STATEMENT FIRE RELIEF FUND FOR MR. KIER HATHERLEY

As has been stated some time ago, a subscription list had been started at the fire which destroyed Mr. Kier Hatherley's dwelling, and to which the public responded. The attached statement speaks for itself. I intend to pursue the same course in this statement as I have done in the past—to give the public the facts and figures through the press and if any subscriber detects an error, I will be thankful to him or her for bringing it to my attention.

I want to thank Mr. Roland Easter for the capable way he assisted me in receiving contributions paid to him. I also wish to thank the public in behalf of Mr. and Mrs. Hatherley, who also helped with contributions of money, lumber and work.

For the information of the public, I may say that Mr. Hatherley's new house is completed outside but nothing yet has been done to the interior. Mr. Hatherley is very thankful to have a home for the winter for his wife and family, also his aged mother.

Any additional subscriptions will be thankfully received and acknowledged.

Money received and spent as follows:
Fennell & Gandler \$179.00
McDonald & Rowe 139.04

L. M. Poole	180.18
Patrick Callaghan (boards) ..	12.00
P. J. Noye, (boards)	30.00

WINSLOE SERVICES—Winsloe United Church services on Sunday, Feb. 16th, will be as follows:—Highfield at 11 a. m.; Princetown Road, 3.00 p. m.; Winsloe North at 7 p. m.

BRADALBANE UNITED CHURCH OF CANADA—Services on the above charge for Sunday, February 16th, are as follows: Pleasant Valley, 11 a. m.; Rose Valley, 3 p. m.; Bradalbane, 7 p. m. Thos Palethorpe, Minister.

ACKNOWLEDGMENT—The Trustees of the Protestant Orphanage gratefully acknowledge receipt of \$6.00 from Lion L. O. L., per W. D. Ross, Kinross, also \$15.00 from the Caledonian Club, City, per, T. M. McMillan, Secretary.

THE BAPTIST CHURCH—A large congregation profoundly interested, was in attendance at the evangelistic service at the Baptist Church last evening. Inspiring congregational singing was followed by an eloquent, deeply impressive address by Rev. A. C. Vincent, who spoke on "Not far from the Kingdom." An appealing solo, "Almost persuaded," was expressively sung by Mrs. Vincent. Meetings will be held tonight and Friday night at 7.30. An invitation is extended to all.

CANADA PREPARES FOR THE NEXT POULTRY CONGRESS
Preparation for the part Canada is to take in the World's Poultry Congress to be held in London in July of this year, are well advanced. Mr. F. C. Eiford, Dominion Poultry Husbandman, and First Vice-President of the Congress, reports that the Canadian exhibits that will be put on by the federal and provincial Departments of Agriculture and business organizations will occupy about 9,000 square feet of floor space, which is now being put in order on an elaborate scale.

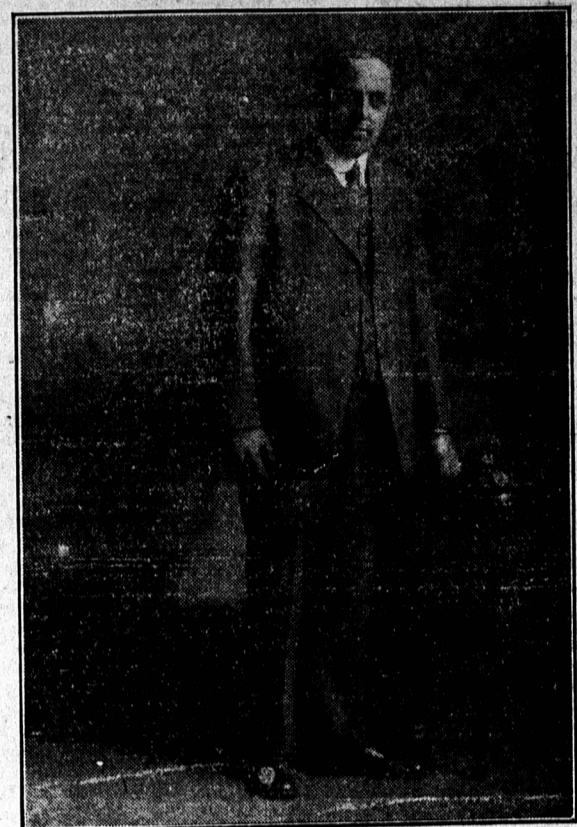

Mr. W. A. Brown, Chief of the Poultry Division of the Dominion Live Stock Branch, who is in charge of the Canadian educational exhibits, reports that many of the principal poultry flocks over the whole country are being visited with a view to securing the necessary birds that will be used in bringing the promotion policies of Canada in relation to the poultry industry to the attention of the delegates from adhering countries, and other visitors.

Dr. F. N. Marcellus, Secretary of the Ontario Rabbit Breeders has expressed a desire to make a display of pelts. If it is finally decided to do this, the display will be made within the commercial exhibits of the Federal Department of Agriculture.

Dr. Marcellus also suggests the possibility of the Ontario exhibitors of birds arranging for a competition after arrival at Ottawa and prior to shipment. It is expected that prizes for this competition will be provided by the Department of Agriculture at Toronto.

Grade I Jr.—1 Veima McLean, 2 Aletha Alchorn.
Perfect attendance—Freda Burdette, Doris Currie and Norma Burdette.
M. Margaret McEwen,
Teacher.

New Chief Magistrate

HIS WORSHIP MAYOR-ELECT PROWSE

FRIGIDAIRE

More families will profit by the protection and conveniences of electric refrigeration in this locality this year than ever before, it was predicted today by Lloyd W. Proude of R. T. Holman, Ltd., local Frigidaire representative, who has returned from the annual regional convention of his organization at Buffalo, N. Y., where several hundred salesmen and dealers heard factory officials discuss the 1930 outlook with much optimism.

"There are many reasons why electric refrigerator sales this year will be greater than ever before," he said. "The automatic refrigerator today is more useful than ever before, is a labor saving device, a friend of the family budget, a kitchen appliance in which foods actually can be prepared, a dependable protector of the family food supply, and a thing of beauty," he continued.

"Frigidaire, ever striving to make the electric refrigerator a more efficient household servant, presented a new food preservation achievement at the convention," he explained. "It is known as a hydrator, a moist air compartment which not only keeps vegetables perfectly for many days at a time, but has the power to restore many varieties to their original freshness. It also is an ideal place in which to store sandwiches, and will keep them fresh and wholesome for a long time.

"The hydrator not only will lighten household work, but will eliminate the waste of vegetables and salad materials, and enable the hostess to be prepared for unexpected guests. It is now on display at our show room.

"Arrangements have been made to install this new Frigidaire product in all household models made by this General Motors subsidiary, and all new refrigerators are equipped with it. The same policy was followed last year when Frigidaire introduced its low famous cold control, a device for faster freezing and more successful dessert and salad making."

Wilted vegetables can be restored, fresh ones kept in prime condition for many days, and sandwiches held fresh and wholesome for long periods of time in a recently perfected moist air compartment for the electric refrigerator, it was explained today by Mr. Proude, local Frigidaire representative, who has just returned from the convention of his company at Buffalo, N. Y., where the new product was presented.

"The device, known as the hydrator, is now on display at our show room," he said, "and complete information concerning its use is available there. Announcement of this latest achievement of the electric refrigeration industry follows three years research work in the experimental kitchens and bacteriological laboratory of Frigidaire. The new product was subjected to very rigid tests in Dayton, O., home of the corporation, before being presented.

"The hydrator will be available for every Frigidaire owner at a nominal cost. The corporation is following the same policy used with the introduction last year of the Frigidaire cold control, one of the outstanding electric refrigeration achievements of 1929, so that present owners of this make of electric refrigeration may

Retiring Mayor

MAYOR I. J. YEO, M. D. Who leaves the City Council Board after twelve years continuous service in the interests of Charlottetown.

HOLSTEIN HERD SIRE PURCHASED

Mr. K. Heath MacLeod, of Burlington, has recently purchased a herd sire, Kerk Heimke of Willow Farm, from John N. Proffitt & Sons, Free-town. This young bull was shown at the recent Canadian Royal and won fourth prize in a heavy class of thirty-six youngsters, all of outstanding type.

The dam of this young bull, Rose Kerk Colantha, is a daughter of Pietje Kerk Colanthis 61069, sire of Kerk Roeham, the famous Canadian junior champion of 1929, who also received honorable mention by an all-American committee.

Rose Kerk Colantha will complete an official year two-year-old record in March of this year, making in the vicinity of 11,000 lbs. of milk, averaging about 3.8 per cent. Her dam, Minnie Rose, of Willowfarm, commenced an official record last October, milking 75 lbs. a day, testing 4 per cent.

The sire of this calf is Abegweit Paragon Heimke 70138, bred by J. Walter Jones, Charlottetown. His dam, Korndyke Colantha Abbekirk 61437, has an official fat record of 1012½ lbs. The sire of Abegweit Paragon Heimke is a son of Countess Abbekirk Heimke 73385, having an official fat record of 1376 lbs., and also winning grand honors at the Royal Winter Fair a few years ago.

Mr. MacLeod is a successful breeder of milk, silver foxes and Holstein cattle and has to-day one of the best young herd sires in this province.

The Holstein breeders of the province will watch with interest the future development of Kerk Heimke of Willowfarm, S.

NEW ENGLAND'S PLACE IN THE SUN

BOSTON, Feb. 11.—Encouraging evidences of progress in New England during the last four years in agriculture, industry, recreational development and community development, are seen in the report for 1929 of the New England Council, "A United New England—Four Years of Progress," now being distributed among the business men of New England.

Because the Council is broadly representative of the entire business community in New England, the report of its activities reflects the history of economic progress in New England during the time of the Council's existence. "To learn what the New England Council has meant to New England," says President Redfield Proctor in the foreword, "one would have to compare the New England of 1925 with the New England of 1929, and such study would have to be extended, in many instances, beyond our own borders." The report shows in striking fashion the breadth of the Council's operations.

Among its other activities, the New England Council has sought to make New England better known and better understood both to itself and to the rest of the country, the report says. "New England contributes much, and can contribute more, to the country's growth and development, and this contribution will grow in proportion to the public's appreciation of what New England possesses, in advantages to industry and agriculture, for healthful recreation, and in many other ways. The objects of the Councils publicity activity therefore have been to set New England before itself and the rest of the country in terms of its advantage, to acquaint New England with the Council's work and the ideas and methods for which it stands, and to stimulate other agencies to assist in both these efforts."

The report pays tribute to the co-operation which the Council has received from newspaper and trade paper editors and publishers throughout New England, who "have been quick to pick up, comment on, and win additional reception for ideas, aims, and projects of the Council."

Community Growth
Telling of the work of the Council's Community Development Department, the report points out that "New England's progress is the sum total of the economic progress of New England's communities," and outlines activities in which the Council is co-operating with individual communities to aid them to promote their own growth. New England is gaining industries, it is shown.

In regard to power, the report summarizes the work of the Council's Farm Power Committee in devising a formula by which the equity of proposals for line extensions into rural areas may be judged. This resulted from an attempt to devise a working basis of common knowledge by which farmers and power companies could work out the problems involved. The action has already resulted in the expediting of rural extension work.

The Council's Co-operative Committee of Railroad Presidents reports in the current document unprecedented progress in increasing the efficiency of New England carriers. The work of the Council in putting the railroad consolidation problem before the New England governors is detailed. This action resulted in the recent appointment of the New England Governors' Railroad Committee to study New England's transportation problems.

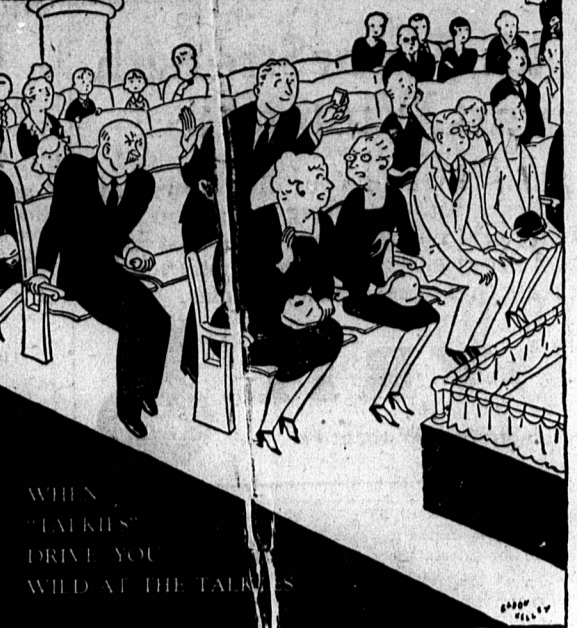

The work of the Council's Industrial Committee in furthering co-operative trade promotion activities among New England industries and in encouraging more market research and more aggressive advertising and selling of New England products is covered in report.

In regard to foreign trade, the document stresses the opportunities for further development, and the work of the Council in co-operation with the Department of Commerce and the Boston Chamber of Commerce in making a study of New England's present overseas sales as a basis for intelligent expansion efforts.

Farm Efforts Outlined
The rapid development of the New England Farm Marketing Program is reviewed. The program was developed by the Council and is now being put into effect in all six New England states through the several state departments of agriculture. The program is successfully aiding New England farmers to meet outside competition, and giving the New England consumer fresh, quality products, standardized, inspected, and guaranteed. The contacts of the Council's Agricultural Committee with the Federal Farm Board are outlined.

Establishment of a Forestry Committee which is now working out a New England forestry program is announced.

The Council's Recreational Development Committee reports that the last summer season was "the best season ever known." The recreational industry is important to New England, the Committee points out, as a source of increased cash income, increased permanent taxable wealth. The following is the programme:—

WHEN YOU DRIVE YOU WILD AT THE TALK

THIS is no time for violence. Offer a friendly gesture—a bar of Rowntree's York Milk Chocolate. Immediately the annoying chatter ceases. You will enjoy the feature more; and they will, too—for Rowntree's Milk Chocolate is itself a "feature production," and adds zest to every occasion.

Try it yourself. Register for yourself the wholesome, velvety perfection of this new chocolate bar. You will find it, in smoothness and in flavour, as attractively alluring as the smile or the voice of your favorite scintillant star. It is really delicious.

Be sure to ask for Rowntree's York Milk Chocolate, the bar that sets a new standard in milk chocolate goodness.

ROWNTREE'S YORK MILK

THE ROWNTREE CO. LIMITED, TORONTO

and increased sale of New England agricultural and industrial products. Surveying activities designed to further the development of New England's water transportation, the Council found, according to the report, that "the majority of organizations heard from reported no activities." The obstacle to development mentioned most frequently was "lack of proper differential rates on rail-water and all-rail shipments from interior points in New England to the west."

The work of the Council's co-operating Committee on Aeronautical Development includes, the report points out, a proposed survey of New England to map a logical system of inter-related air routes together with airports landing field, and emergency fields. The survey will take cognizance of water areas available for landing purposes.

During the year, the report points out, an encouraging start was made by the Council's Research Committee on the progress of correlating all existing sources of periodic and current statistical information about New England and an attempt to supply information not now gathered. The purpose is to effect a more complete and intelligent factual basis for judging conditions and trends.

NORTH TRYON

At the semi-annual examination of North Tryon School the school-room was artistically decorated with spruce and garlands. In one corner stood a well laden Christmas tree. Sixty visitors and parents were present. The pupils were examined in the various subjects by Misses Janie Thomas, Pearl Weeks, Retta B. Toombs and their teacher, and showed by their prompt and correct answers that they had been carefully taught during the term. Mr. MacLefurge acted as chairman and a well prepared program was carried out after which Mr. Llewellyn Gamble as Santa Claus, appeared and helped by Miss Jean Muirhead and Sheldon Dixon, distributed candy and gifts to both teacher and pupils. Misses Leah Lord and Eulalie McInnis passed a treat of homemade candy to the visitors. Complimentary remarks were made by Misses Pearl Weeks, Retta B. Toombs, Messrs. Fred Leard and J. W. Thomas and MacLefurge, who congratulated both teacher and pupils. Miss MacVittie in a few choice words, thanked all for their attendance, thanked the visiting teachers for their assistance and also thanked the pupils for their lovely gifts. She also extended a hearty vote of thanks to the Women's Institute for bringing a basin and soap to the school. Prizes were then awarded to:—Miss Mabel McInnis for Department; Miss Bernice Dixon and Miss Leah Lord for History. After singing the National Anthem the afternoon was brought to a close.

Following is the class standing of De Chos Marsh School for the month of January:—

Grade X—1, Elizabeth Steele.
Grade VIII—1, Hugh Steele and Josephine MacLean, (equal); 2, Genevieve Sigsworth.
Grade VII—1, Joseph MacPhee; 2, Marjorie Steele; 3, Rose DeLaney.
Grade VI—1, Anna McLellan.
Grade V—1, Marion Steele; 2, Mary McDonald; 3, Alfred McDonald.
Grade IV—1, George McDonald.
Grade III—1, Michael McDonald and Rose McDonald (equal).
Grade II—1, Frances Stewart; 2, Norbert Steele; 3, Newman Sigsworth and Billie McLellan (equal); 4, Joseph Fitzpatrick; 5, Ralph Fitzpatrick.
Grade I (a)—1, J. D. Fitzpatrick; 2, Phyllis Sigsworth.
Grade I (b)—1, James Stewart; 2, Gerald Fitzpatrick.

Perfect attendance:—Josephine MacLean, Joseph MacPhee, Rose DeLaney, Anna McLellan, J. D. Fitzpatrick, Frances Stewart.

Announcing A New Store Under Experienced Management MEN'S WEAR ONLY

After many years with the old firm of Patons Ltd., which has now closed its doors, we have decided to locate still in Charlottetown where former pleasant associations with the public will, we hope, be continued. Our new business stand at 145 Great George Street, next door to C. F. C. Y. will be opened on or about March 1st, where a complete range of Men's Furnishings and Clothing will be carried. Our aim will be "BETTER QUALITY GOODS AT POPULAR PRICES." May we look for "a share" of your patronage?
