MONROE DOCTRINE IDEA TO BE APPLIED IN EGYPT

Status Quo to be Maintained Along Nile Valley Until Safeguards Satisfactory to Great Britain are Established.

LONDON, March 9.—Reports from Egypt are substantially confirming the disturbances in Cairo and at Tanta, which is the Zaghlul center outside of Cairo. The main ground for hope is, of course, the fact that Sarwat Pasha and his colleagues, who are extremely responsive to national feelings, would not have taken office without feeling assured they could obtain national support for the new policy. The absence of any enthusiastic response to Sarwat's visit to London, the initial difficulties, which defied months of correspondence are swept away. As a matter of fact, there is very little essential difference between the present proposals and those offered to Adly Yeghcha Pasha by Lord Curzon, the Foreign Minister, in November last. Then, however, Lord Curzon desired to abolish the protectorate in return for certain safeguards, the transaction being embodied in a treaty of friendship alliance. Now independence is immediately granted, the safeguards necessary to Great Britain being reserved for future discussion.

Evacuation Temporarily Halted

(Special to The Guardian.) DUBLIN, March 9.—Evacuation of the Haubowline Dock Yards by the British has been ordered temporarily stopped by the Provisional Government. This step is taken because of the fact that contractors at these yards would result in the immediate departure to England of a large number of skilled workers. It would also bring hurried employment to several other unskilled men and would involve the scrapping of a valuable plant. The question of the final evacuation is under consideration.
