HARVARD "PH.D." AT 19

Dr. Norbert Wiener to Lecture on "Theory of Knowledge"

CAMBRIDGE, Mass., April 2.—Norbert Wiener, who is a doctor of philosophy at nineteen years of age, was yesterday appointed by special rate of the lectures on "The Theory of Knowledge" to Harvard College students next year.

Dr. Wiener was graduated from Tufts College at the age of thirteen and has been travelling fellow of Harvard for the last two years. He is now at Cambridge University, England.

The Harvard corporation appointed Dr. Albion W. Hewlett, professor of medicine at the University of Michigan, as visiting lecturer on medicine at the Harvard Medical School.

SUNDAY SERVICES—Rev. D. MacLean will preach in the Presbyterian Church at Souris and Bay Fortune, on Sabbath, 11th inst., at the usual hours.

PRESBYTERY

A special meeting of the Presbytery of Prince Edward Island was held in Zion Church yesterday morning to take into consideration certain resignations. On the motion of Rev. Dr. Fullerton, Rev. Mr. Gillis was appointed chairman. The resignation of Rev. A. D. McIntosh from the charge of Souris in response to a call from Albion was first dealt with.

Mr. J. A. McLeod was appointed Interim-Moderator for Souris and Bay Fortune during the vacancy. Rev. D. MacLean was appointed to preach in Mr. McIntosh's stead next Sabbath, the resignation taking effect immediately. Rev. Mr. McKay, of Bedouque, was elected to succeed Mr. McIntosh as convener of the Sunday School. Mr. T. C. James and Rev. Dr. Fullerton were appointed a committee to draft a minute in regard to the resignation. Rev. Wm. McLeod was ordained missionary for Dundas and Annandale for one year, beginning March 1.

A call to Rev. J. S. McKay, of Richmond Bay, from the congregation of Tryon and Bonshaw was next considered. Very appreciative remarks were made by members of Tryon congregation in appealing to the Presbytery to consider the call. Messrs. Morrison, Holmes and McLeod speaking in support of the call. Mr. Montgomery, on behalf of Richmond Bay congregation expressed the hope that Mr. McKay would see fit to remain where he was at present. His removal at this time would be detrimental to

the interests of the charge. Mr. McKay replied, expressing regret at his decision to leave Richmond Bay but stating that after mature consideration he had come to the conclusion that his acceptance of the call was in the best interests of all. The call was agreed to and Mr. Fraser was appointed Interim Moderator of the charge which Mr. McKay resigns.

The resignation of Rev. Mr. Rattee was next considered and accepted and Mr. T. C. James and Dr. Fullerton were appointed a committee to draft a minute expressing the regret of the Presbytery at losing Mr. Rattee and appreciation of his excellent work. Rev. Mr. Sutherland was appointed Interim Moderator. Mr. Rattee in a few remarks expressed his sincere regret at having to sever his connection with the Presbytery. He would always be glad to meet his ministerial brothers again.

The meeting then adjourned.

much higher figures than those already reached. "We can't kill our best customers," he explained, "and if they cannot pay us with gold, why should we have to give them credit? That is a matter for our bankers, and they may be expected to prepare adequately for what financing is needed."

"There is going to be enough grain to go around this year. A good big acreage of wheat will be planted in this country. It may be estimated that the acreage planted in Germany, Austria and France will be between 40 and 45 per cent. under the average. The opening of the Dardanelles, however, should release about 190,000,000 bushels of wheat to Europe. The American farmer ought to get \$1 a bushel for this year's wheat crop. Next year, when the war may be expected to be over, wheat may fall to 75 cents a bushel.

"The very fact that the war is over will have the effect of causing some settling back of wheat prices. Also, the European laborer, with factories destroyed and many industries ruined will turn back to mother earth for his living. That will be an important factor in increasing the world's crop supply and driving prices down."

"There is one all important fact to remember. The agricultural crops of this country have a yearly value of \$10,000,000,000, or more than the gold mines of the world produce in twenty years. With a backing like that no one or no one thing, unless it be the cheap, demagogue politicians, can keep this country back."

NEW YORK, April 2.—With its engineer dead at his post, the Knickerbocker Express, bound from Boston to New York, on the New Haven road, ran wild for nearly a mile just outside this city tonight. The train was brought in by the fireman, who jumped to the throttle as the body of the engineer fell into the cab.

The engineer, Charles A. McConville, a veteran in the New Haven's service, had leaped out of the electric locomotive after passing Woodlawn to examine the trucks when another passenger train struck him and he was instantly killed.

WITHOUT DRIVER FOR MILE Knickerbocker Express Was Carrying Dead Engineer

NEW YORK, April 1.—James J. Hill, who is in New York, for a stay of a few days, said yesterday that he believes the war will be over by October 1 of this year.

"The successes of one side or the other," he said, "will not settle the fight, but the physical, financial and industrial exhaustion of the belligerents will end the war by next autumn. At least, that is my firm belief." Mr. Hill believes that foreign credits established here will mount to

Off to the War and in every Knapsack rests a box of

Dr. Chase's Gift to the Soldier Boys A Large Box of Dr. Chase's Ointment is Presented to Every Soldier Before He Leaves for the Front.

You will see by the attached clipping that ointment is one of the prime necessities of the military man in camp. Note the amount used each week. The heavy clothing chafes and irritates the skin. Forced marches and heavy footwear make the feet sore. Exposure to dampness brings on piles or hemorrhoids. It therefore happens that nothing is so greatly in demand as an ointment such as Dr. Chase's.

This was proven in the Spanish-American and Boer wars, when we made a similar distribution to the boys going from Buffalo and Toronto. The volume of grateful reports then received convinced us that no soldier's knapsack is complete without a box of Dr. Chase's Ointment.

To the soldiers in training at the Toronto Exhibition grounds we delivered over 4,000 full-size boxes of Dr. Chase's Ointment. Contributions have also been sent to branches of the Red Cross Society in all parts of the country. If you are a soldier and do not receive your box kindly advise us, so we can send it to you. Edmanson, Bates & Co., Limited, Toronto. Be sure to mention this paper.

Dr. Chase's Ointment

FIVE TONS OF OINTMENT

Weekly Supply for Use of British Soldiers Upon Their Feet.

London, Feb. 10.—An "oyewitnes" at the British general army headquarters in France pays a tribute in an article given out yesterday by the Official Press Bureau to the work of the army supply departments. He calls the Ordnance Department a "military universal provider." He says in part:—

"The vastness of the work of maintaining a modern army may be gauged by the fact that during the past month the supplies furnished included 450 miles of telephone wire, 530,000 sand bags and 10,000 pounds of shoe blacking, while in ten days the Ordnance Department supplied 120,000 fur waistcoats and 300,000 flannel belts. The average weekly issue of ointment for feet is five tons."

The complexity of the work is illustrated by the fact that the index of the stores include 50,000 separate kinds of articles. Most of these still are obtained from England, but some are being manufactured by the Ordnance Department in its own workshops in France.
