TWO SIDES OF LIFE There is a shady side of life, And a sunny side as well. And 'tis for every one to say On which he'd choose to dwell; For everyone unto himself Commits a grievous sin. Who bars the blessed sunshine out, And shuts the shadows in. The clouds may wear their sat, And rob the sun of his smile. And snow, with her troop of ills, Threaten us the while; But still the cheerful heart has proven A sunbeam to provide, And only those whose souls are dark, Dwell on life's shady side. Then wear a happy heart my friend, For 'tis a happy heart that wears a sunny smile.

Studebaker LIGHT-SIX

Economical—because of its Exclusive Internal Hot Spot and Light Weight—

The Studebaker LIGHT-SIX might well be called the "Economy Six," for every day in the hands of hundreds of owners it is averaging between 21 and 26 miles to the gallon of gasoline.

Such low fuel consumption is due chiefly to its Internal Hot-Spot, an exclusive feature of the LIGHT-SIX motor, designed by Studebaker engineers.

The light, evenly-balanced weight of the LIGHT-SIX chassis further contributes to its low operating expense—not only with respect to fuel, but tires as well.

See the LIGHT-SIX, analyze its fine quality of construction and you will agree that it represents the maximum of automobile values.
