### BEDEQUE

With April Fools Day coming last Wednesday, probably the most important sport of the season arrived the same day, fishing. Everybody is trying their luck, one does not know which is the most plentiful along the river and streams, the boys and girls or the fish. However the try, to catch, a string of speckle beauties is everyone's wish, and after the long winter months of closed season for trout, a treat we all will surely enjoy. Last weeks holidays have provided the school children with ample time to try their luck.

The following is the Honor Roll and standing of the pupils of the Wilmot Valley school, for the month of March:

- Grade X.—1. Jean Curtiss; 2. Horace Clark.
- Grade VIII. 1. Eunice Jardine; 2. Ralph Casley; 3. Dorothy Hogg.
- Grade VII.—1. Marjorie Clark; 2. Collin Waugh; 3. Robert Hogg.
- Grade V.—1. Gladys Clark; 2. Walter Hogg.
- Grade IV.—1. Beth Waugh; 2. David Clark; 3. Ewen Clark.
- Grade I.—1. Harry Waugh; 2. Wendall Huestis. Teacher Evelyn Mayne.

The congregation of the Centreville Bedeque Church, regretted the serious condition of the roads, thus making it impossible to present the Easter Program, that was to be presented Sunday evening. Everybody hopes for better road conditions, within the next two weeks.

Several of our large foxmen of this and the surrounding districts report some large litters of fox pups, some other less fortunate foxmen, have several small litters. We hope they all will have the good luck to save their puppies!

A number of friends, gathered at the home of Mrs. J. A. Wright, North Bedeque, to tender her many congratulations, on the 27th of March being the occasion of Mrs. Wright's Seventy-ninth birthday, and to wish her many happy returns of the day. Mrs. Wright is still very active and enjoys good health. Icecream and cake was served by Mrs. James Stavert of North Bedeque and Mrs. A. K. Whidden, who came home from California, to spend the winter months, with her mother Mrs. Wright.

The special Easter Church services of the Central Bedeque Baptist Church was held on Easter Sunday morning. A large congregation was present. Rev. A. G. Crowe, pastor, took his subject for discussion "Faith and Unbelief," explaining the real Easteride and the real meaning of Easter. Sunday school had a full attendance. At Freetown, another Easter service was held. Mr. Crowe's subject was "The Two Eastern Toombs." A splendid and very interesting discourse was

heard by a fairly large congregation. Special Easter music was very appropriately rendered by the church choir.

On Sunday, March 22nd, the stork presented Mr. and Mrs. Scott Cairns, of Freetown with a lovely baby girl, in the Prince County Hospital. Friends offer their heartiest congratulations.

Miss Mable Millar, principal of the Central Bedeque School and Miss Lillian Millar teacher at the Centreville Bedeque school, attended the Teachers Convention in Charlottetown last week, they also spent the Easter holidays at their home in Lot 16.

In Arrostalk, they have an Experimental Station devoted almost entirely to potato experiments, something we should have here on "Spud Island," which might be a branch of our station at Charlottetown. Of particular interest to our Island growers is the series of plots fertilized with different amounts of the usual 5-8-7 fertilizer. The 500-lb. per acre plot showed quite an improvement over the check plot, receiving no fertilizer at all, but the improvement is more noticeable as the amount of fertilizer is increased. This series of plots received 5-8-7 fertilizer is increased at the rate of 500 pounds, 1,000 pounds, 1,500 pounds, 2,000 pounds, 2,500 pounds and 3,000 pounds per acre. Judging from the growth and yield of potatoes, 2,000 pounds per acre is going to pay handsomely, but 3,000 pounds per acre has produced the larger growth, both in quality and quantity. The question naturally arises as it would with us, whether the yield will be enough larger to justify the heavier applications. The price received for the market stock potatoes will also be a factor it is the general thought of the farmer in P. E. Island that the amount of fertilizer depends largely on the soil, heavy soil would require some three to five hundred pounds less, while light soil would require the surplus of the heavy soil. But many experiments have been tried by the farmers and resulted in an average of 1,800 hundred pound to 1 ton be used to produce a good heavy crop, in quantity and quality, equally. Thus continued experiments will probably find the sufficient quantity to produce a good crop, with the least cost per acre.

The entire Community join in extending to Mr. Garfield MacLean and Mr. and Mrs. Calvin Reeves, Freetown P. E. I., the deepest sympathy in the great sorrow they are called upon to bear, in the death of the former's wife at the home of her father Mr. Calvin Reeves, on Sunday. The deceased had been in failing health since early last summer, and had returned from her home in Boston, Mass., to her father's in the hope that her health would improve. High hopes had been entertained for her recovery right up to a few days previous to her death, and death came as a great shock to her immediate relatives and friends. Mrs. MacLean, was a young woman of 35 years, a devoted mother, wife and daughter. In her home a vacant place will ever be, the four little children she leaves to mourn the loss of a loving mother, in which they have lost one that never can be returned, by another. In Freetown, the many friends deplore the loss of one that in her school-hood days was a general favorite and loved by all who knew her, making fond friends and acquaintances in every community. Mr. MacLean, formerly belonged to Argile Shore and friends in that vicinity will regret to hear of his bereavement. There are left to mourn, the loss of a loving wife mother and daughter, her husband and four little children her father and mother, Mr. and Mrs. Calvin Reeves of Freetown; also two sisters, Ada, Mrs. Kenneth Graham and Pearl, Mrs. Kessie Matheson of Bradalbane and a half brother Harry at home, to all of whom the community extends sincere sympathy. The funeral took place on Wednesday afternoon from the home of her father to the Wilmot Valley Cemetery. The funeral was largely attended, which testified the popularity of our dear friend and friends paid their last tribute of respect. Rev. Mr. Ewen MacDougall, conducted the service.

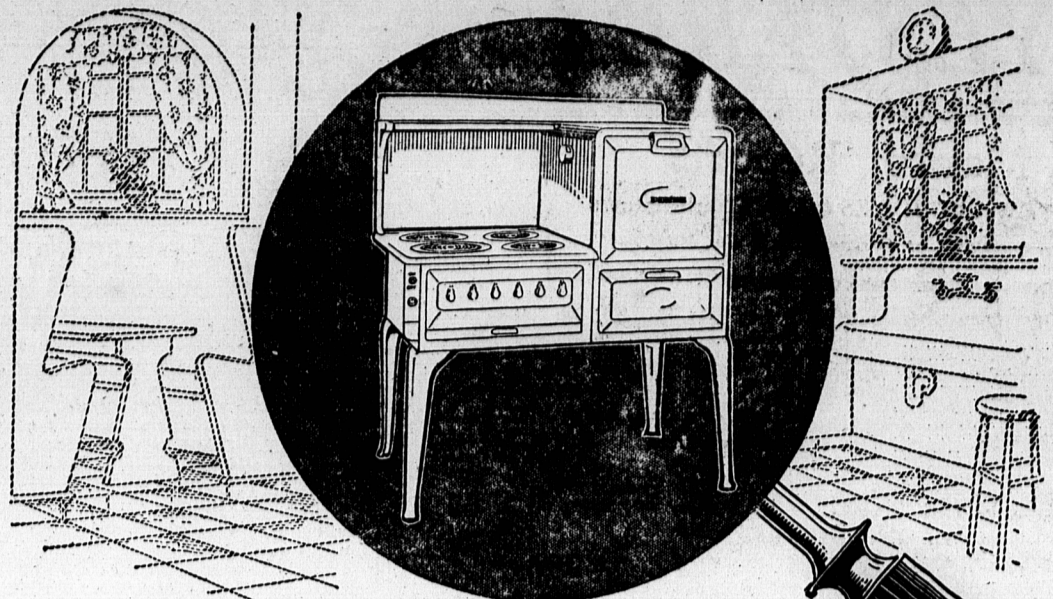

The many friends of Mrs. Eldon Drummond of Lower Freetown, regret very much to hear that she is suffering from a broken wrist. Mrs. Drummond had been on a visit to her parents in Summerside Mr. and Mrs. Benjamin Condon, and had journeyed from Summerside to Freetown by train. While driving by team from the station to her home the sleigh in which she was driving overturned throwing Mrs. Drummond out and breaking her wrist. The accident is most regrettable and friends join in wishing her a speedy recovery.

Some of our up-to-date foxmen have received fancy cheques from their pelts at the Lamson Co., sale at London, England. Although everybody talked about the low price received for their pelts, this year, one foxman, has received quite satisfactory prices, four pelts averaging \$110.00 per pelt; and six pelts averaging \$95 per pelt. That is quite refreshing to learn that the prices are really good for good pelts. The fox pelts are of more value than growing potatoes, with no work and ready cash turns out in handfuls. However, the price would fall somewhat if everything was given up but fox ranching, so after all its best for some to grow potatoes mixed farming, etc. while some more continue fox ranching. That will keep the prices of everything in general more normal.

Miss Aletha Smith, Central Bedeque spent a two weeks holiday very enjoyably in Summerfield, the guest of Mr. and Mrs. James Croken.

is spending a very pleasant holiday in Springfield, the guest of her friend, Mrs. Archibald MacGregor.

The South Freetown Women's Institute met Thursday evening March 19th at the home of Mrs. Gordon Burns. The president presided. The meeting was then opened with the singing of the Ode, followed by the repeating of the Institute Creed. The secretary then called the roll which was responded to by eight members and one visitor. Minutes of previous meeting were read and approved. A letter of thanks was then read by the secretary from Mr. Arlmas Burns. It was moved and seconded that Mrs.

The New Enterprise Electric Cabinet Range. There are also two models of the low oven type, embodying the same conveniences as the cabinet model.

## Modernize Your Kitchen with the Guaranteed NEW ENTERPRISE ELECTRIC RANGE

THOUSANDS of Canadian women have for years enjoyed the pleasures of cooking by electricity. They have found it not only makes cooking easier and better but also brings them more leisure, better health, and a cleaner, brighter kitchen to work in.

And now comes a super electric range—the New Enterprise—developed by the Enterprise Foundry Company, Limited, of Sackville, makers here in the Maritimes of good heating and cooking equipment for more than 42 years.

### A Better, Improved Range

The New Enterprise Electric Range is up-to-date in every way. Just the very things a woman appreciates are features

of this modern range—plenty of heat for quick cooking—economical operation—ease of cleaning and beautiful appearance.

"Speedy-Heat" elements, specially designed by Enterprise engineers, make electric cooking quicker than ever. They are exclusive to the New Enterprise.

"Balanced load" switches, the latest improvement in electric ranges, ensure abundant heat even through the busy hours when there is a full meal to prepare.

### A Bright, Clean Kitchen

The beauty of the New Enterprise in color combinations of Spring green and cream, or French grey and white, will make you doubly proud of your kitchen. The New Enterprise Electric Range is

extremely easy to keep clean—just a damp cloth will preserve its spotless beauty. It adds a charm to your kitchen that makes work easier—more pleasant.

### Unconditional Guarantee

Every New Enterprise Electric Range is unconditionally guaranteed, both as to operating parts and general construction, by the Enterprise Foundry Co., Limited—a Maritime manufacturer with a 42-year reputation for good ranges.

All corners are smoothly rounded  
Hinges and bolts are concealed  
Racks and shelves are removable  
Ovens are seamless and all-porcelain  
Heating elements are detachable
