War Emergency Training Courses

Mechanically inclined male residents of Prince Edward Island will now have an opportunity of taking their place with the thousands of other Canadians who are helping to build aeroplanes, guns, ships and the other tools necessary to win the war. Selection of officers representing the Dominion Government's War Emergency Trade Training Program will arrive at Charlottetown Tuesday, October 21st and spend a few days at various towns throughout the Province interviewing all interested applicants.

The WEEK at S.D.U. Following the Thanksgiving holidays classes were resumed on Tuesday afternoon. At present the students are busily engaged in preparation for the mid-term examinations.

PUBLIC SPEAKING: The various Speaking Groups held their regular meetings on Wednesday evening. Well prepared speeches and heated discussions indicate that interest is high in this phase of college conducted on the topic: "Should America send food to German-occupied countries of Europe?" The following contributed to the debate: F. P. Aylward, Linus Rosseter, Andre Casgrain, DeForest Delano, John Oatway, Rod MacDougall, Allan MacMillan, Alfred Bragoli, Owen Sharkey, Louis Devereaux, Percy Landrigan and Clitus Murphy. In the Grade XII Group, the following subjects were debated: "St. Dunstan's should provide for the enrollment of co-eds"; "Charlottetown should adopt Daylight Saving Time"; "Inter-collegiate sports should be abolished." The Grade XI—X and Commercial Group conducted an open discussion on "The Benefits of Social Education to College Life."

For the past few weeks the students have been attending socials on Thursday afternoons at the K. of C. Hall. Music is provided by "Ding" Connolly at the piano, Kathleen Hornby on the violin, and DeForest Delano on the saxophone. The students are most grateful to the Charlottetown ladies who have been giving their time and efforts in making these socials the splendid success they have been, and to the Charlottetown Council of the Knights of Columbus for the use of their hall.

Drills for the St. Dunstan's Unit C. O. C. are being held regularly under the able supervision of Sgt. Instructor D. Colquhoun. Lectures for Group B have commenced, and are being given in the Science Building by Major D. F. Tierney, chief instructor of the Unit.

Tuberculosis League Headquarters

"There isn't a busier place on the island than the rooms in the Provincial Sanatorium, where the Tuberculosis League is preparing to send out its anti-Tuberculosis Christmas Seal Sale Material," said Dr. Creelman. Besides the directors and the stenographer, many friends of the League are lending their services as well as Girl Guides and Commercial College students. "Why shouldn't we help," said a 15 year old student. The Tuberculosis League is one of the greatest fortunes of youth. Tuberculosis is the leading cause of death in Canada for those between the ages of 15 and 45. It used to be when a son or daughter had tuberculosis or "consumption," everyone thought that was the end, but the Tuberculosis League has been spreading the knowledge that tuberculosis is not only curable but preventable and it follows up this information with the services of a health nurse, patching testing and Chest Clinic. The young people here everyone on the island will buy lots of Anti-Tuberculosis Christmas Seals this year. L-548-10-18-11

WARREN GROVE SCHOOL Honor Roll for September.

Grade V.—1, Nella MacLaine; 2, Hylia Owen; Grade IV.—1, Norma Jewell; 2, Keith Wheatley; 3, Eric Owen; Grade III.—1, Marjorie Sanderson; Grade II.—1, Arthur Wheatley; 2, Leith Owen; Grade I.—1, Mable Jewell; 2, Ernest Owen; Grade I.—1, Verma Sanderson; 2, Doris Henderson; 3, David Henderson.

Perfect attendance—Wanda Blue, Priscilla Bell, Audrey Bell, Gladys Cook, Joyce Compton, Shirley Cook, Betty Bell. Teachers—Pearl E. Finley, Margaret E. Riley.

ALCOHOL QUIZ

ALCOHOL AND INDUSTRIAL ACCIDENTS 1. Does the chronic drinker who has alcohol in his blood but is not intoxicated have more accidents in industrial employment than the non-drinking man? Yes. 2. What is the rule regarding intoxicants among commercial air lines? No pilot may take a drink of any alcoholic beverage within 24 hours before a scheduled flight. To violate this rule means instant dismissal. 3. What is the rule regarding intoxicants among commercial air lines? No pilot may take a drink of any alcoholic beverage within 24 hours before a scheduled flight. To violate this rule means instant dismissal.

AN ATHLETE'S ATTITUDE

"They call me a fanatic. Perhaps I am. But I can't see what basis they have for any such charge," says Fielding H. Yost, Director of Intercollegiate Athletics, University of Michigan, and one of the best known men in college athletic circles of the country, in reply to some of the questions of a fanatical on the alcohol problem. "I have no problem to me. I faced it, and made my decision on it when I was a boy in West Virginia. I resolved never to touch the stuff and I never have. Does that make me a fanatic? No. A young man can remember so well, as a youngster down there in West Virginia, looking at this thing

W. C. T. U. NOTES

MY AIM I would be true to God, to friends and duty; I would be faithful in every little thing; I would be just to all, in every dealing; With joy I'd make the orphan's heart bright; I would be kind to those whose're lonely; Knowing but too well what that sorrow is; I would be sharing with my poorer brother; Until with very happiness, his spirit beams; I would be slow to judge my erring sister; For I, too, often make mistakes in life; I would not let myself repeat a scandal; For this could surely but engender strife.

THE PRESIDENT'S MESSAGE

Dear White Ribboners—Christian people everywhere are being called upon to pray and work NOW for that new social order, about which so much is being spoken today. Mr. Mackenzie King, Prime Minister of Canada, has pointed out that "if that new order is not on its way before the war is over, we may look for it in vain." There have been during the past years, and there are at the present moment in our land, agencies debating and diligently working down the spiritual and cultural values which the best in our society have laboriously built up and more or less vigorously defended. The corroding influence of such agencies, which tend to rob the nation of its decency and its moral character, has no place in the new order of society. As we meet in conference, facing the tragic conditions that exist in Canada and in other lands, let us focus our attention on Dr. Carro's affirmative commandment, "Thou shalt live sanely," as in contrast to the older negative "Thou shalt not," which is bound to inspire us to greater diligence NOW toward that new society of better living conditions kinder human relationships, the brotherhood of men who live by bread but not by bread alone, greater consideration for the sorrowing, the suffering and the dying in all the lands, and the defense of those principles of righteousness and truth and decency that will ultimately prevail.

An editorial in the Brewers' Digest of May, 1941, says, "One of the best things that have happened to the Brewing Industry was the insistence by high ranking army officers to make beer available at Camps." The opportunity presented to the Brewing Industry by this measure is so obvious that it is superfluous to go into it in detail. Can such a plan have any part in this new and better society which we so earnestly desire? The liquor traffic must go. National prohibition is the only way to let us lead and help others learn to "live sanely."
