A SATISFIED EMIGRANT FROM SCOTLAND WRITES

The following letter has been received from an emigrant from Aberdeen, Scotland, now located in Dunstaffnage, by the Department of Agriculture which is self-explanatory:—

Dunstaffnage, P. E. I.,
May 9, 1911.

Hon. John &ichards, Commissioner of Agriculture.

Dear Sir:—I am writing you this letter to express my thankfulness that ever I was introduced to come out here. The Rev. Mr. Winfield, when in Aberdeen, gave me a clear and straightforward explanation of P. E. Island. I thought at first he was overdrawing it at the time but I have found out by actual experience that all he said was perfectly true; in fact he underestimated many things.

I came here with my wife and seven children and got down to work at once. I have a splendid farm of 140 acres, well stocked and with all necessary machinery, etc., and I must say I am delighted with the country and the prospects before me and if hard work and perseverance count for anything I am going to succeed. We have enjoyed the winter splendidly and are all well, happy and contented and so far we do not know what a day's sickness is. My outlook for the future is bright and encouraging and I have come to the conclusion that no man need have a better place to live.

I have found my neighbors sociable and extremely kind. Of course I am a worker and mean to do well. The young boys are all hired out at good wages and those I have left at home are working with me on the farm.

My brother and his wife have also come out to buy a farm and I am now sending for another married brother.

I have worked hard on the farm and have started to wire the whole place. I have 30 cwt. of wire I am putting up. I am grateful to the Government for their kindness to us when we first arrived; no man living could expect better treatment. You certainly have the right man in Mr. Winfield; his persuasive manner, together with his strong personality, have much to do with his success and his efforts on our behalf could not be overestimated.

I shall always be thankful that I ever came here and I only wish that I had known of P. E. Island twenty years ago and if there is anything I can do to spread a knowledge of this fine Province I shall only be too pleased to do so.

Believe me, faithfully yours,
ROBERT RHYNES,
Late of Aberdeen, Scotland.

NO NEGOTIATIONS ON WITH GERMANY

OTTAWA, May 8—The Commons succeeded in clearing off a number of private bills from the order paper during the day's uneventful sitting, and tonight wound up with passing a fair amount of supply.

At the opening of the House, Mr. Foster read a cable from Berlin which stated that there was a definite understanding between Canada and Germany that negotiations would commence for the conclusion of a reciprocal commercial treaty between the two countries immediately after Canada's arrangement with the United States had been terminated. He asked concerning the accuracy of the cable.

Hon. Mr. Fielding said there was understanding, and no negotiations. "No doubt," observed the Minister of Finance, "the German Government would be glad to open up negotiations, but there is no understanding as to when they shall be opened."

MANY "MENTIONED" FOR GERMAN POST.

WASHINGTON, May 8—About the most fashionable thing in Washington these days is to be "mentioned" for the ambassadorship to Germany. There is not a prominent man in the city—temporarily out of a job—whose name has not been proposed as the possible successor to Dr. David Jayne Hill.

The list of the jobless, including all Congressional lame ducks, has now been exhausted, and the fad has spread beyond Washington. There is a strong suspicion that Mr. Taft long ago fixed upon the man for this important post, but, if so, he has shown the office-hungry Washingtonians that he knows how to keep a secret.

Never before during the present administration has so many would-be diplomats been put forward for a single office. The last count showed that about ten names had been offered for the honor of going to Germany.

Some of the practical jokers have been calling up the White House and asking such questions as "I have just heard that Former Senator Beveridge, of Indiana, will be appointed Ambassador. Won't you please ask the President if it is true?"

SUFFERING SETTLERS IN LONELY LABRADOR.

NEW YORK, May 10—Between 6,000 and 9,000 settlers on the Labrador coast are suffering severly from food shortage and the effects of the severe wind according to advices received by the Grenfell Association here.

LOSS OF FARMERS' VOTE DOSEN'T SCARE TAFT

WASHINGTON, May 8—President Taft indulged in some plain talk today in explaining to twenty-five members of the National Grange that he does not mean to play politics with the Canadian reciprocity agreement if the enactment of that measure by congress costs him the farmer vote.

The President told his hearers bluntly that he was sorry to hear that Republican farmers would desert the party if the agreement goes through, but no such desertion would change his conviction as to the wisdom of such legislation.

He said that he believed reciprocity to be the best thing for the whole country, and that he did not intend to argue it.

N. P. Holt, spokesman for the farmers, intimated strongly that the farmer doesn't like reciprocity and that the Republican votes are likely to be lost if it is passed.

"Certainly," said the President, "I have no disposition to interfere with the prosperity of those who make up the bone and sinew of our population—the farmers—and I am convinced that I am in no way interfering with it. If we carry through this treaty, and it turns out that it does produce the injury that you anticipate, it can be repealed by a single congress. It does not last longer than either side desires it. I am convinced that after it has been given one year's trial, neither side will think of reversing it. That is my conviction. I cannot go into an argument.

"You say that the Republican farmers are going to desert us if we put that through. I am very sorry if that is to be the case, because I have a personal liking for the Republican farmers, just a little mite more stronger than Democratic farmers, although they are all citizens of the United States whose welfare I must hold equally in my care.

"But my conviction with respect to the advantage of this treaty is very deep. So far as to the effect on my personal political fortunes it ought not to influence and does not influence me in the slightest. I believe the treaty to be the best thing for the whole country, including farmers, merchants, laboring men and all, because I believe it is contrary to nature, it is flying in the face of Providence to put an artificial wall like that between this country and Canada and not get the benefit that will inure to peoples of the same traditions. If we take down that wall, we will benefit by it, for we shall sell more agricultural products to Canada than she will sell to us. We do now, and we shall sell her even more after the treaty goes into effect. That is my judgment. I am not arguing—I am merely stating my conclusions. If I did not believe this, I should not have taken the responsibility of doing what I have done to put this reciprocity treaty through. I am willing to abide the judgment of history—the judgment that will come after the event. When you gentlemen come to see the result, I believe that you as fair-minded men will admit that you have been wrong in your fears and that I have been right."

IN MEMORIAM.

The death occurred at Bonshaw on April 29th of Mrs Patrick Bolger, after only a few days illness of pneumonia, in the 86th year of her age. The aged lady was a devout member of the Catholic Church and her life was given to Christian acts of kindness. She will be greatly missed by the family of four daughters and three sons—Mrs. Jerry Sweeney, Charlottetown; Mrs. John Hovson, Los Angeles, Calif.; Sr. St. Theodore, South Boston Convent, Miss Katie and Dennis of Bonshaw; John in Bangor and David in Boston. The funeral was largely attended,. High Mass being sung in St Ann's Church, Lot 65, on May first by Rev. Father Curran. The pall bearers were Lawrence McCaughy, Wm. McQuaid, Patrick Conway, John and James McGaughey and Patrick Condon. Requiescat in pace.

STOCK NOTES

General H. (2.04¾) is the latest trotting stallion to enter the select 2.05 list for trotters, and is the fourth stallion to cross the 2.05 line this season, the others being The Harvester (2.01), Bob Douglass (2.04¼) and Colorado E. (2.04¾). This brings the total number of 2.05 trotting stallions up to eight. In the order of their records they are as follows: The Harvester (2.01), Cresceus (2.02¼) Bob Douglass (2.04¾), John A. McKerron (2.04½), Colorado E. (2.04¾), Admiral Dewey (2.04¾), General H. (2.04¾) and Mainsheet (2.05). It will be seen that the 2.05 list for trotting stallions has doubled up this season, very good evidence that the speed of the trotter is increasing. Of these eight stallions, four, The Harvester, Bob Douglass General H. and Admiral Dewey, trace to Electioneer in the direct male line; two, John A. McKerron and Colorado E., to George Wilkes. All of the eight trace to Hambletonian in the direct male line.

The trotting stallion Acquiri owned by J. M. Nicholson of this city is not only a male line Electioneer horse, he is also a female line one as his dam Eutaxia is by Expedition (2.15¾) son of Electioneer 125.

KEEP YOUR EYE ON THE ARROW
THE YOUNG MEN'S MAN

NORTH POLE SHOOTING PARTY

NEW YORK, May 9—Capt. Bob Bartlett, who just missed getting into the first census of the north pole, is going to the Arctic again this summer. He has organized a party of young Boston and New York men who have become bored with shooting over the traps and fly-casting in tepid waters and want to take a shot at polar bears, walruses and other fauna of the below zero region.

The last time Capt. Bartlett went north he escorted Paul J. Rainey and Harry Whitney to Ellesmere Land, the big island shaped like a rundown slipper, which lies across Hayes Sound from the northwest coast of Greenland. Rainey and Whitney had so much fun lassoing white bears from motor boats and rounding up muskox that Capt. Bob got an idea. He guessed that other young men with money might like to sign up for similar adventures. He corresponded with some he knew, got encouraging replies, estimated expense and things and finally made up his party. Twenty-five will accompany him on a ship he has chartered which will sail about the middle of July, to be gone until the middle of September. The personnel of the party hasn't been given out yet, but some of the adventurers will be Harry Whitney, L. D. Willis, and Edward S. Hicks, of 1168 Dean street, Brooklyn.

Last summer on the Rainey-Whitney expedition Capt. Bartlett used the steam whaler Beothic, and the coming trip will be modeled on the experience of last year. The hunters will carry motor boats to chase walruses, bears and narwhal. A moving picture outfit will be taken along also so that the hunters can have films with which to entertain house parties when they get back. Motor boats have earned a place for themselves in Far North hunting. That was the way Rainey and Whitney got the prize polar bear of the New York Zoological Gardens. Old Silver King was snoozing one afternoon on an ice floe off Ellesmere Land feeling perfectly safe, no doubt, from hungry Eskimos. But Bartlett spotted the fluff of white, lowered the motor boat carried on the Beothic, sneaked over to the ice floe, lassoed the King and towed him to the ship. Then he was lifted aboard by a steam winch.

The hunters of 1911 will try to capture more polar bears for the zoo and will try to add to the zoo's collection of musk ox, blue fox and wal-

KINAROS 38,086

the coming Nutwood of P. E. Island. He is a great-grand son of the world's champion brood mare Miss Russel. Many horsemen are proud to boast of even one cross of this great Mare's blood, but in Kinaros we can boast of 4 crosses, what no other Stallion on P. E. I. can do. His sire was the fastest trotter of 60, of his sire's get. His grand sire was a world champion.

His dam is one of the very best brood mares on the world known, "Allen stock Farm". Her 3 yr old colt, Ballston (tr, 2) 2.29, is the sire of the largest and best colt dropped this spring at the Allen Farm, wighing 130 pounds at birth.

That Kinaros will sire size is proven, that his colts will have speed, and extreme speed is certain, that they will be racy and game is sure, and that his blood will breed on for generations is an undisputed fact.

Kinaros will leave home Tuesday, May 9, to John. M. Nicholson's Dundas, noon and over night. May 10 to Hugh MacMillan's Head, St Peters Bay, noon. John Phelans, Morell, over night. May 11, to James Mooney's Peakes' Station, noon. Home again that night.

by the mighty Brazilian, King of sires, the iron race horse. We never had his equal here before and when shall we see his like again? Goldzilian is undoubtedly his best son on P. E. I.

Pronounced by Judge Roberston of Ontario, last fall at the Summerside Exhibition as being the best colt he had seen in Canada. He is only a colt, and yet he is all horse every inch of him.

Goldzilian is ready to trot any stud colt of his age, size, and gait on P. E. Island. (Brazilian's excepted).

Don't fail to see this colt at owner's stables, before breeding your mares if you want large classy colts.
