FAT GOOSE IN ANTICOSTI FOR BIG CORPORATIONS

MR. POWER, M. P., LIFTS LID

Historicus.

During the recent session in the Commons, Ottawa, Mr. Power exposed the cost of dredging a harbor in that Island, and other matters according to documents he produced as follows, viz:—

The estimates contained an item for $300,000 for this purpose, which, however, owing to the opposition, had not yet been passed when this report was reached. It was very refreshing to find criticism from the Liberal side, and from Quebec Liberals at that, especially since the expenditure is in the province of Quebec—if, indeed, the island of Anticosti is not an independent country, with Sir Herbert Holt as its king and government.

Let me quote from the protest of Mr. Power:

Capitalists Own Anticosti

"I have in my hand the prospectus of the Anticosti Corporation issued at the time the bonds were issued. It would appear that this corporation paid the Menier family $6,000,000 for the island, thereby obtaining all the rights to the hunting, fishing, farming and forestry previously held by the Menier family.

"As the minister has said, this corporation is composed of the Wayagamack Pulp and Paper Co., the St. Maurice Valley Corporation, and the Port Alfred Pulp and Paper Corporation, the last two being Sir Herbert Holt companies, and the first an independent concern.

"As soon as they acquired ownership of this island, they issued bonds to the extent of $6,000,000; that is to say, they asked the public to subscribe $6,000,000 to enable them to pay for the island.

"All the common shares of the corporation are owned by these three companies, so with the public's money they purchased the property, and now they want the public, that is to say, parliament, as representing the public of Canada, to make them a gift of some $500,000 more to help pay the interest on the bonds already issued.

"That is practically the situation from the financial standpoint . . . This Anticosti Corporation is possibly one of the wealthiest in Canada. It is not undertaking development or colonization work, and in saying that I am sorry to have to contradict the minister.

People of Island are not Free.

Again: "On the other hand, this place for which it is now sought to vote money is a private enterprise, owned by a private corporation, which keeps the inhabitants there almost in a state of peonage, and which will not allow an ordinary citizen of this country to land on the island without first receiving permission.

"I doubt very much whether these people living on the island can get married without permission. I know they must not have firearms or powder; I know that the animals which roam the forests cannot be shot by any one landing on the island; I know that the fish with which the rivers teem cannot be touched, and that no man going there may put a line in any stream under pain of deportation.

"It is even worse than somewhat similar laws we have in this country. If, forsooth, any of the workmen dare to insult his majesty the [illegible] of the island, they are deported by the next boat. That is the situation as it exists there, and I do not know a similar condition anywhere else in Canada . . .

Can. Govt. Derives Little Revenue.

"There is no such thing, and if they had, the magistrates would be in the pay of the corporation.

"Now we are told that we should vote $500,000 for this work because the post office there pays $2,000 a year, but the hon. gentleman should know that we are paying subsidies for the air mail to that island, and also for the vessels which stop there to get the mail.

"If the post office even paid enough to cover these subsidies we might be satisfied, but it does not. . . . I will admit that as a result of what I said the other day, and what I have said today I may have extreme difficulty in being re-elected, but in my opinion the time has come when members of this parliament and possibly members of other legislative bodies should say to the large corporations which are now endeavoring to throttle the economic, moral and social life of the people of the province of Quebec, that the time has come to stop.

"We will support them so long as they wish to develop the province, but when strangers and foreigners come and dictate to us what shall be our course of conduct, I think we should call a halt."

Increase in British-born in West.

Mr. Deachman, in answering Mr. Bennett, presents statistics from which he draws the following conclusions:

First—There is no marked change in the percentage of British racial origin to total population in the three prairie provinces, since prewar days.

Second—There is a steady increase in the percentage of British-born in the three western provinces.

Third—People of British racial origin or British birth are not leaving the country by thousands to be replaced by foreigners.

Bridges Should be Publicly Built.

A number of private bills are being opposed by the independent members. Several of these provide for the construction of international bridges. It is held that the day of the toll-gate is past, and that if these bridges are needed they should be publicly built.

Another bill provides for greatly increased capitalization for the Bell Telephone. This means that the telephone users will be required to pay increased dividends.

Further, that other related companies which now supply apparatus to all telephone users in Canada, can continue to exercise a very highly protective monopoly.

Still another bill provides for increased capitalization of the Sun Life. This is considered by the Superintendent of Insurance to be not in the interest of the general public. A very strong lobby has been carried on and the issue is still in doubt.

The length of this extract precludes lengthy comment in this issue—in fact, removes all necessity for it—but it is well to keep Canadians informed of what it costs them to build docks in Anticosti, and other remote parts of the country.

No doubt this dock will be built and become the property of the present owner and other financial speculators.

Many a man is honest because he never had a chance to prove himself otherwise.

ANNUAL SPORTS BANQUET AT Y.M.C.A.

This Banquet brought to an official closing the bowling series for this season, and proved to be the most successful ever attempted.

The Sacrament of the Lord's Supper will be observed in St. Andrew's Church at the morning service. Preparatory service on Saturday afternoon at 2.30 p. m. to be followed by meeting of session. The session and the S. S. will meet Sunday morning at 10 a. m.

THE UNITED CHURCH OF CANADA, PRINCETOWN ROAD — A very interesting and inspiring service was held in the Church at Princetown Road on Sunday evening, June 3rd., when fourteen new members who had decided for Christ and the Church, during the recent evangelistic services, conducted by Rev. H. N. MacLean, Ph.D., were welcomed into the fellowship of the Church. The pastor, Rev. W. H. Palmer, preached a helpful sermon on "Church membership," based on the text: Ephesians 4,13. Mr. James Matthews of Cove Head led in a very earnest prayer; appropriate music was rendered by the Choir, and a solo "God will take care of you" was sung by Mrs. W. H. Palmer. At the close of this service the sacrament of the Lord's Supper was dispensed to a large number of the congregation.

THE REASON WHY—Mr. H. Napier Moore, Editor of McLean's magazine was in Halifax last Tuesday and finding that he had no time to visit Prince Edward Island H. C. Crowell, press representative Canadian National Railways had made arrangements for them to fly from Halifax to Charlottetown in order that Mr. Moore might see the Island Province at its best. Unfortunately just as they were to take off the plane developed engine trouble and the trip had to be cancelled. Mr. Crowell was of the opinion that proper information giving reasons for cancellation of their trip had been given to the papers and greatly regrets that there should have been disappointment caused in this matter.

'Buster' Keaton Delights Audience At Prince Edward

SIDE-SPLITTING COMEDY, COUPLED WITH SPECTACULAR MOMENTS IN HIS LATEST COMEDY, "IN COLLEGE."

If you wish to laugh, go to college.

Thousands of people are taking a fun course at the Prince Edward Theatre, where Buster Keaton is holding forth on the screen in his new photoscream, "College", a spectacular feature with a campus background.

Imagine frozen-faced Buster as a flashily-attired rah rah boy and and would-be athlete? Getting into a scrape a minute—and getting out of them in the most ludicrous ways imaginable?

The story of "College" first introduces Keaton as an awkward, bookwormish sort of youth. He is a mamma's boy in high school, and when he enters university, he is imbued with the idea of winning medals as a scholar. Then along comes a girl (Ann Cornwall), who fires ambitions in the model student.

He suddenly gets an overwhelming yen for athletics and loud clothes, because the girl tells him he'll have to furnish inspiration for the cheer-leaders and campus Beau Brummels before she'll let him ring her doorbell. Buster follows her suggestion—with startling results. He dolls up like an ad for Klever Klothes shop and offers his services to all the athletic coaches.

The coaches are so delighted with the volunteer athlete that they kick him off the field every time he reports for duty. His rivals for the hand of the college belle lend plenty of aid in making the youth's life miserable.

How he unexpectedly performs the athletic feats he has dreamed of, wins the girl and is acclaimed as a real hero furnish a sensational climax.

Some of the supporting players who share honors with Buster in the United Arts comedy are Ann Cornwall, leading lady; Grant Withers, Harold Goodwin, Snitz Edwards, James Mack, Buddy Mason and Flora Bramley.

In addition, scores of world-famous athletes are seen in action at leading universities.

Other attractions, the Prince Edward serial and a two part comedy, make up a finely balanced and enjoyable bill.

A Russian scientist has demonstrated in England that his process will distill 83 gallons of crude oil and eight gallons of gasoline from a ton of cannel coal.

Transmission of motion pictures by telephone in the same manner that ordinary pictures are sent long distances has been accomplished between Chicago and New York.

GOLF

This afternoon at the Golf Links the first stage of the President's Match will be played. The tee off, will be as 2.30. Men's Single, eighteen holes. Handicap medal play.

Each stage of the match will be for points, five points to the winner, four to second, three to third, two to fourth and one to fifth. Where ties result players will be credited with points won.

The Greens never looked better than at the present time and keen interest and close competition is shown in every match.

Mr. Gray, Professional Golf Instructor, arrived yesterday on the Hochelaga and will be at the Golf Club for the next three weeks or more, ready and willing to impart his knowledge of the grand old game and it is confidently expected that a large number will take advantage of his services.

On Thursday night the club members held their weekly dance at the club house and although the weather was against a large gathering, those who attended had a most enjoyable evening.
