ST. PAUL'S A.Y.F.A. — Pumpkin lanterns, witches, black cats, broomsticks, and a profusion of the traditional black and orange decorations provided the atmosphere for the A.Y.F.A. The hosts and hostesses, dressed in the gay manner of a gypsy band, welcomed the visitors to a program consisting mainly of dancing interspersed with amusing quiz forfeit numbers. Music was provided by The Bright-onaires, and Roy Mugford, as master of ceremonies, conducted the quiz items, imposing a series of appropriate penalties upon unfortunate guests unable to answer questions. The party ended with the serving of refreshments and the playing of a waltz medley by the orchestra.

Local Girls Prove Good Potato Pickers

There are 80 girl potato pickers from Charlottetown and nearby vicinity who have no cause for complaint respecting the wages and treatment they are receiving from their employer. The girls are paid \$5.00 a day with two meals, mid-morning and mid-afternoon lunches.

Mr. H.B. Willis, their employer, said yesterday that he had had the girls for the past four weeks and was satisfied in every respect with their services. As a further mark of appreciation for the manner in which they had worked, Mr. Willis said he had secured an orchestra and was going to treat his potato-picking girls this evening to a dance exclusively for them at one of the local dance halls.

In the meantime, other large local potato growers are finding it a serious problem to send their potato-pickers to the city to clean up their crops before severe frosts make the digging an impossibility.

One grower has practically all the potatoes in the County still picking for him. It is understood that arrangements with the Airborne General for their services and that some 17 or 18 men are working for him at a daily wage of \$3.50.

Wages throughout the Province are not uniform since they vary according to the degree of emergency. In Western Prince the average wage is \$4.00 a day and board but this is increased in some areas in certain communities and decreased slightly in others.

The potato pickers brought to the Province from the mainland received \$3.50 a day and their board.

Follow-up Move

WASHINGTON, Oct. 28. — (AP) — Prime Minister Stalin's charge that the United States — along with Britain and France — is trying to start a new war got an immediate assist today from his Ambassador in Washington.

Hardly had Stalin's interview with a Pravda correspondent come under official study here when Soviet Ambassador Alexander Panjushkin made public a demand that the United States explain whether and why it is building up its military strength in Japan.

sense of responsibility or we will have little or no voice in our own affairs, which is the first step towards dictatorship. We have to save democracy ourselves before we can sell it to others."

Referring to the philosophy that might be right, Wing Cmdr. MacLean said that few believe that piecemeal now. But it does not follow that the converse is true. "Weakness is not righteousness and we must be prepared to defend our way of life."

Here is our — Canada's — position, concluded the speaker. "We are a neighbour of Soviet Russia within long range bombing distance. In the points of a great pincher, Canada sticks out like a sore thumb, between the two largest and most powerful countries in the world. We cannot escape the consequences of our position."

Wing Cmdr. MacLean was introduced by Mr. Paul Sharpe in a brief and lively speech which touched his distinguished and adventurous career.

The regular business of the Legion was transacted prior to the address under the chairmanship of Vice-president, H.R. Vessey with Secretary-Manager F.W. Smith also in attendance.

Operation Of Fish Drying Plant Delayed Until Next Summer

Unforeseen delays in securing the artificial dryers made it impossible for Mr. George Wahl and his associates to begin the drying of salt cod and hake at their fish-drying plant near Charlottetown, this season. A Government spokesman said yesterday, however, that the project has not been abandoned and that the plant will definitely be in operation next summer.

The building in which the drying will be carried on was leased by Mr. Wahl last August from the Provincial Government who had leased it in turn from the Department of Transport. It was formerly the storage plant at the local airport and is 200 feet long and 80 feet wide.

The spokesman said that though all difficulties, such as the securing of the artificial dryers, have now been overcome, it would be impracticable to begin operations at this time of year since the inland's deep-sea fishing is practically over. He said that there is but a comparatively small quantity of pickled cod or hake in the Province and that it would not be impossible to obtain fresh fish from the mainland in sufficient quantities to justify the operating of the plant at the present time.

Kinsmen Providing Hallowe'en Party

Arrangements have been made to ensure that Hallowe'en activities by the younger generation will keep within the limits of reasonableness. Chief of Police from the wattle said last night. A dozen or more special constables and patrol cars will be on duty with the regular police force.

Chief Birtwistle stated that although these extra constables would be on duty he did not anticipate any serious trouble. "I hope that those celebrating Hallowe'en will have a good time but will respect the property of others and cause no untoward damage, as no vandalism will be tolerated," he said.

The Charlottetown Kinsmen Club will be doing their part in keeping the children off the streets and out of mischief by holding their regular Hallowe'en Party for the kiddies at the Charlottetown Armouries. They will hold their regular "peanut day" during Saturday, in which children from the various city schools will take part, with all the proceeds from the sale going to charity. A very attractive program has been arranged for the children in the evening at the Armouries, including movies, candy and fruit, and other features.

It is the wish of the Kinsmen Club that all parents will acquaint their children with this news, and have them on hand to enjoy the fun.

Gideons Official Is Speaker Here

The local branch of the Gideons with Mr. Thomas D. DeBlais presiding, heard an address yesterday evening by Mr. Arthur J. Burnham, Toronto, general secretary for Canada of the Gideon Society.

Mr. Burnham said that copies of the New Testament will be distributed annually to every Canadian schoolboy and girl in Grade 8. Two hundred and ninety thousand of the Gideon Bibles have been distributed in Canada and 2,900,000 copies have been distributed throughout the Continent.

During the war years every Canadian and American soldier, sailor, and airman, was presented with a Testament. Mr. Burnham said, and the Society is now extending its program to Iceland, the Netherlands, and to parts of China.

Mr. Burnham said the Gideon Bible has been presented to 200,000 Greek soldiers. Three-quarters of the text is in Greek and the remainder in English.

The annual budget of the Society, Mr. Burnham said, is approximately \$700,000 and is supplied without solicitation by contributors who through their own practical experience have come to know of the Bible's importance in a world that is confused and fearful of what lies ahead.

Regional Director Visits Y's Men's Club

A full attendance greeted Regional Director, Magistrate Roger Rand of the Yarmouth, N. S. Club, at the weekly supper meeting of the Y's Men's Club in the Masonic Social Hall last evening.

Director Rand extended greetings from the International executive and from his home Club and especially honored Philatelic Director Ernest Bell, former District Governor James A. Haslam and Reginald Taylor as the oldest members of the Charlottetown Club. He also congratulated Charlottetown on its success in helping to win the Bennett Trophy for the Maritime Clubs for their excellent club service during the past three years.

In a challenging address, Director Rand stressed the importance of education, first of the members in the aims, ideals and objects of the Y's Men and the method of carrying out the program of service to the community, and second, of the public in keeping it "informed and in sympathy with our activities. Our priceless heritage is the right to proclaim and practice the truth and our privilege to acknowledge the duty that accompanies every right. In striving towards these ends in our local community, we can perform a truly Christian service, and only by the extension of these aims and practices, by all nations and peoples, can the world conquer greed, hate and fear and finally win international friendship and goodwill.

The speaker was warmly thanked by Milton Barkhouse for his message. District Governor Alfred Reynolds of Sydney, N. S., Lloyd Gray and Don Seaman of the Grads and Fred Norton and Robert Watson of the Pictou Club, were introduced as guests.

Mayor Appeals For Fun Without Foolishness

Anticipating an excess of high spirits in the coming Hallowe'en frolics, His Worship Mayor MacDonald is making a personal appeal for "fun without foolishness" to the City school children.

Yesterday, about 650 pupils of West Kent School got a morning "break" when Mr. MacDonald paid them his annual visit. Introduced by the Principal, Mr. Herbert Yeob, the Mayor was entertained by groups of songs presented under the leadership of Prof. Roy Kendall, in the presence of the teachers.

A former West Kent pupil himself, the Mayor said he was glad to have an excuse to revisit his old school although he wasn't quite sure whether he'd really like to be sitting up there as a pupil again. He referred to last year, when all the boys and girls had a really good time and there had been no trouble or vandalism. "Act the same as last year," advised the Mayor, "and you and your teachers and your parents will all be happy this Hallowe'en."

Commenting on the recent freeracker trouble, Mr. MacDonald asked the youngsters to be careful this year and not throw or place freerackers where they might be harmful and damage property.

The hearty reception of the Mayor's jocular approach would seem to augur well for a happy Hallowe'en for all.

In the afternoon, His Worship visited Queen Square School and made a similar appeal. However, as he spoke to the pupils in their classrooms from the office of the Principal, Lt.-Col. Leo F. MacDonald, the Mayor was not able to judge the reaction as in the morning, but feels the boys will co-operate. He announced a party on the Hallowe'en night at the Armouries.

This morning he visits Prince Street School at 11:30 with the same object. Mr. MacDonald has also written the Principal of Prince of Wales College asking for the support of the students in the City's efforts to foster a happy Hallowe'en for everybody.
