—Unusual Editorial — The Communist Party Newspaper Pravda in an unusual editorial said today: "One must understand that retreat is impossible. In the Tsimshian area, the Soviet information bureau said simply: "Our troops continue to fight with the object of annihilating the enemy group which had crossed the river."

But it added that the Germans are attempting to break through to the south and are throwing in new tank and infantry forces.

Despite the use of reinforcements and dogged counter-attacks which resulted in a wedge being driven into Russian lines in one instance, the Germans were "dislodged" from a number of strong points at Voronezh, the communique said.

### Every Branch Represented In Contingent

AN EAST COAST CANADIAN PORT, July 30—(CP)—Thousands of Canadian reinforcement troops gathered from practically every branch on the army, Canadian and Empire airmen, Royal Navy officers and ratings from far eastern battlefronts, and a host of other fighting men sailed from this port recently. Their arrival in Britain was announced today.

Accompanying the large and varied group of troops were officers from headquarters staff of Canada's 4th division.

The Canadian soldiers included a large number of men from tank and anti-tank regiments, hard-muscled stretcher-bearers, battle-trained infantry troops, artillerymen, reconnaissance reinforcements, signallers, army service corps men, ordnance crews, and all the numerous types of technicians needed to keep a modern army afloat.

Fliers from this Dominion included a large group of pilot officers with newly-won wings glinting, sergeants with their wings pinned, observers and air gunners, and large numbers of aircrewmen, from ground crews and wireless technician units.

Many of the latter were trained in the use of new instruments for detecting and combating enemy craft.

A large group of New Zealand fliers were on the last lap of a long journey. Many wore the white armbands that signified they would win commissions as soon as they finish their advanced training in Britain.

A few fliers from Australia were Britain-bound after training in Canada.

Royal Air Force men were scattered here and there among the others. One of them, Wing Cmdr. William Penman, for the past 2 1/2 years has been instructing at Camp Borden, Ont., and No. 2 Bombing and Gunnery School, Mossbank, Sask. His wife accompanied him.

The second group of the Canadian Overseas Fire Fighters Corps was on one of the sleek, grey-painted transports from the R.C.A.F. when they departed mainly in Ontario and the West, the men were all skilled flame-eaters, with a scientific knowledge of how to combat incendiary bombs and all types of blazes.

Sprinkled among the masses of Canadians and Empire servicemen, a few soldiers and airmen wearing the uniform of Poland, Norway and Czechoslovakia moved about unobtrusively.

Seven airforce women were in the varied contingent. Four were from the R.C.F. Women Auxiliary and the others were nursing sisters attached to the Canadian Air Force.

Although not making his vocal bilites known, aboard one transport was a former New York Metropolitan opera tenor, Nikolai Maseu. He was a tenor soloist at the Met from the 1936-37 season until 1944, when he enlisted in the R.C.A.F.

Among a group of artillery officers in charge of Maj. E.V. Thompson, of Guelph, Ont., were several from the west. Capt. V.A. Thompson, Calgary, was formerly attached to radio station CJOJ in that city. Capt. L.A. Wrinch, Vancouver, Capt. A. Pennie, Lieut. G.M. Swan and Lieut. J.N. Armstrong, Winnipeg, rounded out the party.

Commanding an Army Service Corps unit was Maj. R.H. Merryweather, Red Deer, Alta. Capt. S. Winkler, Winnipeg, was not attached to any special unit, explaining he was going over as medical officer with the reinforcements. Also unattached was a chaplain with the reinforcements, Capt. the Rev. J.L. Fargy, Winnipeg.

A former football player, Lieut. Andy Bieber of Winnipeg, was with the troops. Bieber was star punter with the Blue Bombers of Winnipeg during several campaigns.

Quisling's Brother Shuns U.S. Reporters

NEW YORK, July 30—(CP)—Known by neighbors as the sprax because he never speaks, Quisling, brother of Norway's Vidkun Quisling, lives in Brooklyn with his wife and child, it was disclosed today.

He refused comment on what he thinks of his brother, head of the pro-Nazi Norwegian puppet government, and countered:—

"I am a Norwegian citizen. I have lived here 18 years. I haven't seen my brother in 10 years and we haven't heard from him since Christmas."

A city engineer, he has, according to neighbors, long been noted for his reticence.

To newspapermen, Quisling said, "I see no reason why I should explain myself to anyone," and closed the door.

Hopkins Married In White House

WASHINGTON, July 30—(AP)—Harry Hopkins, presidential aide, and Mrs. Louise Gill Macy, New York fashion writer, were married today in the first White House wedding in 24 years. President and Mrs. Roosevelt were present.

The simple ceremony took place in the President's oval study on the second floor of the White House.

Rev. Dr. Russell J. Clinchy of Hartford, Conn., read the vows. The guest list, in addition to Mrs. Clinchy, was limited to 13 members of the immediate families of the bride and groom, and in addition, members of the White House staff.

After the ceremony, the President and Mrs. Roosevelt were hosts at a luncheon for the wedding guests.

Mrs. Hopkins' wedding dress was a simple, street-length blue crepe. She was given in marriage by her brother-in-law, Lieut. Nichol at Ludington, U.S.N., of Ardmore, Pa.

### KISS YOUR TIRED FEELING GOODBYE!

Peppless Many Suffer Low Blood Count—And Don't Know It.

The baffling thing about low blood count is that you can weigh about as much as you ever did—even look healthy and strong, yet you can feel as if you had lead in your legs, doped, tired and peevish.

Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you going power.

Get Dr. Williams' Pink Pills today. They are world-noted for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up you'll feel like bounding up the stairs as if "kissed on air. Ask your druggist for Dr. Williams' Pink Pills today.

German Oil Resources Ebbing

NEW YORK, July 30—(AP)—The German high command already see the bottom of its oil reserves, the Oil Weekly said today in a summary of Axis petroleum resources and supplies.

There can be little doubt that the Axis of the west now is gravely concerned over its deficiency of oil. The trade journal said in a group of articles on the world's petroleum.

"The bitter fighting in southern Russia is a desperate struggle for oil, as well as a part of a supreme effort to dispose of an exasperating enemy," the Oil Weekly added.

Basing its figures on known statistics and calculations of use, the magazine estimated Germany had for its present Russian campaign about 2,000,000 tons of fuel oil after deducting reserves for the western part of occupied Europe. (A rough conversion figure would be seven barrels to the ton.)

It estimated Germany used 12,500,000 tons in 23 weeks of Russian last summer and fall.

Against the slim total, however, was balanced stepped-up production of 240,000 tons a week, double the output at the beginning of the year in 1939 and 50,000 tons more weekly than at the start of the war with Russia.

The sources were listed as lignite and coal liquefaction, benzene, coal tar distillation, alcohol mixture with oil, native and Polish fuel oil and Rumanian crude.

OTTAWA, July 30—(CP)—T. L. Church (Con. Toronto Broadview) made an appeal in the House of Commons for better rolling stock on the Canadian National Railway.

"Upon my word as a private member," said Mr. Church, "I must say that I am surprised to see on a railway called the national railway some of the cars that are going across Canada which are not fit for human habitation."

He objected to the cars used for handling troops and said rates were too high "when we allow for surpluses and the amount they are making out of the war."

### One Strike Ends Dutch Urged To Go Barefoot

Another Begins

LONDON, July 30—(CP)—Here are some of the latest indications of growing shortages of "Save shoes by walking barefoot," advises the Toeristen Kampioenschap, organ of the Netherlands Tourist Association. The paper says this practice will strengthen feet and adds that many barefoot excursionists will be seen.

Tobacco made of cigar butts picked up from the street, popularly known as "stoop shag," is now being sold throughout Holland at a price of \$1 a half ounce.

Bulls may no longer be used "except for normal purposes," the authorities have announced. Bakers thus lose an important ration-free raw material which they have been using recently for baking cakes.

The German-controlled newspaper Algemeene Handelsblad said enormous quantities of flour for baking had threatened to injure the export trade in bulbs.

At Grace Bay, the 650-man working force returned to their jobs at Dominion Coal Company's No. 24 colliery, tied up yesterday when the men walked out yesterday in a dispute over operating technique. The grievance is under negotiation.

Sixty bricklayers, who went on strike at the Sydney Steel Plant yesterday, returned to work today. The 50 carpenters who walked out with them remained on strike. The men were protesting alleged delay in receiving a report from the regional war labor board on wage matters.

They were advised today a federal conciliation officer was on the way to Sydney to hear their case.

Pigeons To Colors

OTTAWA, July 30—(CP)—Fifty pigeon fanciers from coast to coast have answered the call of the Royal Canadian Air Force for 70 loftmen to man the R.C.A.F.'s newly-enlarged pigeon division. It was announced at headquarters today.

Officials said none of the men has been enlisted yet, pending full investigation of their records of ability. They described the response as "good" but said the R.C.A.F. is anxious to obtain more applicants.

### Axis Raiders Bomb Cairo

CAIRO, July 30—(AP)—Axis raiders dropped bombs on Cairo proper in the pre-dawn moonlight today in spite of a long-standing threat by Prime Minister Churchill that the R.A.F. would reply to any such attack with raids on Rome.

Mr. Churchill made his threat to retaliate with bombs on the Italian capital in 1941, before the fall of Greece, declaring Rome would be a prime target if either Athens or Cairo were bombed.
