—DIES IN CALIFORNIA —Many old friends in Summerside will regret to learn of the death at Whittier, California, on June 5th of Mr. John Linkletter at the age of 55 years. He was one of Summerside's most popular young men during his residence here and was prominent in all social activities and will also be remembered as a popular member of one of Summerside's prominent quartettes which entertained Summerside audiences on many occasions. NEW FILM UNIQUE IN COMEDY ROUTINE

—"Our Hearts Were Young And Gay is an adaptation of the best-seller by Emily Kimbrough and Cornelia Otis Kinner, is a gay and refreshing story describing the actual experiences of the authors on a trip abroad. Gail Russell and Diana Lynn take the parts of the Misses Skinner and Kimbrough, respectively, and present, it is said, one of the gayest and most charming pictures of two beautiful young girls who, in search of romance, hilariously complicate the lives of everyone they meet.

Laughter seems the principal item in this diverting comedy, according to reports, for the incidents of the girls' European trip falls quite naturally into the riot category. There are so many rib-tickling situations, perpetrated by these Bryn Mawr "sophisticates," in which their heart-throd Bill Edwards and James Brown are a part, that audiences are said to revel in a doublebarreled teen-age romance that's unique.

The girls turn Paris upside down and then leave for London where they devastate the town, we are told. It's apparently a new kind of humor for film fans into which Charlie Ruggles as Otis Skinner and Dorothy Gish as Mrs. Skinner fit with perfect ease.

Hq. Squadron 17 (R) Armored Regiment Begin Practice

HQ Squadron of the 17th (R) Arm'd Regt. under Major N. W. Lowther tried out their Bren Machine guns on the Rifle Range at Tea Hill recently. Lieut. A. J. Haslam acted as Range Officer and every member of the Squadron had a chance to find out how the Bren acted. Lieut. S.G. Bryant had charge of all arrangements for the shoot and the success is largely due to him and S.S.M. MacLean. Lieuts. H.C. Heartz and A.P. Gallant took turns as officers in charge of the butts. Mr. A.G. King was commended for the very excellent arrangements made by him. Capt. MacQuarrie the Regimental training officer also assisted during the day's practice.

Some very high scores were made, some of them by the older and more experienced members of the Squadron and some by the younger soldiers. As regards these younger recruits it may be said that at a musketry practice of HQ Squadron held some two weeks ago the Squadron Commander's prize for the best score made by a trooper was won by Tpr. St. Clair Noonan of the Borden trop. Tpr. Noonan is a new member of the troop and young in years but he has the making of a marksman. Second prize was captured by Tpr. R.C. Birt of Covehead troop with a score of 44 and Tprs. G.E. Watts of Covehead troop and U.J. Doiron of South Rustico tied for third place.

Opl. W.L. Conrad was in charge of all commissariat arrangements and the Squadron had their mess meal on the Range under Sgt. F. Mills' supervision.

MR. KING'S DEFEAT

Sir,—Reports today state that ex-Prime Minister Mackenzie King is to be offered a seat either in King's or Prince County. How will the farmers and fishermen of those two Counties take to that procedure? When he came to P. E. Island looking for a seat some years ago, they folded him to their bosoms, and the Tories did not have the heart to put up any opposition and contest the seat. But he will get no acclamation this time; the farmers are up in arms. Note the large majorities that have been almost wiped out in those two Counties.

The Government in their generosity put a ceiling price on potatoes which is the principal commodity in this Province, but did not put on a floor price. Potatoes could go down to two cents per bushel, and the farmers had no redress, but not so with the farmers in the Prairie Provinces. It is costing Canada millions of dollars every year to make good to the Prairie farmers the difference between the price they receive and the floor price guaranteed by the Government.

The Prime Minister came to the Maritime farmers with his oily voice and said, "Put me back again." He did not say, "If you do I'll put a floor price on your potatoes, cheese and other products." The voice was the voice of Jacob, but the hand the hand of Esau, and now after he was kicked out of Prince Albert he wants to come back here again.

We farmers do not want him here, the old guard is about all gone: Ralston, Power and Macdonald, the three who were the brains of the Government are on the outside now, and as the Government has not a clear majority over all parties, it is liable to crack up at any time.

I am, Sir, etc.,

Heaviest Potato Holdings In P.E.I.

According to the latest report on potatoes issued by the Dominion Department of Agriculture on figures based on June 1 of this year, Prince Edward Island has the heaviest potato holdings in Canada.

The figures show that the Island had on June 1 a total of 20,900 tons of potatoes, of which 10,450 were classed as table stock and 10,500 as seed. In comparison with the same period last year, this was 1,720 more tons, for on June 1, 1944, there was stored in P. E. I. a total of 18,280 tons of which 7,125 were classed as table stock and 11,155 as seed. Prince Edward Island is the only spot in Canada outside of a few isolated places that have more potatoes in storage this year than last.

(It is to be noted that the figures above given include all the seed which Island farmers intend to plant as well as potatoes stored for their own use, both for stock feeding and for domestic purposes. It is estimated that there will be 42,000 or 43,000 acres planted this year on the Island).

In all Canada there is now in storage 28,745 tons and of these 23,512 are in storage in the Maritime Provinces. Last year at the same time in all Canada there were 41,752 tons in storage and in the Maritimes at the same time there were 28,151 tons.

N.B. Hardest Hit

New Brunswick seems to be the hardest hit of the three eastern provinces having only 1,516 tons in storage compared with 8,419 tons for the same period last year. Of these 344 tons are classed as seed stock, which by this time have either been converted to table stock or been planted.

In Nova Scotia there is stored about 1,046 tons compared with 1,442 tons in 1944 at the same period.

The latest report was of June 1st and since then many of the seed potatoes have been converted to table stock, and of the June holding many have been released under permit for the victualling of the troop ships bringing the many thousand service personnel back from overseas. The Wartime Prices and Trade Board issued a statement a few days ago which froze all potatoes in the Maritime Provinces except for local consumption and prohibited export to other parts of Canada unless under permit.

Appeal Allowed In Excise Case

"Because the Department of National Revenue admitted an acquiescence in the very process which the appellant says he followed and particularly as it appears to have been collecting taxes on the product of his manufacture," Chief Justice Thane A. Campbell yesterday allowed the appeal of James Flood in the Supreme Court from a conviction under the Excise Act made on March 8 last by Stipendiary Magistrate K. M. Martin.

The appellant had been charged with brewing beer without a license and had been fined $250 or six months in jail. Several other appeals of a similar nature are on the docket.

The evidence yesterday showed that the appellant had procured an Excise Tax license from the local Department of Customs and Excise, that he had told Mr. Goodwin, local head of the Department, he was going to make "spruce beer", and that the local Department had given him a recipe for making a beverage which called for 15 gallons of water, one quart of molasses, and one yeast cake. It was also disclosed that Mr. Goodwin had warned the appellant not to make any "brew" which would violate the Dominion or Provincial laws. Mr. Goodwin stated in his evidence that his Department did not consider a beverage made from 15 gallons of water and one quart of molasses a "brew" in the ordinary sense of the term.

Other evidence revealed the seizure of the beer from Flood's premises had been made on January 29th last, that analysis of the seized product had not been made until three or four days later, and that it revealed an alconolic content of 4.9 per cent by volume while the legal maximum was 4.5 per cent by volume.

There was a lengthy discussion by opposing counsel—G. R. Holmes, appearing for the Crown and L. P. O'Donnell for the appellant. The Chief Justice in giving judgment said:

Court's Ruling

"The appellant apparently assumed his license was one required to make the beer which he was using and which was made from 15 gallons of water, one quart of molasses, and one yeast cake. Mr. Goodwin said the appellant told him he was going to make spruce beer according to the recipe just mentioned. Mr. Goodwin also stated that a beverage made from that recipe was not recognized by the Department as a brew. The recognition of the Department of National Revenue is not necessary to constitute this potion a beer. Beer, according to section 4 of the Excise Act, is all fermented liquor, brewed in whole or in part from malt, grain, or saccharine material, without distillation."

The Chief Justice went on to say that "allowing for a slight increase in alcoholic content for the period intervening between seizure and analysis, the liquor at time of seizure was probably not stronger than the 2.5 per cent by volume allowed by the Prohibition Act.

"Some such standard," he continued, "was apparently recognized by the Department of National Revenue, because when the appellant applied for a license to make spruce beer, this Excise Tax license in respect to soft drinks was issued to him; the recipe was discussed and agreed upon between him and the local Collector of Customs and Excise. Technically, an offense may be disclosed, and if a purely technical penalty were available, the matter could be disposed of more easily, but the penalty for a second offense is $150 and for a first offense $25. I cannot see the appellant should be held liable under the circumstances ... ...

"This offense would apply only to cases where the alcoholic content of the product is so low it does not offend the Prohibition laws and therefore may be unquestionably considered to come within the category of soft drinks. I recognize the distinction is not entirely satisfactory, but the appellant must be given the benefit of any doubt, particularly on a technical point of interpretation where even the opinion of the local Collector of Customs and Excise would indicate that the appellant's recipe was considered within the law.

"The appeal is therefore allowed; the decision of the Stipendiary Magistrate reversed, and the conviction quashed. No costs are allowed by the Court."

Painful, Pus Filled Boils the Cause of Much Misery

If you suffer from boils you know how sick and miserable they made you feel.

Boils are an outward indication of impurities in the system, and just when you think you are rid of one another crops up to take its place and prolong your misery. All the lancing and poulticing you can do may not stop more coming.

To help overcome boils you should purify the blood, so why not give that old, reliable blood medicine, Burdock Blood Bitters, a chance to show what it will do in helping you get rid of them? Thousands have used it for this purpose for the past 60 years. Why not you?

The Rev. J. M. Fraser and Mrs. Fraser attended the conference of the United Church in Sackville, N. B.

Mrs. R. A. MacRae and Mrs. Everett MacKendrick, Charlottetown, spent last week-end among old friends here.

The Dock Community Club met at the home of Mrs. Lloyd Wilkie Thursday evening. The president, Mrs. Geo. Irving presided. Miss Margaret Forsyth, secretary, read several interesting letters from the Dock young people now overseas. After the business part of the meeting was over, a happy ten hour was spent.

The funeral service of Mrs. A. G. Green was held in the United Church, June 10th, Rev. J. M. Fraser officiating. Mrs. Green will be greatly missed in this community where she was a lifelong active member in church work. She leaves to mourn her husband and three sons, Alvin and Charles, Trinidad, and Arthur, R. C. A. F., England.

Able Seaman Paul Gallant, son of the late Stanley Gallant, Alberton, who recently returned to his home in Tignish, visited Alberton this week. Able Seaman Gallant was on the Athabasca when she was torpedoed and was four hours in the water in April before D-Day. He was one of 75 rescued while 150 perished. He was a prisoner of war twelve months and nine days. While proceeding through France to a German concentration camp, the journey took four weeks which in peace time would have taken nine days. He was bearably well treated due to the fact that the German commandant was a British prisoner in World War I. He speaks very highly of the Red Cross from which organization he received a parcel every week.

Morning service in the United Church Sabbath morning, June 17th, was conducted by the Rev. John Keir Fraser, D.D., L.L.D.

Says Servicemen Seem Satisfied

LONDON, June 20 — (CP Cable) —Canadian servicemen overseas appear "well satisfied" with rehabilitation legislation prepared for them, Alex Walker, president of the Canadian Legion, said today.

He added, however, that as a result of his tour of Britain and the continent he would recommend even further benefits on his return to Canada.

Mr. Walker declined to specify what benefits he would recommend but hinted they probably would consist of widening the present monetary grants. The biggest worry for returning servicemen, he said, was for "those first two years" in civilian life when they will be busy picking up threads of war-disrupted lives and would be under heavy financial strain.
