Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup Easily and Cheaply Made at Home

If some one in your family has an obstinate cough or a bad throat or chest that has been hanging on and refuses to yield to treatment, get from any drug store 2 1/2 ounces of Pinex and make it into 16 ounces of cough syrup, and watch that cough vanish.

Four the 2 1/2 ounces Pinex (50 cents worth) into a 16-ounce bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you 16 ounces—a family supply—of a most effective remedy, at a saving of \$2. A day's use will usually overcome a severe cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and breaks the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in guaiacol, which is so healing to the membranes.

Avoid disappointment by asking your druggist for 2 1/2 ounces of Pinex, and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money promptly refunded. The Pinex Co., Toronto, Ont.
