

URGES PEACE PARK IN DETROIT RIVER

WINDSOR, Ont., March 4.—Purchase of one of the islands in the Detroit river by the governments of the United States and Canada jointly to be converted into an international convention park with an international feature will probably be suggested as a suitable memorial for the hundred years of peace when representatives of the two nations meet in New York in April.

The plan was outlined by O. E. Fleming, president of Windsor board of trade, at a meeting of the Canadian peace centenary association in Ottawa and met with such favor that it is expected it will be brought before the international body by representatives of the Canadian association.

Mr. Fleming, who is a member of the Canadian peace centenary association, urged that no plan for commemorating the anniversary would be complete without the establishment of peace memorials along the Detroit river, where the first blood was shed in the war of 1812.

In connection with his proposal for an international island park, he suggested the erection on it of an international peace convention hall to serve much the same purpose for Canada and the United States as the international arbitration hall at The Hague.

Another suggestion discussed by the Canadian association, which will probably be recommended, is that at some fixed time during the celebration five minutes of absolute silence be observed in every English speaking country of the world, and that suitable religious services be conducted.

ALWAYS CONSULT THE PHONE DIRECTORY.

Almost every day The Guardian receives orders by mail to insert news matter of an advertising nature. In most of these cases the senders, who are frequently not known to any member of the staff and who have no account in the advertising department, write "Please insert the following and oblige," thus appearing to imply that they think the items will be inserted free. Only a few weeks ago a reader wrote asking that his advertisement of Farm for Sale be inserted free from day to day until he cancelled it, as he is a subscriber to The Guardian. In this connection it may be said that the subscription price is not sufficient to even pay the actual cost of paper, ink, presswork, mailing, bookkeeping and other expenses of the Circulation department proper, and thus subscribers have no privileges of free advertising and are on the same footing as non subscribers. Seldom ever does the sender state whether the item is to appear in the Morning Daily or in the Evening Daily, whether for one or more times in either Daily, or in both, whether as a display advertisement, announcement, business local, classified ad or otherwise. When for church or charitable purposes they seldom ever say so, or do not enclose sufficient money to pay for same, all of which will be returned by first mail in the event of the item not being chargeable, or if more money is sent than necessary to pay for the item the surplus will be returned at once, there being a greater discount for cash with order for advertising of churches than for regular business. In all such cases the Advertising department communicates with the sender as quickly as possible by mail or phone, often paying the messenger service to get them to the telephone if not too far distant, thus saving all possible time. People write this office to know if News, Letters to Editor, etc., are charged for, and to all such there is but one reply—all items, etc., of a money making nature, even though they be somewhat of news nature, are chargeable. For instance, the advance notice or notices of a concert, lecture, picnic, social, etc., are chargeable if there is an admission fee, sale of food or refreshments, etc. Advance notices of purely religious services, even though a silver collection is to be taken up, are not chargeable. The particulars of any of the above, after they have been held, are, however, news and thus not chargeable. The news of any past, present or future business, which is still being conducted, is chargeable. It is apparent that the object is to make the business more widely known and thus increase it. Verres accompanying death notices are also chargeable. Even items which are actual news and not chargeable but once in either Morning Daily or Evening Daily or both are chargeable for more than one insertion, as they are thus not news. The above facts are given for the purpose of assisting persons who have items, etc., to mail to this office, so that delay and disappointment will be avoided.
