Opening Yesterday of Provincial Legislature

Speech from The Throne Delivered. Warm Expressions of Sympathy to the Families of the Late Hon. Benj. Gallant and W. G. Sutherland.

The opening of the third session of the 39th General Assembly yesterday afternoon was marked by the old-time military display which added to the interest of the ceremony. The historic Legislative Chamber was filled with spectators and the ladies as usual were well represented on the floor of the House. The Guard of Honor was composed of about 100 men of all ranks from the 105th Battalion (Prince Edward Island Regiment) under command of Captain T. B. Rogers and Lieutenants W. J. Macdonald and W. E. Fletcher. There were many returned soldiers in the guard and on parade and on the march they acquitted themselves very creditably. The Regimental band was in attendance and rendered appropriate selections.

His Honor the Lieutenant Governor entered the House preceded by the Usher of the Black Rod (sergeant at arms Russell C. Chandler). His Honor was attended by his aides de camp, Col. Jenkins and Col. Peake, also by Col. J. Stewart, M.C., Capt. C.M. McArthur, M.M., Acting Adjutant (Capt. Alex.) George C. Taylor and by Capt. Edward Palmer, Private Secretary.

There were wreaths on the desks formerly occupied by the late Hon. Benjamin Gallant and the late W.G. Sutherland.

After taking his seat His Honor read the following:

Speech from The Throne.

Of His Honour Murdoch MacKinnon, Lieutenant Governor of the Province of Prince Edward Island, on opening the Third Session of the Thirty-Ninth General Assembly on Tuesday, the Fourteenth day of March, 1922.

Mr. Speaker and Gentlemen of the Legislative Assembly:

It is my privilege and pleasure to greet you and welcome you to the performance of your legislative duties.

I join with you and with the Legislatures of the sister Provinces in extending a cordial welcome to Baron Byng of Vimy, who has become the Governor General of Canada. I am confident that he who served his country so nobly in time of war, will represent his Sovereign with equal credit and efficiency in time of peace.

During the recess several notable world events have taken place. The Washington Disarmament Conference has been a great step towards the maintenance of peace and the prevention of future wars. The Anglo-Irish Treaty has established Ireland as a free state within the Empire, as the Dominion of Canada.

As a result of the road policy adopted by my Government in 1920 one hundred and eighty miles of the public highways have been improved and more than two hundred and fifty wooden bridges replaced by permanent concrete structures. It is the intention of my Government to prosecute this work during the current year on a scale even more extended. This will result not only in improving the roads, but also in providing work for large numbers of the unemployed, and so assist materially in relieving the conditions resulting from the partial failure of last season's crops.

At an early date the public accounts will be placed before you. Every effort consistent with an efficient public service has been made to curtail and control expenditure. On examining the financial statements you will observe with satisfaction that the expenditure for the past year has been kept within the revenue.

The favorable offer received for the debenture issue of One Hundred and Twenty-five Thousand Dollars for road improvement shows how high the credit of the Province stands in the estimation of Canadian financiers.

You will be asked to pass legislation on a variety of matters of general concern to be submitted for your consideration.

You will also be asked to grant the supplies needed for the coming financial year. The estimates have been prepared with the fullest regard to efficiency and economy.

I now leave you to the discharge of your responsible duties, and in

Ulsters Precautions Will Take Shape In Drastic Bill

(Special to The Guardian)
BELFAST, March 14.—The King's speech upon reopening the present Parliament will refer to the present situation in Belfast created by the recent outbreak of terrorism and will also deal with the general position in Northern Ireland. It is learned that the Ulster government plans a surprise by giving notice of the introduction of an early date of a new and drastic bill for the repression of disorder and crime. The measure would empower the authorities to take possession of premises from which sniping occurred and if necessary to destroy them.

The courses in teacher training in the Prince of Wales College and Provincial Normal School have been extended, so that hereafter those receiving teachers' licenses may be better prepared to enter upon their important duties.

The school fairs held last autumn surpassed those of any previous year in their number, the excellence of the products exhibited, and the interest shown by both children and adults.

The special claims of agriculture, as our basic industry, have not been overlooked. An exceptional dry season, and the deflation of the value of farm products, made the past year a trying one for the farming industry.

My Government is taking steps to secure for the farmers of the Province access to the vast mussel deposits of Richmond Bay.

The brick and the plants at Richmond has been taken over, and is now being operated by the Government.

The dairy herd at Falconwood has been further improved by the purchase of a number of pure bred heifers, and modern stables have been constructed with the very best sanitary arrangements.

Encouraging progress has been made at the Agricultural School. The attendance has doubled; further modern equipment has been provided; a dairy stable constructed, and experimental feed demonstrations carried on.

The Potato Growers' Association has recently extended its field of operation, and has sent forward to the markets of the United States sixty car loads of its inspected seed potatoes which realized \$10,000 more than if sold for consumption. This demonstrates the possibilities of profit in seed production, that lie open to any farmer who chooses to take advantage of them.

Transportation facilities between this Province and the Mainland are still inadequate, despite the good work of the Car Ferry. The completion of the standardization of the railway is an urgent need which I trust will soon be supplied.

A notice that in the Governor General's speech at the opening of the Dominion Parliament negotiations have been opened by the Federal Government with the Western Provinces for the transfer to their natural resources, My Government intends to take advantage of this opportunity to press for a settlement of the claims of this Province against the Federal Government.

At an early date the public accounts will be placed before you. Every effort consistent with an efficient public service has been made to curtail and control expenditure. On examining the financial statements you will observe with satisfaction that the expenditure for the past year has been kept within the revenue.

The favorable offer received for the debenture issue of One Hundred and Twenty-five Thousand Dollars for road improvement shows how high the credit of the Province stands in the estimation of Canadian financiers.

You will be asked to pass legislation on a variety of matters of general concern to be submitted for your consideration.

You will also be asked to grant the supplies needed for the coming financial year. The estimates have been prepared with the fullest regard to efficiency and economy.

I now leave you to the discharge of your responsible duties, and in

Island Ex-Soldier Now at Paris Wed- ded Yesterday

Mr. and Mrs. W. P. Doull, of this city, received a cable from Paris, France, last evening announcing the marriage of their son Arthur Kijew Doull, to Miss Marie Louise Meigozo, on Tuesday the 14th inst.

The happy couple left for the south of France, where they will spend their honeymoon before returning to their home in Paris.

Arthur, who was five years and four months in the Army and Air Service of his Country, resumed his position in the Bank of Montreal, Paris, where he has been very successful. About four months ago he was promoted over three senior members of the bank and he is now one of the accountants in their palatial bank at Place Vendôme. His many friends in Charlottetown, wish him every success in business, and a long life of wedded happiness.

Bread Prices on Jump in Moscow

MOSCOW, March 14.—Bread prices at Moscow have been rising for three months and there seems to be no limit as it is becoming more and more difficult for bakers to obtain flour and regular commercial shipments are practically nil.

White bread has been selling lately at 25,000 rubles a Russian pound and black bread at 9,000 rubles.

Sugar costs 9,000 rubles for 12 ounces. Meat is 9,000 rubles a Russian pound and butter is 100,000 rubles. Potatoes are the cheapest article of food in North and Central Russia, selling for 2,000 rubles for 12 ounces.

The flour for the month of March is 200,000 to \$1 for January, February and March. Speculators in exchange have been prosecuted so vigorously that curf dalings have been stopped.

When Councillor Moran stated that he had been informed that the only account he had seen, he stated that what was absolutely true.

The first bill rendered by the Guardian, and which is probably the one to which a member of the Council referred last evening, was in excess of the amount of the bill now before the Council.

I take full responsibility of asking the Editor of the Guardian if he could not state in his way clear, as to the best interests of the Province, and that is why I believe regarding such important matters as Civic election and that is why this bill was introduced.

Further along this, which I believe regarding such important matters as Civic election and that is why this bill was introduced.

After a brief discussion it was moved by Coun. Moran, seconded by Coun. Smith, that the bill be paid. Motion carried.

The meeting adjourned after a short discussion on some further matters of business.

Scientific Investigator Tracing the Fire- To Their Source

CALEDONIA MILLS, March 10.—Yesterday, north wind prevailed, and by two o'clock it was gusty to a point which threatened blizzard conditions, but soon after, unexpectedly, the wind moderated and continued through the night.

This morning, for the first time since the blizzard, a bright and growing warmer. Yesterday was the visitor's day to an extent which made it difficult to carry on the collection and classification of data remaining in evidence in the house.

As compensation, a good deal of testimony, some brightly as he is his scientific culture.

In the afternoon, in response to request, Mr. MacDonald and Mary Ellen came to the house prepared to spend the night. Mary Ellen is a merry, light-hearted child, but inclined to housewifely duties, and spontaneously attacked the unwashed dishes and put things to rights.

After both dinner and supper, I made some remarks which determined that she has serious fault of vision, and at times she wore my glasses and examined the walls and other objects with delight, never having known how many details are to be seen. Mary Ellen must see an oculist and have her eyes examined, and when open for her with them.

D.C.S. Meetings Opened Yesterday

The executive committee of the Diocesan Church Society, met yesterday afternoon at St. Paul's Parish Hall, with the Rev. Canon Watson in the chair. There was a strong representation present, every parish in Prince Edward Island having its delegation.

The treasurer, Mr. Percy Pope, presented a satisfactory report. Rev. C. White, Rev. H. D. Raymond, Mr. W. L. Cotton and Mr. B. Tanton, were named delegates to the Diocesan Mission Board.

The reports from the parishes showed a live interest in the Churches work.

Divine service was held at St. Peter's Cathedral at 7:30 last night, at which a large congregation was present.

The service was sung by Priest in charge, Rev. Mr. Malone, Rural Dean White read the first lesson and Ven. Archdeacon Watson the second lesson.

Rev. Mr. Travers, Rector of Port Hill, preached a splendid sermon on "Services to our Master" taking as his text the 8th Verse of the 6th chapter of Isaiah.

This morning in accordance with the programme of the Society meetings, Holy Communion will be celebrated in St. Peter's Cathedral and St. Paul's Church at 7:45 p. m. A Rural Deanery meeting will be held in St. Peter's School room at 9 a. m. and in the evening the annual general meeting will be held at 8 o'clock in St. Paul's Parish Hall, when Ven. Archdeacon Armitage of Halifax, will speak upon the interesting story of the Canadian revision of the Book of Common Prayer. To this meeting the public are cordially invited.

Special Meeting of The City Council Last Evening

A special meeting of the City Council was held last night, in the Council Chamber, to dispose of unfinished business at Monday night's meeting. His Worship Mayor Jenkins and all the Councillors were present. The amendment to the Meat Inspection By Law was read a third time and passed.

The City Clerk read a letter from Mr. Jas. Eden on behalf of the City assessors stating they could not continue their work at present salary. There was quite a discussion on this subject, the councillors maintaining that the assessors were receiving at the present time only \$2.75 per day, an ordinary laborer's pay, others maintaining that the proposed increase of \$200 per year for the three assessors could not at present be afforded. Coun. Yeo argued that the new Council came on the plank of economy and asked how they would be able to face the citizens after voting this increase.

After further discussion, Messrs. Jas. Eden, A. H. Brown and Jas. Stewart, were appointed assessors at a salary of \$2,500 for a term of three years.

A reported bill of the Guardian Publishing Company in connection with advertising the recent Civic Election was then brought up. The bill was then referred to the Councillors at Monday night's meeting the following clear, concise statement was made by His Worship:

"Regarding the bill rendered by the Guardian Publishing Company for advertising the Civic Election, the publication of this proclamation was authorized by the majority of the Finance Committee, and the payment of the account is now authorized by the present Finance Committee and in all fairness should be paid."

The bill for the Civic election of two years ago amounted to \$221.24, and this year to \$165, showing quite a saving for this year.

When Councillor Moran stated that he had been informed that the only account he had seen, he stated that what was absolutely true.

The first bill rendered by the Guardian, and which is probably the one to which a member of the Council referred last evening, was in excess of the amount of the bill now before the Council.

I take full responsibility of asking the Editor of the Guardian if he could not state in his way clear, as to the best interests of the Province, and that is why I believe regarding such important matters as Civic election and that is why this bill was introduced.

Further along this, which I believe regarding such important matters as Civic election and that is why this bill was introduced.

After a brief discussion it was moved by Coun. Moran, seconded by Coun. Smith, that the bill be paid. Motion carried.

The meeting adjourned after a short discussion on some further matters of business.

Boat Loses Member of Crew

YARMOUTH, N. S., March 14.—Schooner Lewis H. Smith, fresh from the north, arrived here, Saturday, with her flag at halfmast for the loss of a member of her crew, Edward Sholes, of Pablico Beach, N. S. Sholes was knocked overboard when the mainsail, which had been lying loose of the boom, fell and struck him. Captain Eldridge Nickerson, who was at the wheel, heard him shout and flung a line to him as he drifted astern, but he was unable to reach it and sank before a dory could be launched. Sholes' body was found at Pablico Beach and several brothers and sisters residing in Massachusetts.

and the greater necessity of improving to the utmost the remaining hours of life. The speaker had not the privilege of such long and intimate acquaintance with the late Hon. Mr. Gallant as others in the House but he was sufficiently acquainted with him to appreciate fully those qualities of mind and heart which endeared him to those who were intimately acquainted with him and which earned for him the respect and esteem of every citizen in the province. It might be said that as a member he was a model to be followed, but the speaker had the opinion, always keen and alert in debate and in defense of principle, which he believed in—always fair and broad-minded enough never to stoop to the mean or the petty action, or to strike below the belt. In his discourse the speaker had lost an outstanding ornament and the province an extremely fine citizen.

The late Mr. Sutherland was not perhaps so well known in public life as Mr. Gallant. And unfortunately from the time he entered the House he was more or less an invalid and his health prevented him from taking such an active part in legislative affairs as his undoubted ability fitted him to do. But those who knew him recognized in him a man of absolute fair-mindedness and one possessed of intimate knowledge of men and public matters, which fitted him to be what he was—a very big type of citizen.

Brief expressions of regard for their deceased fellow-member put in by Messrs. Christopher, Methereell, S. G. Heggan, E. T. Higgins, Hon. G. E. Hughes and W. B. Butler in supporting the resolution which was unanimously adopted and placed upon the journals of the House.

His Speaker Duffy advised the House of the reception during recess of the resignations of Messrs. Jas. McNeill and A.E. McLean.

On motion of Premier Bell the House adjourned until this afternoon at 3 o'clock.

Ayrshire Breeders Hold Field Day At York Farm

About seventy interested stockmen attended the judging class and demonstration of Ayrshires at Mr. Bert Brown's farm at York yesterday afternoon. There were a few Holstein men present, but the majority were Ayrshire breeders belonging to the Association and the event was in the nature of a winter field day.

Mr. Brown exhibited four heifer-cows judging class and later brought out his fine cow "Queen's Own," who is at present making a good record. Her January record was over 2,200 pounds milk and over 100 pounds butter fat. She is still making over 60 pounds a day and is a remarkable specimen of high bred stock.

Mr. W. J. Reid of the Agricultural Department described to the boys from the school who were present what to look for in a good dairy cow. This cattle were placed and shown by Mr. Jas. Spiers, husbandman at the Experimental Station.

At the stables Superintendent J. A. Clark of the Experimental Station spoke on the advantage of keeping records of performances. Mr. Reid gave a talk on the advanced methods of improving herds by right feeding and breeding.

Mr. Bert Brown told how he fed his cattle, starting from the feeding of the calves, to the young stock, up to record performance cattle.

Mr. Walter Jones, a Holstein man, was invited to speak and he gave an interesting outline of his experience.

Mr. Spiers gave a talk on feeding from a standpoint of the individual cow and on the importance of exercise and watering.

Mr. Chas. Archibald of the Dominion Live Stock Branch, spoke on the formation of boys calf clubs. It was planned to start clubs in different centers and the boys can secure loans from the bank to purchase heifers, which should freshen in April or May of this year and could be shown in exhibition next fall. The Live Stock Branch is giving 50 per cent of the price money.

An enjoyable supper followed by an informal talk brought to a close a very pleasant, entertaining and instructive afternoon.

CALEDONIA MILLS, March 10.—Yesterday, north wind prevailed, and by two o'clock it was gusty to a point which threatened blizzard conditions, but soon after, unexpectedly, the wind moderated and continued through the night.

This morning, for the first time since the blizzard, a bright and growing warmer. Yesterday was the visitor's day to an extent which made it difficult to carry on the collection and classification of data remaining in evidence in the house.

As compensation, a good deal of testimony, some brightly as he is his scientific culture.

In the afternoon, in response to request, Mr. MacDonald and Mary Ellen came to the house prepared to spend the night. Mary Ellen is a merry, light-hearted child, but inclined to housewifely duties, and spontaneously attacked the unwashed dishes and put things to rights.

After both dinner and supper, I made some remarks which determined that she has serious fault of vision, and at times she wore my glasses and examined the walls and other objects with delight, never having known how many details are to be seen. Mary Ellen must see an oculist and have her eyes examined, and when open for her with them.

The above report was written on Thursday, Dr. Prince's experience since then will not be elapsed until after he reaches Halifax, and is able to check up the evidence he has collected.

HALIFAX, Mar. 14.—Dr. Walter Franklin Prince, Investigator of the American Society of Physical Research, in a statement given out to the press last night following his return from Caledonia Mills, Antigonish County, where he investigated the reports of mysterious fires, slaps, sounds and other weird happenings in the former home of Alexander MacDonald stated that the trip had been fully justified from a scientific standpoint and that as a result of the expedition he would have important data to add to that concerning similar phenomena already in possession of his society.

It would seem that the Antigonish ghost reads the newspapers, inasmuch as it has suspended operations on learning that Dr. Walter Franklin Prince, director of the American Institute of Scientific Research, has visited the scene of the said ghost's alleged activities. Like many other ghost manifestations, the prime mover in this case is believed to be still in the flesh in the person of a young girl named Mary Ellen MacDonald. Like some others who claimed to have had mystical communion with spirits, this girl was having some fun at the expense of the neighbors.—A. Lovell Sim.

PERSONALLY, I regard it unfortunate that my coming could not have been kept secret, or at least that it could not have been known that I was supposed to be a psychic detective. For if the "bauchan" who built the fires was a human being (let those who are confident that it wasn't note that I only say IF) that human being might suppose me able to look through walls, etc., and be deterred from action. And if the fires were set by spirits or

Merchants' Bank Probe Suggested to Parliament

The Intentions of the Government Challenged on this Point by Member from Toronto Reports of Last Year Tabled.

(Special to The Guardian)
OTTAWA, March 14.—In the House yesterday, besides the three first volumes of the Auditor General's report, a number of annual reports of departments and branches were tabled covering chiefly the last fiscal year. These include the reports of the Pensions Board, Public Works Department, Militia Orders, Returned Soldiers Insurance, Research Council, Secretary of State, Superintendent of Insurance, Ordinances of the Yukon, Naval Service Department and Naval Pay Orders. Mounted Police Department, Militia and Defence Department, and Civil Service Insurance Superannuations during the year.

OTTAWA, March 14.—"It is the intention of the government to hold a proper and adequate inquiry into the affairs of the Merchants Bank of Canada and if so, what form will the enquiry take and where will it be held?" is one of the questions filed for the consideration of the government today by Mr. T.L. Church, Toronto North.

Pope Slightly Ill

MILAN, March 14.—Pope Pius XI is slightly ill of bronchitis, says a despatch received today from Rome by the Corro Della Serra.

Seven Killed in Passenger Coach

ATLANTA, Ga., March 14.—Seven persons were killed and sixteen injured today when a passenger coach on the Atlanta, Birmingham & Atlantic Railroad was derailed near Union City. The car went off a trestle and fell fifty feet.

The room in the home are spacious; the tea will be very dainty; the ladies will look after all duties in connection with the affair. Of this sort, and it is to be confidently expected that the best way to toss the investigator from New York would be to let nothing happen.

In a word, the aerolite has not yet fallen, the data for a fresh examination of phenomenon in operation have not yet been furnished. But a visitor yesterday was willing to bet that something WOULD happen before we leave.

It is unfortunate that, with the removal of the former furniture, might be that they would conclude with only occasional visits of members of the family, the former condition cannot be reproduced. But changes are made preparatory for the night, and before I leave I hope to be able to spend a night in the house alone, if we do not get phenomena when all together.

Who knows but I might get a private exhibition?

Walter Franklin Prince.

The above report was written on Thursday, Dr. Prince's experience since then will not be elapsed until after he reaches Halifax, and is able to check up the evidence he has collected.

HALIFAX, Mar. 14.—Dr. Walter Franklin Prince, Investigator of the American Society of Physical Research, in a statement given out to the press last night following his return from Caledonia Mills, Antigonish County, where he investigated the reports of mysterious fires, slaps, sounds and other weird happenings in the former home of Alexander MacDonald stated that the trip had been fully justified from a scientific standpoint and that as a result of the expedition he would have important data to add to that concerning similar phenomena already in possession of his society.

It would seem that the Antigonish ghost reads the newspapers, inasmuch as it has suspended operations on learning that Dr. Walter Franklin Prince, director of the American Institute of Scientific Research, has visited the scene of the said ghost's alleged activities. On St. Patrick's Day a "Shamrock Tea"

On St. Patrick's Day a "Shamrock Tea" will be held in the G. W. V. A. rooms. It will begin at 3 o'clock, and will last until six. Besides the refreshments, which will be served continuously for three hours, there will be the selling of home-made candy, flower bouquets, and "shamrocks." All who wish to decorate the laps of their coats, or to honour St. Patrick by wearing the trefail emblem of Ireland should make a point to buy a "Shamrock" at the "Shamrock Tea," and wear it to St. Patrick's Concert in the evening.

The rooms in the home are spacious; the tea will be very dainty; the ladies will look after all duties in connection with the affair. Of this sort, and it is to be confidently expected that the best way to toss the investigator from New York would be to let nothing happen.

The Weather, Temperature, Tide, Moon, Etc.

TORONTO, March 15.— Fresh westerly winds. Fine and quite mild.

High tide this afternoon at 12:05 and tomorrow morning at 12:40.

Sun sets this evening at 6:06 and rises tomorrow morning at 6:10.

Last quarter moon, Monday, March 20th 4:43 a. m.
