The current was stronger than usual, and getting into the backwash of a tug the boat became unmanageable and drifted down across the bow of the steamer Lamont which was lying alongside the Constance. There the boat filled and all the occupants were obliged to swim for their lives. All were saved except the Capt. whose body was recovered only about six or eight minutes after the accident. There was no water in the body when picked up, and the deceased showed no signs of struggle. It is claimed that the shock of the water killed the Captain as he was known to have a weak heart. Captain MacLeod was a manly man, and one of sterling worth in every way. He was respected and loved by his men, and they as well as hundreds of friends express the deepest and sincerest sympathy for the bereaved family.

GROWING BOYS AND GROWING GIRLS

Need Dr. Williams' Pink Pills to give them Health and Strength.

Growing boys as well as girls need such a tonic as Dr. Williams' Pink Pills to keep the blood rich, red and strong, and give them health and strength. Edward Koch, a very bright child, at Prince's Lodge, N.S., tells the great benefit her little son has derived from the use of this world famous medicine. Mrs. Koch says: "My little son, Reginald, has been troubled with anaemia almost since birth. He was always a sickly looking child, with no energy and little or no appetite. His skin showed very plainly through his skin and he had several serious attacks of stomach and bowel trouble, and on one occasion his life was despaired of by two doctors who were attending him. His little body was slowly wasting away until he was nothing more than a skeleton. He was peevish and fretful and a misery to himself. Having read and heard so much of Dr. Williams' Pink Pills I determined to try them in his case, and after giving them to him for a couple of months they certainly worked wonders with him. Today he is fat and healthy looking, he has a healthy appetite, is able to play like other children, and is bright and energetic, instead of dull and listless as he used to be. Dr. Williams' Pink Pills have changed my puny, sickly child, into a rugged, hearty boy."

Dr. Williams' Pink Pills cured this sickly boy because they went down to the root of the trouble in his blood. That is why they never fail. Bad blood is the cause of all common diseases like anaemia, (bloodlessness), eczema, paleness, headaches, indigestion, kidney trouble, neuralgia, rheumatism and the special ailments that only growing girls and womenfolk know. Dr. Williams' Pink Pills don't merely cure through the blood. They don't cure for a day—they cure to stay cured. Do not take any pills without the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around each box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

For several years, he lived in retirement and longed for the day when he might be relieved from the burden of the flesh. His character was distinctly religious, and he was in this respect a sure guide for the youth under his influence. His bereaved widow, Mrs. Sarah Morrison, of Belfast, leaves three sons, viz. There are Little Soldiers in Your Blood

They are the white corpuscles, and there are millions of them. It is their duty to defend you against disease, by protecting the red corpuscles and the bodily tissues from disease germs—those dangerous micro-organisms of which so much is now known.

You are helpless unless these little soldiers in your blood have the health and strength to fight for you—to repel the many infectious and contagious diseases whose germs are in the air you breathe, the water you drink, the food you eat, and on things you touch. Among these diseases are typhoid fever, scarlet fever, diphtheria, grip, spotted fever, smallpox, malaria, ague, tuberculosis or consumption.

To make and keep these little soldiers healthy and strong, is simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies that successful physicians prescribe for the same diseases and ailments. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Begin taking Hood's Sarsaparilla today. 100 Doses One Dollar.

The lobster season opened Monday, Georgetown reports that almost all the lines have been run, but that few traps have yet been set.
