CAR FERRY STEAMER PRINCE EDWARD ISLAND Inspected in Halifax by Minister of Railways. Steamer to be Put on Route in October.

HALIFAX, July 23.—Hon. Mr. Cochrane, in talking with the Halifax Herald, spoke with evident pleasure of the splendid ferry steamer, Prince Edward Island, now in Halifax. "We expect to have her on the route some time in October," the Minister of Railways said. "The ferry will be a credit to the country. She can take twelve cars on her double tracks and her 7,000 horse-power engine will, we hope, push her through the heaviest ice. Her passenger accommodations are superb and I am sure the travelling public will be pleased with this latest acquisition to the equipment of the Government Railway system. The Prince Edward Island will be able to cross and dock within an hour." Hon. Mr. Cochrane is a practical

IS THE "THE PATRIOT" PRO-GERMAN? Vigorous Onslaught by Premier Mathieson on the Unpatriotic Tactics of the Grit Organ at this Time of National Peril in Playing into the Hands of the Enemy by Stirring up Doubts and Suspicion in the Minds of Loyal and Leal-Hearted Island Farmers.

"It is regrettable we should have in our midst any man, or any body of men, or a section of the press, who would attempt to throw discredit on the work done by the teachers and other patriotic citizens on behalf of the soldiers at the front. It is only just to you that I should state, Mr. Premier, that I can not but be grieved by the charges made by a certain section of the press that the oats collected by your assistance had not been dealt with as it should be. It is utterly false and without a shadow of foundation. You ought to go home to your people and tell them that the attempt being made to cut off supplies for our brave soldiers at the front are not only infamous but stamped with disloyalty. The charge is untrue in every particular. Such were the words of indignant denial with which Premier Mathieson answered the charges of The Patriot when addressing the closing meeting of the Summer School for Teachers in Prince of Wales College last night. There was a large attendance. The Premier presided and was supported on the platform by Hon. Mr. Kininon, Commissioner of Agriculture, Mr. R. H. Campbell, Superintendent of Education, Prof. Theodore Ross, Mr. J. D. Seaman, Secretary of the School, Messrs. P. Calin, Theo. McLeod, Wm. Cain, Leo Nelligan, L. LeRose, J. Smith, V. Crockett, and Dr. Chrysler. The Premier in introducing an interesting musical programme said he regretted that other urgent duties made it impossible for him to meet the members of the Summer School

and the faculty more frequently during that, the third session. It was very encouraging to those who conceived the idea to find it was gaining in popularity year by year. He learned from the Secretary, Mr. Seaman, that in the first year there was an attendance of 270, in the second year 320, and in the third year 340. He did not think anything could speak more in favour of the teachers than the earnest desire they had shown to better equip themselves for the exalted and important work they had to perform. He understood the course of instruction this year had been more suitable for their purposes than those of the two preceding years. That was what was to be expected from the fact that several of their instructors had been with them in the past two years and had gained knowledge of their requirements by experience and were thus better fitted to adapt themselves to the work, just as they would be when they went back to their schools. A great improvement had taken place throughout the province in the past few years in the work done by the schools by reason of the fact that so many of the teachers had taken advantage of these special courses. They might say without undue pride that in educational matters Prince Edward Island had led the Dominion, as had been testified to by the authorities in Ottawa. It was a matter of satisfaction to know that all their teachers had come with zeal and determination to take advantage of the special opportunities offered by the course. They would go back to their schools equip-

ped in a way that could not fail to bring forth splendid results in their pupils. In the past their education system had not been productive of the results that might have been expected. Many schools had been sinking down till they no longer performed the functions they were expected to perform in ordinary circumstances. But they had now taken new heart and a new lease of life and they were now looking forward with hopefulness to the future.

FIELD SERVICE FUND.

He had to thank the teachers of every school for the work they had done last fall in aiding the cause of this country and her allies in the work they did towards making the Army Field Service Fund the success it had been. It was a noble work and had been productive of excellent results. It was regrettable they should have in their midst any man, or body of men or a section of the press who would attempt to throw discredit on the work done by the teachers and other patriotic citizens on behalf of the soldiers at the front. It was only just to them that he should state with all the emphasis that he could that the cruel charges made by a certain section of the press that the oats collected by them had not been dealt with as it should have been were utterly false and without a shadow of foundation. They ought to go home to their people and tell them that the attempt being made to cut off supplies from their brave soldiers at the

EMBARGO AGAINST U. S. REMOVED Foot and Mouth Disease Stamped Out and Imports of Animals to Canada is Permitted.

(From our own Correspondent.)

OTTAWA, July 23.—Hon. Martin Burrell, Minister of Agriculture, has authorized a partial lifting of the embargo against United States live stock. Upon the discovery of foot and mouth disease in the State of Michigan in October, 1914, and its subsequent extension to some twenty other states, it was deemed necessary for the protection of live stock to prohibit the importation from the United States of live animals and their product and also hay, straw, etc., which might act as carriers of contagion. This embargo has been in force up to the present time and Canada has escaped infection with the disease and the heavy loss that would have entailed. The infection has been stamped out.

It has therefore been considered safe to remove the restrictions against importations from the States of Minnesota, North Dakota, South Dakota, Montana, Washington, Oregon, Idaho, Nebraska, Nevada, Colorado, Utah, Nevada, California, Arizona, New Mexico, Oklahoma and Texas. Animals and their products, also hay and straw, on and after August 2nd, may be imported into Canada when accompanied by the affidavit of the owner or shipper stating the shipment is from one of the states mentioned and has not been unloaded in a prohibited state. The usual conditions regarding the importation of live stock with regard to quarantine, certificates of maelin and tuberculin tests, etc., must, of course, be complied with.

AMERICAN NOTE TO GERMANY

Full Text Made Public. United States will Regard as "Deliberately Unfriendly" any Repetition of Acts in Contravention of American Rights. Note is Firm and Final.

(Special to The Guardian) WASHINGTON, July 23.—The text of the American note on submarine warfare, presented in Berlin today by Ambassador Gerard, was made public here to-night. It reveals that the Imperial German Government has been informed that it is regarded as "deliberately unfriendly" any repetition by commanders of German naval vessels of acts in contravention of American rights. The States announce that it will continue to contend for the freedom of the seas, "from whatever quarter violated, without condition and at any cost." In official diplomatic quarters the communication was received as the strongest and most emphatic pronouncement that has come from the Washington Government since the beginning of the correspondence with belligerents in Europe. President Wilson referred to Cornish, N. H., to-night to await developments. On the assumption that Germany already admitted the illegality of her practices by attempting to justify them as against Britain, the United States in the new note expresses the belief that Germany will no longer "refrain from disavowing the wanton

act of its naval commander in sinking the Lusitania or from offering reparation for American lives lost, so far as reparation can be made for the needless destruction of human life by an illegal act." Referring to the German Government's expression of hope in its last note that the freedom of the seas may be established in some measure before the end of the present war, the United States declares this object can be accomplished and invites the practical co-operation of the Imperial Government of Germany. The American Government adds, moreover, that it "holds itself ready at any time to act as common friend who may be privileged to suggest a way to assist in establishing freedom of seas."

At the outset, the German note of July 8 is declared "very unsatisfactory because it fails to meet the real needs may be established in some measure before the end of the present war, the United States declares this object can be accomplished and invites the practical co-operation of the Imperial Government of Germany. The American Government adds, moreover, that it "holds itself ready at any time to act as common friend who may be privileged to suggest a way to assist in establishing freedom of seas."

Containing that the "defense of the act as retaliatory is an admission that it is illegal," the American Government then argues that it cannot discuss the actions of Great Britain with Germany but must regard as "irrelevant" in the present negotiations the conduct of other belligerents. "Illegal and inhuman acts," says the note, "however justifiable they may be, however against an enemy who is believed to have acted in contravention of the laws of humanity are manifestly indefensible when they deprive neutrals of their acknowledged rights, particularly when they violate the right to life itself."

Pointing out that a belligerent should give up its measures of retaliation if unable to conduct them without injuring the lives of neutrals, the note declares that to persist in such measures under the circumstances would constitute an unpardonable offense against the sovereign neutral affected. The United States further asserted that it is "not unmindful of the extraordinary conditions created by the present war and is ready to make every reasonable allowance for novel and unexpected aspects of war at sea, but cannot consent to abate the essential or fundamental right of its people because of the mere alteration of circumstances."

The note says that the events of the past two months clearly indicate that it is practicable to conduct submarine operations "in substantial accord with the accepted practices of regulated warfare" and the comment is added that with interest and increasing satisfaction on the demonstration of this fact by German naval commanders that it is manifestly possible to lift the whole practice of submarine attack while the criticism which has aroused "to remove the 'hief causes of offence.'"

Germans in U. S. Not Subject to Extradition

(Special to The Guardian.) WASHINGTON, July 23.—The State Department officials said today that Germans in the United States, who might be prosecuted as was announced from Berlin last night for working in ammunition factories supplying war materials to Germany, were in no danger of extradition and would not come under German law while they remained in the States. Should such Germans become naturalized Americans meantime and return to Germany at the close of the war, they are protected by the naturalization treaty, under which the United States could intervene in their behalf.

The American Note Will Be Published On Saturday

(Special to The Guardian.) WASHINGTON, July 23.—Count Von Bernstorff, German Ambassador, went to the State Department today for an official copy of the new American note to Germany, although he previously received an unofficial outline of its contents. The Ambassador had no communication with his Foreign Office as to its view on the note, which was delivered there today by United States Ambassador Gerard, but his purely personal view is that the situation is still left open for an amicable adjustment.

TO GLOUCESTER FISHERMEN PICKED UP AND TAKEN TO MONTREAL

MONTREAL, July 22.—The liner Ormidale, in this afternoon from Gloucester, picked up 150 miles off Cape Race from an open dory, in which they had been adrift six and a half days with only three biscuits between them and starvation. The men, Angus McEachern and McNeil, were separated from the Bay State, a Boston fishing schooner, during a fog. They will be sent to their homes by the United States consul.

QUIET PREVAILS IN BAYONNE, N. J.

(Special to The Guardian.) NEW YORK, July 23.—Comparative quiet, a marked contrast of the three previous days of the week, prevailed in the Constable Hook section of Bayonne, N. J., today around the plants of the Standard Oil Company and Tidwater Oil Companies, which have been closed because of the strike of 1,000 men of the Standard Oil Works, the disorder resulting in three men killed and scores injured. Crowds gathered as usual on the streets leading to the works to discuss the situation, but no threatening move was made by the men.

United States Will Inquire Re Attack on Orduna

(Special to The Guardian.) WASHINGTON, July 23.—The United States will make diplomatic inquiries of Germany regarding the submarine attack on the Cunard liner Orduna, at a time when she was bringing a score of Americans home.

A report of the investigation conducted by Customs Collector Malone, New York, presented today to the State Department, embodying affidavits of officers, crew and passengers of the liner, contains a sworn statement of at least one American passenger that the ship was attacked without warning. All officials refused to discuss the report or its contents, but it is known the States probably will ask Berlin Foreign Office for its version of the affair and developments will depend on the reply.

PARIS OFFICIAL

(Special to The Guardian.) PARIS, July 23.—An official statement issued to-night by the French War Office says: "Today was comparatively quiet along the whole front. In Artois there was the usual artillery action on both sides. Some shells were fired on the suburbs of Soissons and Rheims. In the Forest Le Pretre last night we regained a footing in the line of trenches previously lost. Two German counter-attacks were repulsed with considerable losses to the enemy. One of our flying squadrons employed in bombardment duties yesterday evening dropped 28 shells on the railway station at Confans and forced two German aeroplanes to alight within their lines."

THE WEATHER, TIDE, MOON, ETC.

(Special to The Guardian.) TORONTO, July 24.—Maritime: Light to moderate winds; fine and warm. THE WEATHER.—Yesterday was fine and pleasant. The highest temperature of yesterday was 60 deg. above zero and the lowest 50 deg. above. The highest of the previous night was 71 deg. above zero and the lowest 58 deg. above. The tide will be high this morning at 7.15, tomorrow at 8.24 and Monday at 9.30; it will be high tonight at 9.34 tomorrow at 10.32 and Monday at 11.20.

The sun sets this evening at 7.40, tomorrow at 7.38 and Monday at 7.37; it rises tomorrow morning at 4.34, Monday at 4.35 and Tuesday at 4.36. The moon rises this afternoon at 6.48 and tomorrow at 7.33. The first quarter of the moon was on Monday July 19th at 5.09 p.m. There will be a full moon on Monday, July 26th at 8.11 a.m. The length of today will be fifteen hours and eight minutes and of tomorrow fifteen hours and four minutes.

THE SUPREME EFFORT OF GERMANY IS NOW IN EFFECT AND IF IT FAILS THEN COLLAPSE

LONDON, July 23.—Germany at last is opening her grand attempt, not merely to sweep across the whole of Eastern Europe, but to envelop and destroy the main part of the Czar's armies, so as to open the path to Turkey and Asia.

The next few months, even the next few weeks, may be remembered as the most important phase of this Armageddon.

The measure of the Allies' success at the end, and above all, of the subsequent position which this Empire is to hold in the world, will be determined absolutely by the measure of Germany's success in her campaign, both with regard to material and men, between now and the end of the autumn.

We have a second chance, and a good one; we will never have a third. That is now gravely understood by every Minister in the Cabinet, whose members will put away scrabbling, hesitation and red tape, to get forward unmistakably with the job whereon depends our all.

Germany is now opening her supreme effort. We have long said that Germany's supreme effort, when it came, would stagger the imagination.

Canada Will Get All War Orders Britain Can Put in Her Way

LONDON, July 23.—Referring to Canadian reports that the imperial authorities in the placing of war orders are discriminating against Canada, the Times says: "It is understood there is not the slightest ground for such apprehension. The newspaper adds that David Lloyd George, the Minister of Munitions, is to discuss the whole question of munitions with Sir Robert Gordon, the Canadian Premier, and there is every reason to suppose that Canada will get all the orders that can possibly be put in her way."

The supposition that David A. Thomas, representing the British munition department in the United States, is placing orders through American middlemen is unfounded, according to the Times, which says Mr. Thomas is in a position to deal independently of J. P. Morgan & Co. and that he is doing so.
