BRITISH FOOTBALLERS COMING.—The Newcastle, England United Football team has accepted the invitation of the Dominion of Canada Football Association to tour Canada this coming Summer. It is said the D. F. A. is bringing out the English footballers for "missionary work" not as a money-making proposition, though this has not been generally understood. Any surplus made by the D. F. A., it is stated will be given to the various football associations throughout the Dominion. It is hoped that the British football players will include in the cities of the Maritime Provinces in their tour. A visit of an aggregation such as this to Charlottetown for instance would do much to revive interest in the popular old-time game.

WEDDING BELLS.—A pretty wedding took place on Wednesday evening February 18th 1920 at the home of Mr. and Mrs. Herbert Peyster, Long River at 7.30 p. m. when their second daughter Elsie Esther, became the bride of Mr. Albert Hiscott of Stanley. As the wedding march started up the bride entered the parlor on the arm of her father and took her place beside the groom under a floral arch tastefully decorated for the occasion. Rev. George Miller pronounced the words which made them man and wife. The young bride looked charming in a gown of grey tulle and silk and was attended by her sister Miss Jean who was prettily attired in navy blue silk while the groom was ably supported by Mr. Earl Adams of Dartley. After the ceremony the guests repaired to the dining room where a sumptuous supper awaited them to which all did justice, after which the remainder of the evening was pleasantly spent in music, singing and social intercourse. The bride was the recipient of many valuable and useful presents which go to show the esteem in which the young couple are held. They many friends join in wishing them many years of prosperity and happiness.

WEDDING BELLS.—Never before did the bells of St. Michael's church, Long River peal so joyfully forth as on the morning of February 11th when Miss Lucy Macdonald, daughter of Mr. and Mrs. Daniel R. Macdonald, Orwell, became the happy bride of Mr. Peter McInnis, Sarsfield. The bride was attended by her sister Miss Jean, while the groom was ably supported by his cousin Mr. James Carey. An exceedingly well rendered and a most interesting ceremony the bride's parents where a bounteous dinner was served, after which the bride and groom returned home in Sarsfield where many friends and neighbors assembled and a very pleasant evening was spent when the guests departed for their homes, wishing the young couple many happy years of wedded life.

The London Life
Had Most Successful Year. Profit Payments Exceed Estimates Business Shows Rapid Expansion.
That life insurance is regarded by the public in the most favorable light is clearly indicated by the reports of the insurance companies for last year. That Canadian may feel proud of the record made by the life insurance institutions fully justified by the way in which the very heavy burdens of the war and epidemic have been borne. No company, however, has probably made a more favorable impression in this respect than the London Life Insurance Company, of London, Canada. It has not only been able to meet the pressure of the extra losses of the last few years, but has been able to maintain a very high scale of profit distributions to policy holders and more creditable still, has paid and is paying in profit distributions amounts greatly in excess of the estimates published when the present rates were first adopted in 1900. The example published in another column will be a revelation to those who have always supposed that life insurance estimates were invariably higher than the actual results. Judging however from the viewpoint of 1900 the estimates were undoubtedly reasonable but on account of the greatly improved rate of interest earned since then and other favorable conditions since the war strain, the actual results the company is paying are quite as reasonable. In view of the care with which policy holders' interests are conserved, it is not surprising to see the remarkable growth shown in the volume of business transacted. The business in force in 1919 is two and a half times the amount in force at the opening of the war and more than five times the amount in force ten years ago. The other features of the Company's business have shown similar progress, and it is quite evident that this progressiveness, combined as it is with such a solid financial position wears an expression of the Company's usefulness in the future such as will be most gratifying to all interested in its affairs.
