CAMPBELLTON, N. B., Jan. 8. (By the Canadian Press)—After twenty minutes of overtime play on slushy ice, Campbellton Tigers and Fredericton Capitals ended their senior northern hockey match tonight with the score one to nothing in favor of Fredericton. The only tally of the game came two and a half minutes from the end of the second overtime session when Beaton, centre for the Capitals, scored after the puck had been shot back and forth several times in front of the Tigers' cage. At the February meeting of the League McLaughlin will suggest that a minor penalty be called against any player who lobs the puck up the ice from behind his own blue line.

Completely outclassing Moncton Hawks in every department of the game and at the same time exhibiting a brand of hockey which does not by any means signify the goal score, Abegweits hopped into the picture last night to turn the League leading New Brunswickers back by a count of 2 to 1, and when the final bell rang over two thousand fans rose to their feet in mighty cheers for the men of Hixson.

Unleashing a withering attack from the opening face-off, Abegweits surprised all and sundry with their offensive tactics and around good hockey to outshoot Moncton 11 to 2 in the first period and 17 to 5 in the second—two got by Foster, and in the third canto held their own while playing a purely defensive game.

Referee Jack Brown was a busy man last night, especially in the last period when the game almost got away from him. However, he stood by his guns and gallantly had the puck chasers playing hockey according to 'ol' man Hoyle.

Sixteen penalties were dished out, Moncton being awarded ten, Gill getting four of the lot, while Abegweits gathered six.

It was a great game to win last night and a tough one to lose. Abbies won on their merits last night and Hawks, showing one of the poorest exhibitions of hockey seen so far in the League, deserved a far greater licking than the one administered. At no time in the first or second periods were the local red shirts in danger, and not once did the visitors penetrate the Oliver-Gross defence. Moncton Hawks are capable of playing better hockey than they showed last night. It looked as if their plan of battle was to rough it up, but the rougher they got, the more penalties they received. In fact the elongated Moncton defencemen threatened to mow the reporters down in the press box with his stick. However, "elbows" thought better of it—and once more the oil spread over the troubled waters.

Abegweits played like champions last night, and if they continue to function in this manner it won't be long before they are back at the top of the heap—and to stay there.

As above mentioned the Hawks were outclassed, but even at that they had a few outstanding stars in Monty Muckle, Red Cook, McIntosh and last, but not least, goalie Foster, who turned aside twenty-eight hard shots against thirteen for Stull.

Walter Lawlor was easily the outstanding hockeyist on either lineup last evening. His poke-checking, carrying and back-skating left little to be desired. In fact, Walter was a thorn in the Hawk sides every minute he was on the ice.

Jackie Kane, a little off color due to his recent illness, was used sparsely and while in the game only showed a few flashes of his former self.

Oliver, with blood streaming down his face as the result of a high Moncton stick and Gross with his nose covered with adhesive plaster, presented a very imposing, and yes—impressive picture in the last period as Hawks bored in in a final but fruitless attempt to even the score. These boys have been lauded on numerous occasions for their good hockey and courage in the face of fire, but last night they responded beyond the most sanguine dreams of Charlottetown hockey fans.

To particularly mention each and every member of the team would take up too much time and space, therefore it is sufficient to say that they were all good in the splendid win.

Waterway Scheme Is Condemned By Que. Labor Council

(Canadian Press)
 MONTREAL, Que., Jan. 8.—The St. Lawrence Waterway project was condemned at a meeting of the Montreal Trades and Labor Council held here. The delegates declared that the scheme was not justified under present circumstances. The whole project, it was stated, would be of less value to Canada than the United States and would finally serve to diminish the importance of the harbors of Montreal and Quebec.

A resolution embodying the condemnation of the scheme and endorsing the stand of the Quebec government in seeking to "preserve and safeguard the rights and citizens of the Province of Quebec," was adopted by the meeting, a semi-monthly gathering of the labor organization.

Amendment To Austrian Measure

(Associated Press)
 VIENNA, Jan. 8.—An amendment to the Austrian foreign exchange restriction measure, which is described as almost as severe as the Hungarian programme, was carried today in the National Assembly.

It forbids Austrian exporters to invoice or sell goods except against foreign exchange. Likewise it prohibits banks and private individuals in Austria from opening accounts for foreigners in Austrian shillings. Exporters are not permitted to grant foreign buyers credits exceeding six months, and all clearing arrangements must be handled exclusively by the national bank, to which all foreign money must be offered.

Prospective Purchaser: "I don't exactly like the looks of this car from the front."
 Salesman: "But look at the back. It looks good from that view, doesn't it?"
 "Yes, but—"
 "Well, that's all anybody'll ever see of this car."

THE SCORES

Abegweits, opening fast, raided the Hawk blue line with a vengeance and finally realized in three minutes when Schwab scored on a pass from Doucet.

The second Abbie counter came two minutes later with such a suddenness that had the fans spell-bound. Doucet again figured in this play when he passed the puck out from behind the Moncton net to Gross, who took an "Annie Oakley,"

U. S. Refuses To Admit Right of Jap Occupation

WASHINGTON, D. C., Jan. 8.—In a broad invocation of United States treaty rights in the far east, the United States has served plain notice it cannot admit the legality of Japan's occupation of Manchuria, nor recognize any resulting regime impairing the open door policy, the Nine Power Treaty, or the Kellogg Pact against war.

No official would forecast what actual steps might follow for the protection of U. S. interests. The terms of all of the international agreements invoked are vague with respect to penalties.

The apparent purpose was to marshal world indignation against any break-down of the treaty structure protecting China, leaving further decisions to be made in the light of developments. Talk of immediate drastic action, including the rupture of diplomatic relations, have found no echo in official circles.

The U. S. notification, sent both to Japan and China, was made public tonight by Secretary of State Henry L. Stimson without comment. It was said at the State Department, however, that the United States had no dispute with Japan as to her legal treaty rights in Manchuria, and no wish to intrude except as United States rights are affected or the anti-war treaty violated.

A man visiting a country town went to the local barber for a shave. The barber made several slips with his razor, and each time he would paste a small piece of paper over the cut to stop the bleeding.

When the operation was over the victim handed the man half a crown.

"Keep the change, barber," he said. "It's worth half a crown to be shaved by so versatile an artist! Why, you're a barber, butcher, and paperhanger all in one."
