

MRS MARY EDDY'S RESIDUARY BEQUEST

Now the Subject of Legal Discussion— No Hearing

(Canadian Press.)
 CONCORD, June 28—A rehearing in the case involving the legality of the residuary bequest of Mrs. Mary Baker G. Eddy, founder of Christian Science Church, to the First Church of Christ, Scientist, of Boston, was denied by the Supreme Court.
 Mrs. Eddy's son, Geo. W. Glover, was seeking to have the residuary bequest declared void and the Eddy estate, valued at about \$2,000,000, divided between Glover and Mrs. Eddy's adopted son Dr. Ebenezer J. Foster Eddy of Waterbury, Vt.
 This was referred to the Supreme Court for determination of the points of law involved.
 The Supreme Court recently ruled that residuary bequest was legal and did not conflict with the statutes quoted by the plaintiffs limiting the size of bequests to churches.
 Counsel for Glover then asked for a rehearing.

A CHARGE OF BRIBERY.

LOS ANGELES, June 25—For the first time a witness in the Darrow trial today charged Clarence Darrow with having personally offered him a bribe to turn over to him certain evidence against the McNamara brothers. The witness, Guy Biddinger, a Chicago detective, one of the men who arrested James B. McNamara and Orrie McManical testified that he had pretended to accept Darrow's offer and that Darrow told him he wished to learn who in the inner Councils of the McNamara defense had been tipping off secret information to Detective W. J. Burns. Biddinger told him that it was E. A. Clanch, of San Francisco labor leader, and that if Darrow came to San Francisco at a certain time, he would let Darrow see Clancey and Burns together.

PRESENTATION OF EDISON MEDAL.

BOSTON, June 27—The culminating event of the session in this city this week of the American Institute of Electrical Engineers was the banquet tonight at the Hotel Somerset, when the Edison medal was presented to George Westinghouse. It was the third general award of this prize. Instituted by old associates of Thomas A. Edison, and it was made to Mr. Westinghouse for meritorious achievements in development of the alternating current system of light and power.
 Former Edison medalists have been Elihu Thomson in 1909, and Frank L. Sproule in 1910. Mr. Thompson made the presentation address this evening. When the Edison medal association was formed in 1904 a trust fund was subscribed to award the medal annually. It was intended to give it to college students, but in 1908 it was decided to award it each year to the person in this country or Canada performing electrical science. The institute will close its session tomorrow.

HALIFAX BOARD OF TRADE.

HALIFAX, N. S., June 27—The Board of Trade has received a telegraphic message from the Department of Trade and Commerce, Ottawa, stating that by an act of the French legislature the origin of the tinned fish and lobsters imported into France must be embossed on the top or bottom of the tin. A meeting is being held this afternoon to discuss the situation. If this new French law is enforced immediately it will mean that the very large Nova Scotia lobster pack now awaiting shipment from Halifax, most of it intended for France and only a small portion of which has been stamped as provided by the act, cannot go forward to the destination included. It is urged that at least a year's notice of such a change in the French law should be given packers so that they would have time to meet the condition required. The preserved lobster shipments from this port amount in value to about \$2,000,000 per year.

SOLDIER OF THE KING A GOOD MILITARY SHOW

The ever popular Colonial Stock Company scored another success last evening when they reopened their holiday, presenting "A Soldier of the King" under the auspices of the 4th Regiment Band at the Opera House.
 The play, a military drama, was a most appropriate one at the time of the annual camp of the P. E. I. Militia and in the packed house there was a very generous intermingling of militia and their friends.
 The Colonial Stock Co. are ever alert in Charlottetown and their efforts to present theatre goers with good plays have been frequently emphasized by specially meritorious work. In this effort they have excelled themselves, not only in the choice of a vehicle for their professional talent, in their scenic equipment in their stage settings and in

OPIMUM TRAFFIC.

LONDON, June 27—Lewis Harcourt, Secretary of State for the Colonies, deprecated the agitation for the immediate and total suppression of the opium traffic, while introducing the Office estimates in the House of Commons this evening. He said:—"There is a grave and undoubted evidence that the compulsory reduction of the opium traffic has led already to an increase even more deadly of the vices of morphine and cocaine, and until international action has been taken to check this it will not be wise to proceed further towards the desired goal of the total cessation of the opium habit."

GRANTED A DIVORCE.

RENO, Nev., June 27—Mrs. Ethel A. McKean has been granted a divorce by Judge McKean a descendant of Thomas McKean, one of the signers of the Declaration of Independence.

 She was married to McKean in Berwick, King's Co., Nova Scotia, September 21, 1896. She said on one occasion when she was sick she was compelled to eat beef's head. McKean would not allow her to play the family organ on Sundays, even though she wanted to play religious music. Recently McKean wanted her to come home and pick the strawberry crop.

TORONTO MARKET.

TORONTO, June 27—The position of eggs at present is rather a surprise to the country produce trader. For a long time eggs have remained steady in market values, and it is felt that they will go very little lower this season. Yet usually they decline at this time. There are feasible reasons for the strength of eggs. Receipts have decreased more than usual, while the cool weather has kept the quality good. Meanwhile, the demand for the consumer has been heavier than usual. This has made prices firmer at country points. The effect of the heavy growth in population is being generally felt in the egg market, as in all others.
 An active demand continues for butter and stocks in both the United States and Canada are considerably over this year than last. Prices that have ruled for some weeks now hold in the local market. The cheese market is easier though prices remain unchanged. From 12c to 12 1/2c cents, which is being paid in the country now, is considered too high compared with that paid for butter.
 New potatoes from Virginia have met a further decline. They are coming in more abundantly now, and a fairly large trade is being done in there. They are selling to the trade at \$4.75 per barrel, a decline of 25 cents. Ontarios are worth \$1.65, and Delawares from \$1.75 to \$1.80. Trade in these are dull, as they are overshadowed by the new grades.

PRESENTED WITH WATCH BY VETERANS.

OTTAWA, Ont., June 28—Miss Marjorie Cook, youngest daughter of ex-mayor Fred Cook, was today presented with a beautiful watch bracelet by the Ottawa South African Veterans' Association. The gift is the Ottawa Veterans token of appreciation.

English General in charge of valuable war office secrets, had most difficult part to portray.

English General in charge of valuable war office secrets, had most difficult part to portray. Her work was at all times strenuous and plainly evidenced her aptitude in interpreting a piece that its best would be brought out. J. C. Lawrence as Lieut. Forest, army draftsman, in love with the General's daughter, earned many plaudits for his exceptionally fine work, especially at his trial and conviction of treason and in the realistic drumming out scene was most effective. The part of the villain, Phillip Daintree, taken by George Roche, was finely done, showing that in their new material the company have been fortunate in the choice of a capable actor. The old favorites J. W. Hartman, and Cortland Hopkins and Frank Oliver (as usual irresistibly funny) were well received and took most acceptably the roles assigned to them.
 Miss LaMonte and Miss Proctor made splendid impressions. The former in vivacious and pleasing in her stage manners and the latter with Miss Langford took lighter parts with the air of those well accustomed to their work. W. C. Whitlock as the German spy, belied his amateurism, and looked and acted his part almost to perfection. J. W. Stanley, J. A. S. Bayer and Ernest Hertz were effective in minor parts completing the piece.
 The Colonials gave much pleasure last evening and equally as much can be expected from this favorite company this afternoon in The Boss of Z Ranch and tonight in the Prince of Liars.

150,000 FIRE

SARNIA, Ont., June 27—Business is paralyzed here today as a result of the big power plant of the Sarnia Gas and Electric Light company being wiped out by fire. The blaze was discovered at 10.20 this morning and owing to some defect in the alarm system there was a long delay in getting word to the fire department. In the meantime the flames had reached the oil store house and when the brigade finally arrived the whole structure was a furnace. In a short time the walls fell in and all the firemen could do was to prevent the fire spreading.
 The fine plant which was installed about seven years ago and was valued at \$150,000 is in ruins and the machinery a wreck. As a result there are no street cars running and many factories and the newspaper offices which used electric power are tied up completely. The whole district will be in darkness tonight.
