, Nova Scotia and P. E. I. will be benefited, including all railway, clerical and freight employes, parlor, dining and sleeping car employes, employes at roundhouse and mechanical shops.

The scale of pay at present to those who will be affected is from a minimum of 36 cents an hour to over a laborer to \$85 a month to parlor, sleeping and dining car employes.

TRURO PREPARING FOR DUKE.

TRURO, July 29—Mayor Stuart arrived in Truro tonight from a month's holiday spent in Newfoundland, and thus the plans of the committee, which has been preparing for the visit of the Duke of Connaught and Princess Patricia on Thursday next, are in a more settled condition, as great speculation has been going on who would read the address of welcome. The program is now, therefore, complete, and includes the unveiling of the tablet to the memory of Colonel McNutt, the first owner of lands in these parts, the laying of the corner stone of the new civic building, and a reception to the viceroyal party at Victoria square.

Excursions on all railroads are expected to bring in thousands of visitors. The decorations will be most profuse, including arches, while a guard of honor under command of Colonel Coleman and the boy scouts will line the route of procession.

FLURRY IN TRURO.

TRURO, July 29—A fire alarm from box 31 (this afternoon) caused quite a flurry in town as word was quickly circulated that the big Stanfield's factory was ablaze. It turned out to be a trial practice to test the water system and streams easily were thrown over the high buildings to the satisfaction of the fire insurance visitors who were in town today.

CHRISTIAN SCIENCE RESPONSIBLE FOR ANOTHER DEATH.

VANCOUVER, B. C., July 29—Acting particularly at the request of the Chicago police department, Vancouver police officials today caused an investigation into the circumstances of the death of Mrs. Margaret Williams, wife of a young architect named Mark Williams, of Vancouver. The couple have not long been married. The wife, who was aged 24, was the daughter of John Sanders, Chicago, who had complained to the police of this city. The evidence showed that Williams and his wife, according to his statement, were believers in Christian Science, and no attempt was made to call in a physician during Mrs. Williams' illness until too late. As a matter of fact the doctor arrived an hour after her death. Williams, who is a bright-looking young man, said that his wife had been treated by Mrs. Hattie Wheeler, a Christian Scientist practitioner, and had expressed every satisfaction in that treatment and its methods. She never asked for a doctor.

HISTORIC REMAINS DISCOVERED.

PROVIDENCE, R. I., July 30—The pantry of the home of Roger Williams, founder of the State of Rhode Island, is believed to have been uncovered by workmen in excavating near the place where a big fireplace, which authorities have marked as belonging to the Williams home, was discovered five years ago.

Dishes and crockery together with bones, believed to be human skeletons, were unearthed. A corked bottle with a dark liquid inside was one of the articles found. It will be analyzed.

On an urn, which was among the articles found intact, is drawn in bas relief the crude figure of an Indian with outstretched bow.

DOUBLE DROWNING.

BRACEBRIDGE, Ont., July 29—A double drowning accident occurred Saturday afternoon near Beauséjour, when Captain Beaumont, of the steamer Alport, and his ten-year-old nephew, Jock, eldest son of George Beaumont, of Toronto, both were drowned. The little fellow fell overboard at the gangway, and the captain jumped in after him.
