Control Of Arms Manufacture Is Urged By Manion

Canadian Representative Makes Strong Plea For Disarmament At League Assembly - Dollfuss Leading Light.

By George Hambleton Canadian Press Staff Writer.
GENEVA, Sept. 27.—(O. P. Cable) — Highlights of the 14th meeting of the League of Nations Assembly came late today when the short, dark figure of Engelbert Dollfuss, Austria's pocket size Chancellor, has been waging a heroic battle against Nazism stopped quickly by the Rostrum and he appealed for support, to be greeted with cheering applause from the assembled statesmen.

Earlier Canada, through Hon. Dr. R. J. Manion, Minister of Railways and Canals, pleaded for leadership towards disarmament and world peace, and coupled this with a declaration that the private manufacture of armaments for profit should be abolished. Sir John Simon, British Foreign Secretary, also addressed the Assembly, declaring a disarmament convention was the greatest need of the world today.

tribune, Dollfuss had to wait a moment or two for the applause to subside. In the uproar, the German delegates seated in the front row remained stonily silent. Chancellor Dollfuss was emphatic that Austria was determined to maintain her independence. "After an arduous struggle for her existence," Dollfuss insisted, "Austria today asserts more than ever before her freedom and independence—not so much in the virtue of formal treaties as essentially through the free will of her people."

Appeals To League

Austria counted on the friendly co-operation of other powers, the Chancellor said. She appealed to the League to encourage her efforts in every direction by its high moral authority.

And more cheers broke out as he closed his speech. Except for the Austria interlude all thought turned to disarmament. The need for positive action rang through the speech of Sir John Simon, who opened general debate. Dr. Manion pressed for the application of the Kellogg Peace Pact and the outlawry of war. Tomorrow the disarmament conversations that have been proceeding for some time are continued by meetings between the Italians and the French and British, as the statesmen seek common agreement promising results when the Disarmament Conference resumes next month. The League Council will meet but the Assembly will not sit.

PROTESTANTS PROTEST NAZI CHURCH REFORM

Clergymen Object to Moulding Church Life Along Nazi Ideals.

(Associated Press)
WITTENBERG, Germany, Sept. 27.—Two thousand Protestant clergymen tonight lodged a vigorous protest with the National Synod over the methods adopted by the Nazi Christians for stifling all opposition. The protest was received after Nazism's domination of the German Protestant Church was made complete by the election of Ludwig Mueller as the first Reich Bishop. Mueller was the victor over Friedrich Von Bodelschwingh, choice of the non-Nazi, and Protestantism's future, it was recognized, will thereby be molded according to the Nazi's ideals.

"Church life since several months is under the pressure of force applied by one group. It is not permissible that the Church of Jesus Christ betray brotherly love, and by the rule of force become a kingdom of this world."

Aryan Paragraph

"During the recent state synods laws have been passed conflicting with the Holy Writ and the Church's articles of faith. This is especially to the so-called Aryan Paragraph. "Church administration is endangered by the fact that the pastors and the church officials are persecuted because they are unable to follow the group now controlling the Church."

Commerce In Cuba At A Standstill

Racial Trouble Threatens To Follow Labor Tie-up.

(By Edmund A. Chester) (Associated Press Staff Writer)
HAVANA, Sept. 27.—(A. P.)—Commerce throughout Cuba came to a standstill tonight as thousands of members and sympathizers of the various Spanish regional societies registered public protest against a decree of the Grau San Martin Government. Meanwhile, the labor situation in several sections of the Island became more acute. A six-hour general strike in Havana was scheduled for Friday. Communists were active in some places, new demands were made by strikers at others and unconfirmed reports of a new revolutionary outbreak were received.

Beyond all this, persons high in political circles foresaw the possibility of serious racial trouble.

60,000 DEMONSTRATORS

Approximately 60,000 demonstrators participated in the protest meeting of the Spanish societies held in Havana, which was climaxed by a parade to the palace. Simultaneous meetings were held in

(Associated Press)
BOSTON, Sept. 27.—The offer of \$8,500,000 of City of Boston bonds went without bidders today when 16 representatives of bond houses remained silent as City Treasurer Edmund Dolan asked "are there any bids?" After the failure to get takers for the bonds, Dolan said he would confer with Mayor James M. Curley before making any announcement. Dolan declined comment on published criticism of the manner in which the City of Boston's financial statement, recently advertised, was prepared, except to say that the figures published were correct. A New York banker recently criticized the statement.

NRA BESET BY LABOR TROUBLES

Recovery Administration Unable to Cope With New Difficulties.

(By James P. Seivage) (Associated Press Staff Writer)
WASHINGTON, Sept. 27.—(A. P.)—New labor troubles were thrown athwart the course of the Recovery Administration today to intensify the differences between NRA and the Ford Motor Company. A federal mediator, sent to Chester, Penna., to conciliate a strike of Ford employees was told upon his arrival there that there was nothing to mediate because the plant had been closed.

Senator Robert Wagner, Chairman of the National Labor Board received a report from J. F. Dewey, the Mediator, of the closing of the plant for an indefinite period. "The NRA is powerless if an employer chooses to shut-down his plant," Wagner said in reply to questions. "The Recovery Act does not require anyone to operate if he does not so choose."

EPIDEMIC FEARED IN STORM CENTRE

(Associated Press)
TAMPICO, Mexico, Sept. 27.—An aeroplane carrying Minister of the Interior Eduardo Vasconcelos with food supplies, doctors and medicine landed here late today, bringing the relief to a city still prostrated by Sunday's hurricane. With soldiers repairing tracks ahead of a laboring locomotive, a relief train was slowly poking its way toward Tampico from San Luis Potosi. With the prospects for restoration of rail services, the threatening food shortage was expected to end, but danger from spread of disease still presented a real menace. Martial law still prevailed and good order was maintained. No trace had been found of 13 prisoners who escaped from the municipal jail at the height of the storm. Two were killed by guards.
