Depicting Spring's Most Charming Modes

ON THURSDAY AFTERNOON 25TH INST., YOU ARE INVITED TO VISIT AT this store what will be certainly the most important spring display of new millinery shown here since 1914—in fact we may safely say the most important and the largest display of beautiful new headwear ever made in this establishment. And when this store promises to exceed its own best records—that means that you are going to have the finest display that the Province can offer you.

There will be new hats from every source, new hats exactly the same as will be worn in the Easter parades of New York.

There will be new flowers that are simply a riot of loveliness, beauty and colour. There will be new millinery of every sort for ladies, for girls and for little folk too. Miss MacLellan, the head of the millinery department will offer, for your inspection new ready trimmed designs which are exact reproductions of the lovely models studied during her recent visit to New York. They will duplicate the beauty, the authenticity of style, the excellence of material used in the New York houses—but at prices that are less than half what New York would ask.

## Prince Edward Island's Finest Display of Smart Suits and Coats

The models that are shown in New York at this very moment are ready for you in Charlottetown. An unsurpassed collection of fashionable spring suits, splendid examples of good tailoring are in the assemblage. Materials which include Poiret, twill, tricotines, gabardines, serges and poplins are a credit to the manufacturers and to the store that sells them.

The features of this Spring's suits are the flare hip effect and long straight lines with narrow shoe-string belts, having vests of fancy weave fabrics, and are very handsomely embroidered, braided and button trimmed, navy blue being the predominating color. Prices ranging from \$29.00 to \$115.00.

The new materials in coats are:—Goldtones, silvertones, polo, tricotines, velours chevots and tweeds.

The new styles are very smart, short lengths with loose backs and belted fronts, ranging in price from \$17.00 to \$55.00.

Tailored dresses are made in practically the same materials as the suits and are built on the chemise lines, which are so popular and becoming to the majority of women.

For afternoon wear the taffeta reigns supreme. Black, navy blue and brown are the favored colors in this material and the gowns usually show some of the hip-bouffancy that is so appropriate.

Prices ranging from \$16.00 to \$53.00.

### Another Island Man Cured

Here is another tribute from an esteemed Islander.

Rustico, March 18.

Dear Sir,—It is a pleasure to add my tribute to the merit of the Faradator. I had been a great sufferer from sciatic rheumatism and had spent a good deal of money trying to find a cure. Last June I got a Faradator and in about a fortnight I found wonderful relief. In addition to being cured the Faradator built up my health in a splendid manner. I can surely recommend the Faradator to all sufferers.
