TODAY 3 P. M. NIGHT 7 AND 8.45 Matinee, Adults 16c. Children 11c. Evening Orchestra 25c. Balcony 21c. Children 11c.

A story of speed, love with laughter, glories galore, daring that's dangerous with romance that races in the most of thrilling races.

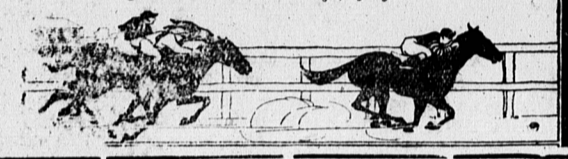

Kentucky Women and Horses

Are famous the world over, but no more than "Garrison's Finish," that stirring story of racing and loving that millions have read and which that inimitable young screen star, Jack Pickford, has made into a photoplay that thrills and delights, charms and captivates, fascinates and entralls.

JACK PICKFORD in GARRISON'S FINISH

(Based on W. B. Thackeray's novel of the same name) Adaptation and screen version by Elmer Harris. Direction by Arthur Rosson. Photography by Harold Rosson.

SETTLE CHURCH QUESTIONS AT CONVENTION

(Canadian Press.)

NEW YORK, Jan. 4.—The latest move in the controversy between the Fundamentalist and Modernist churches, following the shattering of Bishop Manning's Christmas Truce yesterday by pulpist statements from both sides, came today in the form of an open letter from Rev. Hamilton Saylor, rector of Trinity Church, Trenton, N. J. Mr. Saylor suggested whole question of Modernism be fought out at the next general convention of the Anglican church with a definite settlement of the points at issue, by which all communications could be guided.

NEW ARGYLE CHRISTMAS TREE

The New Argyle examination of Christmas Tree was held in the school on Wednesday evening, Dec. 19. There was a large attendance of ratepayers and visitors present who heartily enjoyed the excellent programme which was ably presented by the pupils under the direction of their teacher, John Wight. He was assisted in leading the classes by his sister, Alfred, teacher at Rice Point. The ready and accurate answers of the pupils showed they had worked well under their painstaking teacher, Mr. Allison MacEachern, occupied the chair. The school was nicely decorated for the occasion. After the programme the following address was read to the teacher by Annie May MacKinnon, while Jessie May Gillis presented him with a \$5.00 gold handed fountain pen.

We, the undersigned on behalf of the pupils of New Argyle School, desire to express on this occasion our kind appreciation of the interest and zeal you have manifested in our educational advancement during the portion of time you have taught and we trust the cordial relations now existing and the success we are making under your guidance may continue on as in the past. We respectfully ask you to accept this small gift not for its intrinsic value, but for our appreciation for your future welfare.

ANNIE MAY MCKINNON, JESSIE MAY GILLIS. After the reading of the address the teacher in his kind and appreciating manner thanked the pupils one and all for the beautiful gift. Then the presents for the heavily laden Christmas Tree were handed to the pupils by Santa Claus who not only arrived at the proper time. When all the gifts were distributed every one present were treated with home made candy. Speeches were then made by the trustees and others expressing their appreciation of the good work done by the teacher and pupils. After the teacher thanked the people for their appreciation in his work the entertainment was closed with the singing of the National Anthem.

MILK AND MILK SUBSTITUTES FOR PIGS

(Experimental Farms Note.) A hog feeding test recently conducted at the Central Experiments Farm, Ottawa, indicates the particular suitability of skim-milk for newly weaned and young pigs. It also indicates that after the hog has reached 3 1/2 or 4 months of age other feeds than skim-milk are capable of giving greater and more economical gains when such feed are used to supplement the meat ration.

Three lots of eight hogs each were fed a basic meat ration supplemented with skim milk, milk powder and Pro-lac meal. The hog were placed on the experiment shortly after weaning. The test lasted for 90 days and for the first 60 days Lot 1 was fed meat and skim-milk, Lot 2, meat and milk powder, and Lot 3, meat and Pro-lac. During this period Lot 1 made the greatest gains with the lowest meal consumption and a considerably the lowest cost per pound of gain in live weight. Lot 2 made the lowest daily gains, consumed slightly more meal and cost 25 of a cent more per pound of gain. Lot 2 on milk powder made the second highest gains but consumed considerably more meal—2 of a pound more than Lot 1—an cost, 1.99 cents more per pound of gain than Lot 1.

For the remaining 30 days the three lots were uniformly divided one-half of each lot continuing of the former ration while the milk or milk substitutes were withheld from the remainder of the hogs. The outstanding feature of this part of the test was the good showing made by the hogs receiving Pro-lac meal. This lot made an average daily gain of 1.4 pounds in live weight with a feed cost per pound of gain of 6.16 cents as compared to Lot 1 on meal and skim milk with an average daily gain of 1.33 pounds and a feed cost per pound of gain of 6.35 cents while Lot 2 on meal and milk powder made an average daily gain of 1.37 pounds with a feed cost per pound of gain of 9.34 cents. The check lots from which the milk supplements were withheld made a uniform daily gain of one pound in live weight per hog at a cost of 6.45, 7.32 and 7.59 cents per pound respectively. W. G. Dunsmore, Assistant Animal Husbandman, Central Experimental Farm.

EGG CIRCLE

Notes on the Sixth Prince Edward Island Egg Laying Contest for the 9th Week of the Contest. Ending January 2, 1924.

The Prince Edward Island Contest made a gain of 46 eggs over the previous week. Nine additional hens started laying! One of those was a Wyandotte, 5 were Barred Rocks, and three were Leghorns. During the week 2 of the Barred Rocks and 3 Leghorns stopped laying, leaving the standing of the different breeds as follows: White Wyandottes 35%, Barred Rocks 42%, White Leghorns 80%.

RETURNS FROM ST. JOHN.—Rev. and Mrs. Gordon Stevens and little son, Ronald, left Friday morning for their home in O'Leary, P. E. I., where Rev. Mr. Stevens is the pastor of the Methodist church. Mrs. Stevens has been visiting her mother, Mrs. Thomas Likely, Rockland road, and her husband's parents, Mr. and Mrs. G. H. Stevens, Orange street.—St. John Journal.

REPORTED ROUGH TRIP.—Mr. George Linkletter of Canadian Railways News Co., and Miss Lillian Linkletter returned yesterday from Charlottetown where they had been on business in connection with the News Company. Mr. Linkletter reports a very rough crossing from Tormentine to Borden on Tuesday, the high seas washing the decks practically the whole way over. At Borden, Mr. Linkletter said the train had to be backed down on to the car ferry as high waves were washing over the wharf making it impossible for the passengers to walk from the car ferry to the train.—(Moncton Times.)

"GARRISON'S FINISH" AT PRINCE EDWARD.—Jack Pickford never made a better motion picture, and in fact, every photoplay has been so completely satisfying in so many respects as this star's picture, "Garrison's Finish," which was shown last night at the Prince Edward "Garrison's Finish" is one of those swift-moving racing stories such as are rarely written. It is replete with consuming excitement together with pleasing romance and compelling drama. It is one of those all-action pictures in which there is no let-up from the inception to the very finale. Jack portrays the character of a heroic jockey and he acts and looks every inch the part. Forsooth, he was never better cast and with the charming Madge Bellamy supporting him as a beautiful, romantic girl, he succeeds in doing some of the best historic work of his long, brilliant career. Every feature of this film is par excellence. The photography is little short of marvellous, the scenes of the Kentucky Derby and the Metropolitan Hotel being particularly impressive. The direction of Arthur Rosson is above reproach and the masterly handwork of Elmer Harris who supervised the production, is plainly discernible throughout. Mary Pickford herself wrote the titles and edited the film and there is no question as to her superiority in this line of work. "Garrison's Finish" is one of the truly good and vital pictures of the year. This picture will be shown today for the last time.

THE MUNICIPAL REVIEW

The current issue of The Municipal Review contains the first chapter of "Municipal Who's Who in Canada," and includes in this preliminary work some two hundred biographies of Mayors, many of them being illustrated by photographs of these chief Magistrates. Obviously this work will fill a long felt need. Municipal government is closely bound up with the future of Canada, and it is reasonable to expect that if our municipal government is good we are going to demand the same in the Legislatures of Canada, as well as at Ottawa.

Thus for the first time we see and compare our mayors; who are they and what experience have they had. "The Parliamentary Guide" published at Ottawa has long supplied us with valuable information, and with the ever increasing importance of municipal government, "Municipal Who's Who" will supply us with this similar information in the municipal field. The first Chapter is only the beginning, and will be followed quickly by additional Chapters on the permanent Officials. These chapters will be of equal interest to the elected men come and go, but our local government is carried on continuously by our secretaries, treasurers and engineers. They represent faithful service over a long period of time and should be very interesting reading. It would be interesting to know what remuneration these Officials receive, and there is no doubt that great permanent benefit is secured to the municipality through choosing the right officials and placing more responsibility on them.

The programme of the "Municipal Review" for the year 1924 includes, apart from Chapters on "Municipal Who's Who," a feature subject for each of the twelve months. It is equally interested in all parts of Canada, and its news and articles are unquestionably of the greatest help and interest to municipal men.
