Stubborn Coughs Ended by Recipe, Mixed at Home

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up a stubborn, lingering cough. It takes but a moment to prepare and costs little, but it gives real relief even for those dreaded coughs that follow severe cold epidemics.

From any druggist, get 2½ ounces of Pinex, pour it into a 16 oz. bottle and fill the bottle with plain granulated sugar syrup or strained honey. Thus you make 16 ounces of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes so good that even children like it.

Not only does this simple mixture soothe and heal the inflamed throat membranes with surprising ease, but also it is absorbed into the blood, and acts directly upon the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the germ-laden phlegm and eases chest soreness in a way that is really astonishing. Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of distressing coughs, chest colds, and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

—MRS. McARTHUR has returned to her home in Emsdale having spent a very pleasant month with her daughter, Mrs. George Key of Summerside.—S

—MR. AND MRS. WILLIAM MORRISON and Mrs. J. J. MacWilliams of Hebron Lot 8, were visitors to Summerside on Monday. Rev. Mr. Harding accompanied them on their return for a few days shooting.—S
