

THE BUDGET SPEECH WILL BE GOT READY

For Delivery Soon as Address is Passed and Estimates Ready to go Into Supply Before the Holidays

OTTAWA, Oct. 23.—(Special)—It is understood that the budget speech will be delivered soon after the opening of the session if the debate upon the address is not too extended and that the estimates will also be brought down early.

The Government hopes to get the House into supply before the holidays. With Government business ready at the opening, the Opposition will be held responsible for any needless prolonging of the session.

Capt. Bernier Confident that He Can Get Pole

His Fifteen Months of Active Research is Crowned With Success—Still Hopes to Reach Pole—Has Returned to Quebec

QUEBEC, October, 22.—Captain Bernier, of North Pole fame has returned to Quebec. It was in July, 1906, that he left port with a crew of sturdy men and a large supply of provisions for the Hudson Bay. The principal object of his mission was to establish some new posts, and this the captain said he was most successful in doing. He looks more vigorous than ever after his long journey and reported having had a satisfactory trip in every respect. Asked if he had abandoned his idea of reaching the North Pole, he replied, "No, not as long as I live and God gives me strength. I am to-day more convinced than ever I was that I can ultimately reach the Pole, and if I am given a fair chance I will prove to the world that I can do it, but my ambition is to see the flag of our country floating there first." During his voyage Captain Bernier enlarged the Dominion of Canada to the extent of five hundred thousand square miles and otherwise successfully performed his mission to the Far North.

A FIERCE STORM SWEEPS Nfld. HEAVY SNOW

The Snow Was So deep and Heavy that Trains Were Blocked

North Sydney, Oct 22.—Perhaps the worst snow storm that has ever occurred in Newfoundland so early in the season, took place during the past few days, and as a result the train from St. John's to Port Aux Basques was over three hours late, arriving at the latter place yesterday. Passengers arriving here today by the Bruce say the storm was furious and no doubt much damage has been wrought to the fishing and coasting vessels. In the Codroy valley the snow was so deep and heavy along the railway that the engine was detached from the train and had to butt its way through the drifts before the train could proceed on its journey.

THERE WILL BE NO SUCCESSOR TO MRS. EDDY

Boston, October 22.—Prompted by the report that a successor had been chosen to take the place of Mrs. Baker Eddy, at the head of the Christian Science Church after the death of the present leader, Alfred Farlow, the official spokesman for the denomination on today issued this statement: "Mrs. Eddy, founder of the faith and to-day in supreme control of the Christian Science Church, will have no successor. Neither Mrs. Augusta Stetson, the leader of the New York Church, nor the Lady Danmore, who has been prominently mentioned, will ever fill the position occupied to-day by Mrs. Eddy. With the death of the aged leader, the Christian Science Church will have no single personal leader, the business of the organization will undoubtedly be considered by a board of directors. Minard's Liniment Cures Burns, etc.

DR. WORKMAN CALLED UPON TO RESIGN

The Chair of Old Testament Exegesis in Wesleyan College Because of Unitarian Views in Regard to Important Articles of Faith

MONTREAL, Oct. 23.—(Special)—Rev. Dr. J. C. Workman has been asked to resign the chair of Old Testament Exegesis at Wesleyan Theological College. The decision was reached by the College Board about two o'clock this morning after a six hours session. The action of the Board is based on allegations of doctrinal unsoundness in regard to the Holy Scriptures, the Deity of Christ, sin, miracles and the Atonement. It is claimed by the Board of Wesleyan College that Dr. Workman's views on the doctrines mentioned are in general Unitarian.

SECOND LEAGUE FOOTBALL GAME WON BY SAINTS

By a Victory of 3 to 0—The Game Was a Lively One

At the C.A.A.A. Grounds yesterday afternoon there was a fairly large assemblage of spectators to see the Victorias and the St. Dunstan's College teams play the second match games in the league series. The game was refereed by Thomas Trainor, and there was lots of liveliness about it, affording the spectators plenty of interest and excitement, as the ball kept going all over the field. Luck favored the Saints, whose quarters and halves are certainly good men. In the first half Daly secured a touch down, and Sark, the Miomas, tried the kick but failed to add to the mark. This gave the Saints 3. No other change in the score occurred although both sides played well, and at times each was forced to defend vigorously.

YOUNG LADY SAVES TRAIN FROM WRECK

She Found Obstruction on the Track and Signalled the Fast Express

WELLAND, Oct. 23.—(Special)—By her presence of mind and prompt action Miss Mabel Wheeling, a country school teacher, saved the fast Michigan Central express from almost certain derailment and probably averted a great railway disaster last night. Miss Wheeling was walking along the tracks from this town about 9 o'clock at night when she discovered a pile of iron on one of the rails on the west bound track and managed to reach the signal in time to stop the train.

GENERAL BOOTH MUCH BETTER COMING EAST

Good News From the Veteran Salvator Army Leader Now in Chicago

CHICAGO, Oct 23.—(Special)—General William Booth, who has been ill here several days, will start on his eastern tour today. He has recovered health almost entirely.

DEMONSTRATION AT MANILLA IN HONOR OF TAFT

MANILLA, Oct. 22.—There was a great demonstration in honor of Secretary of War William H. Taft, the occasion being a banquet arranged by a committee composed of members of the Manila Assembly. The secretary was cheered for five minutes when introduced with the statement that "there is no man whom the Philippines owe more than to the President of the United States," the native islanders being particularly demonstrative. A silver loving cup of native make was presented to the secretary, who, in expressing his thanks, said he was gratified when he heard President Osmena say the United States had kept its every promise to the Philippines in letter and in spirit. He urged the importance of education in order to overcome the tendency blindly to follow one man.

SCHR. WRECKED, THE MAYFLOWER IN ORWELL BAY

In the Storm on Monday the Vessel Stranded at Halliday's Cove

One wreck has been reported as the result of the storm on Monday. The schooner Mayflower of 67 tons, from Liscombe, N. S., for Crapaud in ballast was caught in the storm and driven by the gale into Orwell Bay on Monday morning. The wind increased after the Captain dropped anchor and at noon the chains parted. Sail was hoisted but the schooner would not come round and she drifted ashore in Halliday's Cove. About noon on Monday the inhabitants of Orwell Cove could see glimpses of the schooner in the bay struggling with the storm and snow drift. About 12.30 she struck on the sandbar and appeared to be in a helpless condition. Prof. W. T. McLeod, opposite whose farm the vessel is grounded, and James A. Nicholson immediately secured a boat, and battled with the waves the greater part of the afternoon, and finally succeeded in boarding the schooner about 7 p. m. The boat in which the men were attempting to get to the ship swamped as they were about to board her, but they succeeded in catching a rope that was thrown them by one of the sailors, and thus their lives were saved. The vessel lost both anchors and her mainsail was torn to ribbons. She is in danger of becoming a total wreck. She is valued at \$1000 and is owned by Captain Hartley and his two sons Howard and George who with another seaman named George Pyle composed the crew.

HAGUE DELEGATES AVERAGE THREE DINNERS A DAY

317 Banquets in Their Honor During the 127 days the Conference Lasted.

THE HAGUE, Oct. 22.—Now that the second peace conference is a thing of the past some interesting statistics have been added. During the 127 days that the conference lasted there were 317 dinners given in honor of the delegate. The dinners cost altogether \$523,000. Nominal expenses were \$2,730,000, of which \$1,125,300 were spent for telegrams.

FRENCH THINK DREADNAUGHT NOT THE THING

One of their Admirals Advocates Smaller Guns and Swifter Ships

PARIS, Oct. 22.—Admiral Germinet the newly appointed commander of the Mediterranean Squadron, totally disagrees with the naval experts of England, America and other countries who advocate the heaviest battleships and the heaviest guns as most serviceable in future naval warfare. Not larger ships and bigger guns, but smaller, fleetier vessels, capable of great mobility and armed with guns of lower calibre, capable of more rapid fire, is his contention, the real lesson of the Russia-Japanese war. The English Admiralty, he declares, built the Dreadnought upon misapprehension of the reasons of the Japanese success. Minard's Liniment Relieves Neuralgia

AN EXCITING DAY IN N. Y. STOCK MARKET

Big Collapses in Important Lines and Call Loans Reach Seventy Per cent, and Even Ninety—Bonds Are Weak

NEW YORK, Oct. 23.—(Special)—Violent perturbation in today's stock market was taken for granted, in view of the serious nature of the day's news, both from the Trust Company and the industrial field. The failure of the Kickerbocker Trust Co to re-open its doors today and the new run precipitated on the Trust Co of America by its request for assistance from other institutions offered the surface evidence of the trouble. Then came the announcement of the closing of the Pittsburg stock exchange and the reported embarrassment of industrial companies as a cause. Sales of various stocks for Pittsburg account in New York were enormous and made a prime influence in the weakness of the day. Westinghouse Electric, for which the market is narrow at any time, was slaughtered in the urgent liquidation. General Electric was in close sympathy, owing to the analogous business field of the two companies. The effect of the Westinghouse incident was particularly severe on the industrial securities generally. Call loans ran up to 70 per cent and in one instance to 90. Sensational declines were made on many inactive stocks.

A Minister Speaks of Slum Immigration

Rev. G. M. Campbell Says Doukhobors or Galicians Are More Desirable—Bible Society Work—Hope to Print the Scriptures in Seventy Languages.

FREDERICTON, N. B., Oct. 22.—A public meeting in the interests of the Canadian Auxiliary Bible Society at the Opera House this evening was fairly well attended. Dr. Ingh presided and addresses were delivered by Canon Cowie, Chancellor Jones and Rev. G. M. Campbell. Canon Cowie was present as the representative of Bishop Richardson, who was called out of the city on official business. In a brief address he assured the meeting that the Church of England was extremely in sympathy with the work of the Bible society, and it proposed to lend more assistance in the future than it had in the past. Chancellor Jones spoke on the important position the Bible occupied in relation to the national life of the country and advanced many reasons why it should be studied by young and old. Rev. G. M. Campbell spoke of the great work accomplished by the Canadian auxiliary during the two years of its existence. Last year the gospel had been published and circulated in sixty languages and this year it was proposed to increase the number to seventy. He gave a very interesting description of the work carried on among the immigrants at St. John and Halifax, and spoke very highly of the services rendered by Dr. Helme and Miss Vesley, who have charge of the depot in St. John immigration.

GEN'L BOOTH'S CONDITION IS FAIRLY GOOD

CHICAGO, Ills., Oct. 27.—The condition of General William Booth, of the Salvation Army, remained unchanged yesterday. A consultation of several physicians was held, and Dr. Oscar Cleff announced that unless unexpected complications arose, General Booth will be able to continue his trip in about a week. On account of his advanced age precautions are being taken to prevent the cold from which he is suffering, turning into pneumonia. The General remained in bed all day at the home of Commissioner G. A. Kilbey, who is in command of the western territory of the Army.

SEA CAPTAIN HAS CURIOUS PREMONITION

BERLIN, Oct. 22.—One of the best known and most popular Atlantic seafarers, Captain August Richter, who for more than twenty years ploughed the ocean in the service of the North German Lloyd, has astonished all his friends by resigning the command of the "Kronprinz Wilhelm" because as he alleges, he has received Divine warning to quit the sea for ever. The message reached him as he paced his cabin after his ship had, on July 6, collided with an iceberg and narrowly escaped disaster. Returning to Germany after the mishap, he sent word to the directors that he wished to relinquish his command. His wish has been reluctantly granted. In thus behaving, he is following the example of his brother Herman, who, twenty years ago, retired from the sea in precisely similar fashion, after the vessel he was commanding, the "Saale," collided with an iceberg in fog on the Grand Banks. Coughs, colds, hoarseness, and other throat ailments are quickly relieved by Chamberlain's Tablets, ten cents per box. Add postage.

FAIRYLAND TO-NIGHT

The great Hazenback Menagerie of which you have been reading so much of late is to be shown tonight at Fairyland and any who have not had the privilege of visiting Hamburg, Germany, should not fail to visit Fairyland as this wonderful show will be shown in its entirety. The pictures of the animals will be life size and one would imagine that they were going to walk down off the stage. "How Bridget's Lover escaped" will make you laugh so funny at the situations connected with the escape of a domestic's sweetheart who has been caught in the kitchen. "A Woman's Sacrifice" is one calling forth pity and sympathy. Mr. Brown will sing the illustrated song.

THE WEATHER.

TORONTO, Oct., October 23.—(Special)—Fresh to strong, west and north west wind, fair and cool.
