Why furnaces crack in Summer.

In the old fashioned hotwater heaters with wide, flat surfaces, the soot finds a splendid resting place. A scraper and brush jams soot into the interstices between the water sections. There it cakes and hardens, absorbs moisture, then it expands, and you have a cracked waterpost. If you have a "Bison" hotwater heater you won't have any furnace troubles. There are no flat soot collecting surfaces in the "Bison"—no crevices where soot can lodge; there will be no cracked waterposts, no delays, no mess, no plumbers' bills. The H. E. Ives Co., Limited, Montreal.

Year In and Year Out

If you want to give a wedding present of the year in and year out kind... one that will be of real, practical service to the recipients for years on years to come... by all means buy some tasteful thing in Silverware. Expense need not deter you. A piece of hand-some Plated Ware will cost you no more than you would pay out for any fancy knickknack that's nice enough for wedding gift use. We have very pretty good plated fruit spoons, for example, as low as \$1.25; nice sugar spoons at 50c; really tasteful pickle dishes at \$1.50; and so on. And, of course, if you wish to pay more, we can show you any quantity of higher priced things. E. W. TAYLOR, South Side Queen Square.
