## WHEN HEADACHY TAKE CASCARETS FOR THE BOWELS

To-night! Clean your bowels and end headaches, colds and sour stomach.

Get a 10-cent box now. You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance yourself, and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach liver and bowels are cured by morning with gentle thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets because they taste good and never gripe or sicken.

### BRITAIN'S HERCULEAN TASK

The Official Eye Witness with the British Army has issued a warning against the suggestion that the Germans are a beaten nation. He says that they are still well organized, have abundant resources, are set up with illusions, and are still confident of ultimate success. No intimation was needed of the magnitude of the task that is before the Allies, but, if there were, this surely supplies it. In addition there is also vivid indication that the area of the war will spread in the near future, and that countries now experiencing unrest in their attitude of neutrality will break in on one side or the other. This, of course, means further withdrawals from agricultural and industrial activity. It also indicates greater shortage in Europe of all kinds of foodstuffs, grain, vegetables and live stock, and of horses. This depletion will have to be made up from countries that are enjoying the blessings of peace. One of these is Canada. It is our bounden duty to see that Britain shall not, as far as preventable suffer from a lack of foodstuffs or of such other useful material as this country can produce. In other words, both men and women are called upon to put forth their best efforts that when time arrives any deficiency can readily be met. The accomplishment of this does not necessarily imply extra labor, but it does particularly suggest more care in preparation of the soil and in the selection of seed, and in attention to the breeding and rearing of live stock. Towards this and the conferences promoted in connection with the Patriotism and Production campaign and the bulletins, pamphlets, reports and reports that are to be had on application to the Publications Branch, Department of Agriculture, Ottawa, will greatly help.

### A BILLION WHEAT DEFICIT

According to reliable statistics there are tied up at the present time about two billion bushels of wheat, the production of the countries at war. This is in the vicinity of half the world's total production of wheat. A recognized authority argues that granting that the warring nations produce a one-half crop in the coming year, a deficit of one billion bushels will still be shown. The three countries upon which the filling of this deficit of one billion bushels will rest are Canada, the United States and Argentina. The combined output of these three countries is only 1,249,000,000; their exportable surplus would, of course, be much less, so it can easily be seen that the question is not one to be easily solved, and it behooves Canada to increase her productions as much as she possibly can, for when the war is over and trade begins to re-establish itself and the nations undergo a process of rehabilitation, the demand for all breadstuffs must be enormous.

**DR. A. W. CHASE'S CATARRH POWDER 25c.**  
is sent direct to the diseased parts by the Improved Blower. Heals the ulcer, clears the air passages, stops droppings in the throat and permanently cures catarrh and Hay Fever. A box of blower free. Accept no substitutes. All dealers or Edmondson, Bata & Co., Limited, Toronto.

# The Western Guardian

—IT PAYS to buy in this Province.

—THE MORNING DAILY Guardian can be obtained at Laferty's Tonsorial Parlours, Summerside.

—MR. E. P. FOLEY, Guardian representative in Alberton, will gladly receive subscriptions and advertising matter.

—GRAND RIVER.—The Misses Gertrude and Laura McKinnon, of Grand River, who have been spending a very pleasant visit with their sister, Mrs. J. W. O'Brien, Elmsdale, returned to their home on Friday. They had the pleasure of taking in "The Irish Agent," which was successfully played by local talent in Alberton last night, Patrick's Day. The school in Elmsdale is progressing favorably under the skilful directing of the teacher Mr. Wm. McKinnon. Mr. John McNeil, the capable mail driver, is giving good satisfaction in his section. A very interesting race took place on Mills River ice on the 17th. Elmsdale received, owned and driven by J. W. O'Brien won first money in the 2.40 trot in which there were four starters and Dolly Mac, owned and driven by Russel Maxfield, Fortune Cove, won first money in the 2.40 pace, in which there were three starters. Much credit is due Mr. George Warren, for the excellent management of the races.

—MEETING OF RATEPAYERS.—Mr. Martin Gallant, school inspector convened a meeting of the ratepayers of Cape Egmont district at the school house. The meeting took place on Tuesday night, the 16th inst., and was largely attended. Mr. Joseph J. D. Gallant, after having been appointed Chairman, took his stand in front and addressed the meeting at the same time acquainting the audience with the purpose of the meeting. The inspector was then invited to explain more fully the purpose of the meeting, which he did very minutely. He declared that the subject of teaching agriculture at school is one of the most important questions that the board of education has ever dealt with. Mr. Gallant says that the main object in teaching agriculture at home or at the school to the children is not exactly to make the children inherit the rules and methods of farming, but it is principally and mainly to cause a desire or an ambition in the young race of today to expend their energy on their whole life on the soil so faithfully tilled by their forefathers. Mr. Gallant also spoke on Women's Institutes which he said were prevalent in certain sections, and remarked that these institutes are very valuable especially when treating in the sanitary conditions of school and homes, for the mothers are a far greater lever in preserving the beauty of the youth than the fathers are, for the simple reason that the mothers being continually at home; have as a rule the sanitary conditions of their home such as ventilation and cleanliness to attend to and would certainly foster the same care towards the school rooms. Reviving to school gardens and home projects, Mr. Gallant expressed his desire to the wishes of the people as a whole. The establishing of home projects was put to a vote and on motion was unanimously carried in favor of the projects. The ratepayers made it obvious that it was almost impossible to have a school garden on account of the scarcity of sufficient ground, especially for the coming season. Discussion on this point was postponed until later. At half-past nine the meeting adjourned.—R.

### WESTERN PERSONALS

—Mr David Lefurgy, North Bedouque, came in to town Saturday by team.—H.

—Mr H. B. Huestis, O'Leary, spent Saturday in Summerside.—H.

—Mrs. W. J. Whitney returned yesterday from an extended visit to Boston and other American cities.

—Mr and Mrs James Hunter, Alberton, were in Summerside on Saturday of last week.—H.

—Mr John G. Arsenault, Egmont Bay, was in town Saturday procuring his fishing supplies for the spring.—H.

—Dr McPhee, Kinkora, intends removing to Summerside and practicing there.

—Mr Charles B. Woodside, Malpeque, was a visitor to Summerside on Saturday.—H.

—Mr B. Beer, who has spent the last few months doing general duty in Halifax, is spending a short furlough at his home in Summerside.—H.

—Mr Dewar, of The Dominion Dredging Co., Ottawa, and well known in Summerside, arrived here on Saturday night by the special. He will spend a few days visiting friends.—H.

—Mr Wylie Sudsbury, one of the Summerside boys who volunteered with the first contingent for overseas service, arrived home from London, England on Saturday night by the late special train. Shortly after arriving at Salisbury Plains last fall, Mr Sudsbury contracted a severe case of rheumatic fever and was removed to a hospital for treatment. Although much recovered he is still so crippled as to be unable for service at the front.—H.

### Action of Single Spoonful Surprises Many

Charlottetown people who bought the simple mixture of buckthorn bark, glycerine, etc., known as Adler-Ika, are surprised at the INSTANT effect of a SINGLE SPOONFUL. This remedy is so complete a bowel cleanser that it is used successfully in appendicitis. Adler-Ika acts on BOTH upper and lower bowel and ONE SPOONFUL relieves almost any case of constipation, sour or gassy stomach. ONE MINUTE after you out. E. A. Foster, Druggist.

—WANTED.—Two smart girls to learn the millinery business. Apply at Holman's Millinery Department. 9083-3-19Mtf.

—MRS. W. C. SCHURMAN, North Bedouque, will be at home to her friends on Wednesday afternoon and evening. 9134.

—TO CORRESPONDENTS.—Owing to the increasingly heavy demands on space, The Guardian cautions its correspondents to be as brief as possible in their contributions. Only Real News will be inserted.

—ALBERTON SCHOOL.—Following is the honor roll of Alberton High School for the month of February:—Principal's Department, Grade IX.—1, Frank Keefer; 2, Marion Campbell; 3, Helen Bell, Grade VIII.—1, Clara Cahill; 2, Helen Gordon; 3, Alvah Green, Vice-Principal's Department, Grade VII.—1, Herbie Corbett; 2, Alex. Hunter; 3, Bertha Miller, Grade VI.—1, Willie Oliver; 2, Constance Hunter; 3, Ruth Larkin, Grade V.—1, Blanche Miller; 2, Lillian Cahill; 3, Dorothy Vaughn, Intermediate Dept.—Grade IV.—1, Frances Graves; 2, John Gaudet; 3, Addie Graves, Grade III.—1, Amy Agnew; 2, Gladys McBeth; 3, Edith Dunn, Grade II.—1, Mary Rogers; 2, Herbie Larkin; 3, Walter Miller, Primary Dept.—Class 3.—1, Dorothy Lawson, and Alberta Barbour (equal); 2, Mildred Lawson; 3, Roy Corbett and Helen Malby (equal); 4, George Ward, Class 2.—1, Olive and Kenneth Profit (equal), 4, George White, Class 1.—1, James Broderick; 2, George Cochrane; 3, Amie McDonald, A.B.C. Class.—1, Raymond A. Leann; 2, Jessie Lawson; 3, Murphy and Wilfred Gaudet (equal). The Nelson Shield awarded to the room having the largest number of pupils making perfect attendance during the month was won by the Intermediate Department.—A.

—MASS MEETING.—If ever a successful meeting of the farmers of Mont Carmel or of any other section was convened it is certainly the one held in Mont Carmel Hall on Wednesday, March the 17th, in order to listen to the lecture both practical and theoretical furnished by Mr. Richard Creed Government official of the Department of Agriculture. The spacious hall overabounded with eager listeners ready to put in practice the able method plans as laid down by the worthy lecturer. The audience found for themselves that Mr. Creed is not only a personal who has received a college education in agriculture but one who has likewise been blessed with a successful experience of finding out for himself the hidden secrets of successful farming. Mr. Joseph M. Aucoin, as president of the institute and chairman of the meeting, in a few brief and well appropriate words explained the purpose of the meeting and ended by introducing Mr. Creed to the audience. The worthy lecturer eloquently and fluently, though briefly congratulated the people of the section on having unanimously responded to the call and initiated himself to his audience by dwelling on the havoc played by gigantic straggle which is now affecting every individual and brings such a ponderous stress in the nations all over the civilized world. He told of the many ways by which the welfare of nations is rendered impossible: When taken from the fields and industries to be placed in the fighting lines,

hence a depression in the productions, especially of the soil; consequently he urged the farmers to farm more intensely. He stated that Great Britain was forced into war on account of treaties; honor and to preserve liberty in her colonies and that even before the war broke out England was not self-supporting, hence a great importation was necessary and more so today. He went on to say that Great Britain not being in need of money in the present crisis, we are not asked to give more towards maintaining the army but to sell more and at an advance in prices. The first branch of farming entered upon by the lecturer was dairying which he says is deemed the most important phase in the present time, as the maintenance of the whole army depend largely on the production of cheese as we are aware of. He showed the impossibility of Belgium, France, Russia etc., to produce more of this production than is necessary at home not mentioning the belligerent multitudes. In a few words he stated that a far greater amount of cheese is used now than previously. Also that a great number of cows in P. E. I., are giving only a small amount of milk to the detriment of the owners better sell them for beef and increase care on the remaining stock. He also dwells on the treatment necessary to dairy cows, and in barn manure which he says is the best fertilizer and finally said that live stock is the backbone of the people of P. E. I. He strongly urges farmers to sow green feed for the dairy cattle, as it does not decrease the fertility of the soil, for the simple reason that most of the food is taken from the nitrogen of the air. The next great point that he strikes at is the production of field crops in order to cope with the great demand, and that we must not depend too much on the surplus of European nations which will be small compared with the demands to be met. The lecturer greatly emphasizes the using of concentrated food for cattle, such as oil cake and cotton-seed meal. 4 The last and most important subject touched upon is the advantage of big plump seeds over small plump seeds, a fact which he made abundantly by using figures. After a few brief remarks made by Mr. Aucoin, and a few well explained definitions in response to different questions put to him, Mr. Creed concluded by congratulating the audience on the admirable attention afforded to him. A vote of thanks was presented to the lecturer which the meeting adjourned and set the farmers adreaming if plenty and ease.—R.

## TIGNISH

—HORSE PURCHASED.—Messrs James Casey and Erwin Christopher have recently purchased a six-year-old Princeton stallion (black) from Lot 7, and will be known in the future as "Prince-Right"—Z.

—IMPROVEMENTS.—The large store of the Tignish Trading Company is undergoing some extensive repairs on its second floor, which will enable this up-to-date company to install a first-class shoe department, a departure from the usual custom here.—Z.

## How To Get Rid of a Bad Cough

A Home-Made Remedy that Will Do It Quickly, Cheap and Easily Made

If you have a bad cough or chest cold which refuses to yield to ordinary remedies, get from any druggist 2 1/2 ounces of Pinex (50 cents worth), pour into a 16-ounce bottle and fill the bottle with plain granulated sugar syrup. Start taking a teaspoonful every hour or two. In 24 hours your cough will be conquered or very nearly so. Even whooping cough is greatly relieved in this way.  
The above mixture makes 16 ounces—a family supply—of the finest cough syrup that money could buy—at a cost of only 64 cents. Easily prepared in 5 minutes. Full directions with Pinex.  
This Pinex and Sugar Syrup preparation takes right hold of a cough and gives almost immediate relief. It loosens the dry, hoarse or tight cough in a way that is really remarkable. It also quickly heals the inflamed membranes which accompany a painful cough, and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. Excellent for bronchitis, spasmodic croup and winter coughs. Keeps perfectly and tastes good—children like it.  
Pinex is a special and highly concentrated compound of genuine Norway pine extract, gualiacol, which is so healing to the membranes.  
To avoid disappointment, ask your druggist for 2 1/2 ounces of Pinex,—do not accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Toronto, Ont.

## Stylish Spring Suitings And Coatings for Women

We respectfully call the attention of the ladies to our New Spring and Summer Suitings and Coatings. They are among the most up to date that the markets provide.

You are invited to look them over whether you buy or not.

We will sell the material by the yard at the lowest price that can be obtained in the city or have it made to order in our usual first class manner.

We suggest that you place your order early to prevent disappointment when the season is advanced.
