THE CREAM SEPARATOR.

The separator is the collector of many of the impurities contained in milk. If cream of good quality is to be secured it is obvious that the separator must be cleaned thoroughly after each separation. It not washed and freed from all remnants of milk of the previous separation, the separator becomes a seat of contamination and a source of unclean and filthy cream, the disastrous consequences of which no subsequent treatment and care of the cream can overcome.

ANTIPON IN CANADA

SPREADING THE FAME OF THE GREAT BRITISH SPECIFIC FOR RAPID FAT-REDUCTION

The burden of the obesity is so distressing and so unprepossessing, and is generally so difficult to get rid of with any degree of permanence, that the introduction to Canada of the famous British Specific Antipon will be a welcome in many quarters. The preparation is not unknown here already, but the obstacles in the way of its supply to the general public were necessarily great. All difficulties are now removed.

Ever the important discovery of Antipon, the "treatment usually employed for the reduction of weight" included starvation, dietary rules, sweating and purging, together with mineral drinking. All these things are weakening in the extreme, and when obstinately persisted in, ruinous to the constitution. Antipon is diametrically opposed to such drastic attention. To expel the superfluous matter from the system is all very well, but the body must be amply nourished at the same time. Now, Antipon not only rapidly eliminates the excess of fat, but overcomes the unfortunate tendency to "run to fat." Ample wholesome food therefore becomes Antipon's strength-giving ally, and there is no need to dread that the extra nourishment taken will bring about a re-development of excessive fatty tissue.

Every dose of Antipon is a sure step in the direction of the recovery of beauty of form, and vigorous nervous energy.

The decrease of weight is not a tedious process. Within twenty-four hours of the first dose there is a reduction varying, according to individual conditions, between 8 oz. to 3 lbs. The scales will be the unerring recorder. The daily decrease is eminently satisfactory. When normal weight and symmetrical proportions are regained the treatment is no longer necessary.

Antipon contains only the most harmless vegetable substances in solution, the liquid being in appearance like a light red wine. It is palatable, refreshing and slightly tart, and never occasions any unpleasant reactionary effects.

Antipon can be obtained at all drug stores, from stock or to order, in case of any difficulty, a large case will be forwarded direct from the Antipon Laboratories, Store Street, London, W. C., Eng., carriage paid, on receipt of remittance for 5 doles. 11c.

GRAND DIVISION S. OF T. MIDSUMMER SESSION

The July session of the Grand Division S. of T. held at Darnley on Thursday last was unusually well attended. The Grand Officers' reports showed splendid progress during the quarter; one new Division added to the roll and a substantial increase in the membership of most of the Subordinate Divisions. Rev. R. Hensley Stavert, M.W.P., was officially present and participated in the proceedings. The principal business had relation to the meeting of the National Division on Wednesday and Thursday of this week, and is looked forward to as an important event.

At the public meeting in the evening the hall was crowded to its utmost capacity. The most interesting feature of the programme was the address, illustrated by stereopticon views, of the Most Worthy Patriarch, Rev. Mr. Stavert. Other addresses were given by the G.W.P. Mr. L. P. Tanton, who also acted as chairman, Mr. J. N. Adams, Mr. J. R. Edwards, and the Rev. W. D. Wilson, Misses Helen and Annie Abbott, and Mr. George McKay recited some excellent selections, and Miss Ella Clark added music and singing. There were several nicely rendered choruses by the local choir. After the chairman had extended thanks of the Grand Division to their generous and hospitable hosts, the good people of Darnley for their generous and hospitable hosts, those who had contributed so much to make the gathering such a success, the meeting closed singing God Save the King.

Following is the report presented by the Grand Officers and Representatives:—
Officers and Representatives.—I am pleased to meet you again in quarterly session, and especially happy in having our meeting with the good people of Darnley and with "Aberdeen" Division, which, assisted by Bro. Profit, I had the honour of reorganising.

During the past month our esteemed Most Worthy Patriarch, Rev. R. H. Stavert, has addressed a number of meetings in the province, illustrated by stereopticon views, and re-organised "Shamrock" Division of Kensington, thus adding another branch to our active ranks. In these meetings he was assisted by Rev. W. D. Wilson and Bro. Profit, and we anticipate increased interest in Sons of Temperance advancement as a result of these efforts.

As is usual in the summer months there is slight abatement of aggressive propagation work, yet the Grand Officers reports will show satisfactory progress both in finance and membership.

In statu quo most fittingly describes present conditions of Prohibition Act enforcement. The same old machinery is still at the same desultory work, and while some evidence of improvement are apparent, neither in effectiveness or efficiency is the situation satisfactory. In a few months the provincial ballot will be placed in your hands. Use it as a heaven given trust, for the good of your home and country.

The old banner of temperance, in every corner of civilisation, is still waving its records of victory. Every month adds to the vast extent of territory under its dominion. Let us therefore, who are engaged in the fight, until our labours and our tolls melt away "into the brightness of heaven."

NEW APPOINTMENTS IN AGRICULTURAL DEPT

(Special to the Guardian.)
OTTAWA, July 19.—Hon. Mr. Burrill announces the appointment in his Department under the new markets policy, of Mr. A. P. Westervelt, Clarkston, Ontario, and Mr. George Pepper, Toronto. Mr. Westervelt was director of the Live Stock Branch of the Ontario Department of Agriculture, and as secretary of the Guelph Winter Fair during the years when it exercised such a leading influence upon Ontario agriculture. Mr. Westervelt's executive ability, acquired during his years of service in the Ontario Department, together with his activities in live stock conditions in Canada, will be used in the organisation of an intelligence system in promoting live stock trade. Mr. Pepper is an experienced and successful business man, and as well, one of the oldest and most widely known horsemen of America. Within the last year or two he has turned his energy and ability to an analysis of the conditions affecting Canada's agricultural trade and has given much thought and study to the problems connected with market, and transportation, and to this latter question he will give special attention.
