Shortly after the Church services were over last night two ladies were wending their way homewards along Great George St. A man—so called—going in the same direction used such vile language in a loud tone of voice that even the most hardened persons in the neighborhood were shocked to say the least. It almost looks as if the time had come when the weaker sex of the city are not safe, abroad even in the early evening. It is to be hoped the case will be the last of its kind for many months to come.

The arrest of a drunken man caused considerable excitement yesterday afternoon about three-thirty. He was being taken along Queen St. to the police station and children of tender ages coming out from Sunday School, were enabled to witness this elevating sight, which opportunity they took advantage of for no little amount of time. This in the city of Charlottetown which is noted all over the Dominion for its high moral standard.

MAN'S WEAKEST POINT
Over one Quarter of the Civilized Races Die of Lung Diseases.

Carried records, extending over many years, show that from one-fourth to one-third of the deaths of young and middle aged men, are caused by pneumonia, bronchitis, influenza, or some other disease of the chest or lungs. No other organ or system of organs is responsible for half as many deaths.

Scientists explain that the air contains billions of germs of these different diseases, ready to pounce upon us the moment our defence is weakened. A run-down condition or a neglected cold is in thousands of cases a sufficient opening for a deadly attack.

The way to be safe is to keep on hand a bottle of Father Morrissey's No. 10 Lung Tonic and use it at the first symptoms of even a common cold. It clears out the mucus from the passages, kills the inflammation and brings a speedy cure.

More than that, it tones up and strengthens the lungs and the whole system to resist further attacks. Trial size, 25c a bottle. Regular size 50c. The Father Morrissey Medicine Co., Ltd., Chatham, N. B.
