Why don't some flours behave? Why don't they keep good? Because they contain too much of the branny particles, too much of the inferior portions of the wheat - may be little pieces of the oily germ. Which act on one another - that's why some flours "work" in the sack.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the vision of our grandmothers in using sage tea for their hair and are fast following suit. The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers. This remedy is sold under guarantee that the money will be refunded if it fails to do exactly as represented. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by E.A. Foster and McKinnon Drug Co.

BOSTON, July 25.—George Tracy, fourteen, son of Mr. and Mrs. R. M. Tracy, 61 Crescent street, Cambridge, found hanging from two ropes in the ceiling of his home yesterday by his sister, Miss Gertrude Tracy. His death is thought to have been accidental, and the manner in which he died is one of the strangest which has come to the attention of the police for some time. Young Tracy was in the cellar about 9 o'clock splitting wood for his mother, and after all had been quiet for a time his sister, Gertrude, went to the cellar door and called. Not receiving an answer she ran down the stairs and saw her little brother hanging from the two ropes on which her father had been accustomed to hang his bicycle—by seat and handle—the ropes being about three feet apart. The ropes were crossed under his chin and behind his ears, the loops holding him fast. His heels just touched the floor. It is thought by his parents that he was doing some athletic stunts on the ropes and in some strange manner became tangled up in the ropes and in that way he met his death.

Special to The Guardian. OTTAWA, July 27.—Advices from Winnipeg and the Canadian North West confirm the judgment of Imperial observers who have returned from the wheat growing sections that the highly optimistic predictions as to the year's wheat crop should be discounted. Reports were received today that it is now generally admitted that I could scarcely move around, I would have dizzy spells and altogether, felt generally run down. After using a number of remedies without finding relief, I learned of Booth's Kidney Pills and found them an excellent remedy. They not only relieved me of the miserable pains and soreness in my back but cured me of my kidney trouble.

WOMEN SUFFER More Than Men

Women have more than their share of the aches and pains that afflict humanity. They must "keep up," in spite of constantly aching backs, or headaches, dizzy spells, etc. Mrs. Edward Caldwell of 123 S. Harold Street, Fort William, Ont., says: "I suffered with dull, miserable pains, soreness across my back and in my sides for months. They would catch me so badly at times that I could scarcely move around. I would have dizzy spells and altogether, felt generally run down. After using a number of remedies without finding relief, I learned of Booth's Kidney Pills and found them an excellent remedy. They not only relieved me of the miserable pains and soreness in my back but cured me of my kidney trouble."
