MEN! HERE IS THE ANSWER to the talk about Shoe prices and values. 'RICHMOND' a Shoe to be proud of. Made of first quality leather. No shoddy, nothing left out. Some in the new pointed, others in the broad short toe for stout feet. \$ 5.75 Try a pair and know the comfort of a good fitting shoe. We have many other Shoes from \$2.25 to \$5.00 BRADY Footwear Company

NATURE RULES WAISTLINE ACCORDING TO INDIVIDUAL Paris—Waistlines are just about where nature would want 'em on new spring frocks and costumes. Wandering about on individual figures, they aim to reach the most suitable point. They're being treated in a most personal manner at all the big dress-makers these days, being given plenty of leeway to provide the most personal charm. Thus the sensible woman can adapt her own waistline and in accordance with the model chosen. The tailored way prevails, suggesting general neatness to the proportions regarding details in waistlines and lengths. A few designers are declaring for the waist to be nearer the hips, but as this change is decisive, it will not suit everyone and it is certain that many others will continue to toy with empire models and higher lines. Helen Yrlande does this, putting the line high and often marked with ribbon belts in contrasting colors, as on a banana crepe evening gown, with sleeves puffed at elbow and tight cuffs. Peggy Morris puts the waist just about under the armholes and stiffens the tops of skirts with old-fashioned herring-bone to keep them up. Patou has now placed his waistline above the hips after having dropped it considerably last season. It is sure to be more popular and easier to wear for the large majority of women.

REARING FOALS Both spring and fall-born foals may be raised profitably in Canada. The essentials to successful raising of foals are cleanliness, care, common sense feeding, and abundance of exercise. Allow the foal to suckle for five months if possible, advises the Dominion Department of Agriculture. Teach it to eat from the same grain box as its dam at an early age, and in the pasture also a grain box may be located at the further end of a pen or corral, too narrow for the dam to enter. If skim milk is available, teach the foal to drink before weaning, and feed as high as 10 to 12 pounds daily. See that the foal is halter-broken early, before weaning. A muscle and bone building ration for colts and young horses should contain a grain mixture composed of two-thirds oats and one third bran. From weaning until one year of age, feed daily from 1 to 5 pounds of this mixture; from one to two years of age, 5 to 7 pounds; from two to three years of age, 7 to 9 pounds. With this grain mixture, clean bright hay (preferably mixed timothy and clover), with two to four pounds of roots (carrots, mangels or turnips) per day during the winter months will give good results. Give salt regularly.

BROUILLARD IS WINNER

(Canadian Press) BOSTON, May 16—That French-Canadian package of boxing dynamite, Lou Brouillard, smashed Sammy Slaughter to the canvas nine times tonight to score a decisive 10-round decision over the Terra Haute negro.

HEDGES REQUIRE FORE-THOUGHT Trimming hedges requires years of foresight. One inch of growth left on all over the hedge each year is equivalent to two inches in width each year, with the result that in twenty-five years the hedge would be over four feet wide at the base. The hedge will be thicker and more easily controlled if it is cut back almost to the old wood each year. The end of June is a good time to trim according to forty years of experience at the Central Experimental Farm.

INTERCROPPING THE ORCHARD According to many years' experience of the Dominion Department of Agriculture, the central space between trees in orchards utilized for crops should be treated under the cover crop system. Hoed crops like potatoes, strawberries, etc., are to be preferred to crops of grain or grass. Instances have been recorded where tall growing intercrops, such as corn, when planted too close to the trees, have prevented the bark from properly ripening or hardening, with the result that a large number of trees were killed by sun-scald the following winter.

THE UTILITY OF GARNET Should success crown the present experiments of the Dominion Department of agriculture in combining the outstanding qualities of Reward and Garnet wheat, says Mr. Newman, the Dominion Cerealist, it would be difficult to compute the value of such an accomplishment to Canada. Although Garnet is not considered quite the equal of Marquis from the point of quality, many farmers report that Garnet is enabling them to carry on where they might otherwise have had to give up. Garnet, however, is not recommended for any district where either Marquis or Reward thrives satisfactorily.

Sulphate of ammonia or other nitrogen carrier should be applied to permanent pasture every year, but mineral fertilizers need to be used only every three or four years.

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Folders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is always assured and development in every way encouraged.

TO TRANSFER TO MONTREAL

Moncton Juniors to Leave in Few Days — Likely to Lineup With Les Canadiens Juniors. (Canadian Press) MONTREAL, May 16—Ray Malefant and Claude Bourke, left wing and goaler respectively of the Moncton Red Indians, eastern junior champions, will be transferred to Montreal within the next few days, it was learned here today.

Both of the young players started in the Memorial Cup playdown series played here against the Montreal Royals last winter. They will in all likelihood play with Les Canadiens Juniors. Harold Ingram of the Moncton Red Indians, and Gordon Drillon, of the Junior Hawks are slated for Toronto, where they will enter college.

HOLY NAME BOWLING

Last night on the Holy Name Alleys, Trainer's Plumbers, rolling true to form, won the chicken supper series from Davis & Frasers in the final game of the series by a good margin. J. Lawlor took all honors to the plumbers in rolling high single of 219, also high three 602. Trainer's Plumbers: F. H. Trainor ... 164 127 158 M. Lee ... 197 178 175 T. Morrison ... 159 172 182 J. Gallant ... 141 149 213 J. Lawlor ... 208 175 219 Total—2617. Davis & Frasers: E. McCarey ... 104 125 179 G. Murphy ... 198 153 123 W. Collins ... 191 192 133 W. White ... 156 130 193 E. Holland ... 201 170 134 Total—2382.

Tonight at 8 p. m. sharp, A. Davey will meet O. Pneau in the finals of 1000 points for the championship in Class B.

THE PRAIRIE FIELD CROP ACREAGE

Over two-thirds of the field crop acreage of Canada is concentrated in the three prairie provinces, and most of this area is seeded to the grain crops, with wheat predominant. Roughly speaking, the specialized wheat areas cover the southern short-grass plains from the Red River Valley of Manitoba to the foothills of Alberta and attain their greatest width in central Saskatchewan.

IDEAL RANGE FOR CHICKS

An ideal range for chicks is a clover field beside a corn field, or an orchard, where they can get all the succulent green feed they can eat and still have shade as required. Given those conditions, once the chicks go upon range they can be reared with very little labour, dependence being placed mainly on hopper feeding. Plans for a satisfactory range hopper and other constructions for poultry have been evolved by the Dominion Department of Agriculture.

Two little boys had put away in the larger overnight two small cakes for consumption the next morning. When, however, one of them went the next morning to secure his cake, he found only one there, and that had a large piece bitten out of it. Full of wrath, he went in search of his brother. "I say," he demanded, "I want to know who took that bite out of my cake." "I did," answered his brother. "What did you do it for?" "Well, when I tasted it I found it was your cake, so I ate the other one!"

CHOOSE WISELY

It's deliciousness and the tasty richness of its flavor makes Perfection Ice Cream a delightful dessert.

The flavors: Vanilla, Maple, Grapenut, Strawberry, Orange, Pineapple, Chocolate, Vi Tone.

Halifax Sailors Stranded In B. C. Seek Relief

(Canadian Press) VANCOUVER, May 16—Stranded sailors, part of the crew of the steamship Canadian Importer, which arrived here recently from Halifax, today made a personal appeal to Mayor L. D. Taylor for relief. The Canadian Importer was recently sold to Japanese interests and when she docked here from the Atlantic coast officers and engineers were given return tickets to Halifax.

The new owners refuse to pay the return fare of deck and engine-room crews, with the result the men, most of whom are married with homes in Halifax, are stranded here. Mayor Taylor referred the matter to the Relief Department which is communicating with the British Columbia relief officials.

Three Canadians For Commission

(Canadian Press) OTTAWA, May 16—Canada's Royal Commission to investigate banking and monetary questions probably will be composed of five members, Premier R. B. Bennett stated in the House of Commons today. Three of the Commission would be Canadians. He expected the appointment of the Commission would be made between now and June 15th, while the vacation in England did not begin until July 31. Mr. Bennett said in respect to a prospective member of the Commission, the body might get to work a little earlier.

Objects To Import Licenses On Coal

(Canadian Press) OTTAWA, May 16—(C.P.)—Hon. W. A. Gordon, Minister of Mines does not believe in a system of import licenses for foreign coal, he told the House of Commons today. "It is my own view that a system of that kind is not capable of being worked out. I do not think the Government would be justified or the industry well served by such action." The Minister was replying to Hon. J. L. Ralston, Liberal financial critic who inquired if the Government intended licensing imports of coal including Welsh and American.

P. R. A.

The Annual Meeting of the Prince Edward Island Provincial Rifle Association will be held in the Board of Trade Rooms, Thursday evening the 18th May, at the hour of 7.30 P. M. Receiving reports and appointing new Council. H. M. DAVIDSON, LT. COL. President. CHAS. LEIGH, LT. COL. Secretary. 9436-5-13-51.
