King Orders Inquiry Into Pedestrian Traffic Fatalities

LONDON, March 6—(CP)—New examinations of all subway shelters were begun today and the King ordered an inquiry into the causes of the tragic pedestrian traffic jam that killed 178 persons in a pile-up over a woman, with a baby in arms, who stumbled at an underground entry while seeking refuge in Wednesday night's air raid.

The inquiry will seek the cause of the accident and determine whether structural changes are necessary.

The Ministry of Pensions ruled that the dead and disabled among the 60 injured would be treated on the same basis as though a bombing caused the disaster. Home Secretary Herbert Morrison declared there would be no hunt for a scapegoat but "if there was negligence in any official quarter, such negligence will be held accountable."

On retirement of the Lieutenant Governor and party the Speaker resumed the chair.

New Clerk Appointed

Premier Campbell informed the House that Mr. C. St. Clair Trainor, who formerly held the position of Clerk of the Assembly, had resigned on his appointment to the bench as Judge of the County Court of King's County. His Honour the Lieutenant Governor has approved the appointment of Mr. J. Watson MacNaught as Clerk of the Assembly.

The Premier introduced a pro forma bill, which was given first reading.

On motion of Mr. McIsaac, seconded by Mr. Saville, Joseph MacDonald, St. Margarets, was appointed a doorkeeper.

On motion of Hon. Mr. McGuigan, seconded by Hon. Mr. Dennis, Charles Albert MacLeod was appointed a doorkeeper.

On motion of Premier Campbell, seconded by Hon. Mr. McGuigan, J. Lester O'Donnell was appointed Law Clerk.

Senator McIntyre's Resignation

Premier Campbell announced the resignation as of Feb. 26 of the Hon. James P. McIntyre from his position as a member of the Executive Council and as Minister of Public Works and Highways. "This resignation," he said, "was occasioned by Mr. McIntyre's appointment to the Senate of Canada. I have no announcement as yet to make regarding the filling of the vacancy of a member of the Executive Council, but I have advised His Honour that for the time being I am taking over the portfolio of Minister of Public Works and Highways."

Hon. Dr. MacMillan, leader of the Opposition: "I would like to ask the hon. Premier, was the resignation before or after the Party Caucus?"

Premier Campbell: "The resignation was on the 26th of February. That is the only note I have here."

Premier Campbell moved, seconded by Hon. Mr. McGuigan, that the Speech of His Honour the Lieutenant Governor be taken into consideration on Tuesday and that it be made a first order of the day.

SPEECH

Following is the text of His Honour's Speech from the Throne: Mr. Speaker, and Gentlemen of the Legislature Assembly of Prince Edward Island.

1. In the name of His Majesty, the King, I thank you for your attendance here today on assembling to assume your Legislative duties.

2. The citizens of this Province, in common with the people of all parts of the British Empire, were shocked to learn that His Royal Highness, Prince George, Duke of Kent, was killed on Active Service August 25, 1942. One of his last official acts was to visit a Royal Canadian Air Force Reception Centre with the Canadian Air Minister, Honourable Charles G. Power. In 1941 he made an extended tour of Commonwealth Air Training Stations in Canada, and those who met him were impressed by his kindly, courteous manner, and devotion to duty. Nothing could demonstrate more forcibly to the world that Britain, from her highest to her most humble family, is in the war to the finish.

3. The Leadership displayed by Prime Minister Churchill during the past years is now bearing fruit and he, together with that other great leader President Roosevelt, has startled the world by appearing in North Africa to consult with allied commanders on matters of policy and strategy. This meeting has played an important part in unifying the objectives, and in co-ordinating the efforts, of the British Empire and its American and French allies. As a result plans were laid for an invasion of the Continent within the next nine months.

4. Men and women of Prince Edward Island have continued to offer and give their services in the cause for which we, as a nation, are fighting. Our enlistments proportionately are higher than those of any other province in Canada. Some of our sons have made the supreme sacrifice. To their relatives my government expresses deepest and most sincere sympathy. A suitable Memorial has been prepared and will go forward to the next-of-kin of those who have given their lives in order that we may live and enjoy freedom.

5. My Government has assisted the Government of Canada in establishing a Dependents' Advisory Committee for the Province. This Committee will assist dependents of those in the Armed Forces in securing supplementary grants or special assistance in circumstances where dependents have special or emergency needs. Already, more than two hundred and eighty have benefitted and the work is continuing on a greater scale. Increased provision is being made for Soldiers' Welfare and comforts.

6. In order to be prepared to assist whenever possible in planning to meet the demands of the post-war reconstruction period My Government has set up a Reconstruction Committee to work with Officials of the Government of Canada in formulating and working out the details of a plan of Rehabilitation. Every assistance will be given to work out a programme which will make it possible to meet conditions which may prevail.

7. Although the war is raging near this continent, our cities, towns and countryside have not felt the impact of enemy bombs. Though the possibility of invasion becomes more remote each day, nevertheless we must be prepared for eventualities; with this end in mind our Air Raid Precautions' Organization is being perfected and strengthened under the direction of a Member of My Government.

8. My Government views with approval the appointment, by the Parliament of Canada, of a special committee to study plans for a comprehensive system of Social Security, and the selection of a representative of this Province as chairman of that important committee. My Government will cooperate in every possible manner towards the formulation and establishment of such a system.

9. My Government, through its Departments of Education and Agriculture, and in co-operation with the Departments of Labour of the Government of Canada has continued to give vocational training to the youth of the province; boys and girls who complete those curses are usually absorbed in the army or essential war industries, where they are of immediate value due to the instruction received.

10. My Government, realizing that the primary products which are so essential to a balanced and all out war effort must continue to flow in ever increasing volume, has been studying ways and means to assist the farmers to obtain heavier production of field crops, live stock and dairy products, in spite of the acute farm labour shortage. In line with this policy we have again increased the assistance towards payment of freight on lime being used in the province. The increased production required in sheep, poultry and hogs, will be stimulated by the assistance which is given the breeders. The orderly marketing of products will be cared for by the maintenance of the Cheese Board and the assistance given in storage and maintenance facilities. We shall also take advantage of the Dominion Bonus for fertilizer used on hay and grain lands.

11. My Government, in common with the other Provinces of the Dominion, has been making a study of the advisability of using prisoners of war to assist farmers in the busy seasons of the year. While it has not been established that this is absolutely necessary, My Government will continue to study this and other means of averting a possible emergency in the field of agricultural labour.

12. My Government, with the cooperation of the Government of Canada, has arranged for the establishment of a vegetable dehydration plant in the province. Besides providing for urgently needed wartime food products, this plant will constitute a new industry for the province. The dehydration of vegetables and the manufacture of starch as a by-product will furnish a valuable outlet for much of our primary crops.

13. My Government has made arrangements with the Government of Canada for the exemption from Sales Tax of Irish Moss gathered locally by small producers. This concession should greatly encourage this growing and important industry. The Fishermen's Loan Board is also assisting the farmers and fishermen by developing orderly methods of marketing this important new product. Improved methods of drying and processing the moss are also being studied.

14. The fishing industry of Prince Edward Island was never on a better basis than during the past year, and efforts are being made to keep it in a healthy and flourishing condition. In future, all fish processed in the province shall bear the trade name of the firm and the place of origin.

15. Tourist traffic was exceptionally good during the summer months, in spite of restrictions on travel by motor. The climax was reached in Old Home Week, when the greatest number of visitors in our history came to the province. Increased travel restrictions will probably affect our tourist industry adversely during the coming season, but it is the intention of My Government to continue a judicious programme of advertising, so that we may be in a position to capitalize on what has already been done, and to take advantage of the renewal of the tourist business on the return to peace.

16. Public Health and Educational Services are being fully maintained and improved. The Old Age and Blind Pensioners, have had a substantial increase in their grants. The price of school books has been materially reduced and more adequate remuneration has been provided for school teachers.

17. The work of the Department of Public Works is necessarily confined to maintenance, in line with the policy previously announced. However, during the past year the Department sponsored a salvage campaign, which was an outstanding success and resulted in a substantial contribution to the Red Cross Fund.

18. During the past year My Government has conducted the administration of the affairs of the Province with every possible economy consistent with the efficiency of public works and public services. My Government has also continued its policy of postponing, for the duration of the war, all capital expenditures which are not immediately necessary. The sinking funds are maintained at a high and satisfactory level.

19. The accounts and reports of the various Departments of My Government for the past year, and the estimates for the current year, as well as a number of proposed Statutes and Amendments, including Amendments designed to improve still further the enforcement of the Prohibition Act, will be presented for your careful consideration.

I now leave you to the discharge of your legislative duties, trusting that under the guidance of Divine Providence your deliberations may tend to the further advancement, welfare, and prosperity of our people.
