YOU'RE BILIOUS AND COSTIVE!—CASCARETS

SICK HEADACHES OR SOUR STOMACH MEANS SLUGGISH LIVER AND BOWELS.

Get a 10-cent box now. Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery— indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrid and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good gentle cleansing, too.

the most distinguished social workers in the country are among the several hundred delegates in attendance at the conference of the National Federation of Settlements which opened a three days session here today. Among the most notable workers present are Miss Jane Addams, Chicago; Miss Julia C. Lathrop, director of the national children's bureau and Charles C. Cooper the resident director of the Kingsley House, the most active of the Pittsburgh settlements.

TUPLIN FOXES.—Mr. Frank F. Tuplin, Summerside, will be in Charlottetown today and tomorrow with his Pierce Arrow Motor car, the largest and finest car in the province. While here he will have his headquarters at the office of the Tur Farming Bureau and Fox Exchange, Victoria Row, opposite the Post Office. He will be glad to meet any one interested in foxes, particularly in Tuplin foxes and arrangements have been made by the Fur Farmers' Bureau and Exchange with the Charlottetown Silver Black Fox Co., Mr. John Andrews of the Belmont Farm and Mr. W. A. Miller to show their foxes and ranches to visiting strangers. These ranches all have Tuplin foxes. 17062id.

GRAND RIVER, ETC.—The farmers here are busy gathering their harvest, which is a bountiful one, but owing to the unfavorable weather they have been greatly retarded. Many who were planning attending the Provincial Exhibition have been disappointed on this account.—A large number of the young ladies who were here for the summer have returned to the land of their adoption. Among those leaving on Saturday were: Misses Mary McDonald, Lucy McIntyre, Mary L. McLellan, Eva Pliatid, Maisy Morrison and Maggie McInnis.—The schools are making marked progress under the care of experienced teachers. Bayside and Arlington have been very fortunate in being able to retain their former teachers, Miss Sadie Egan and Miss Alfreda McNeill. In Cross Rivers Mr. Raymond Brown capably fills the position of Principal and is capably assisted by Miss Mary C. McLellan.—Miss Annie Brown has returned to her home in Port Hill after visiting friends in Grand River.—Messrs. Jas. McIntyre, N. J. McKinnon and Willie McDougall left for the lumber woods recently.

EXISTENCE IMPOSSIBLE WITHOUT GERMS

According to several interesting experiments conducted by the eminent bacteriologist, Professor Schottelius of Freiburg, Germany, if the sterilizing process could be carried to the point of quite exterminating the much-maligned germs about us, we, the bacteria-laden inhabitants of the earth, would be most unhappy and miserable beings, and would probably meet a prompt and untimely end.

The professor conducted his experiments with chickens. His first step was to sterilize the eggs during incubation, for which purpose he used a solution of warm sublimate, afterwards wrapping the eggs in sterilized warm cotton. When the chick finally broke the shell, it was placed in a sterilized cage. The person handling the chick was encased in a germ-proof suit, so as to guard against any lonely germs wandering about through space in search of a hunting ground.

Children shop here with the confidence that they are getting a square deal all around. We give even the tiniest tot the same personal, courteous care accorded grown-ups—in fact more so. You can send your child here with the assurance that you will get what you want of the right quality. It is part of the Rex-all service. The MacKinnon Drug Co., Corner Great George and Kent Sts. KLARK-URBAN COMPANY.

One of the largest, best equipped and most complete popular priced theatrical organizations in every respect that will visit Charlottetown this season is the Klark-Urban Company which will play a six night and Saturday Matinee engagement at the Opera House commencing next Monday evening. The opening play will be "Alias Jimmy Valentine," one of the greatest hits on the American stage today. The play is taken from the short story by the late Mr. Henry, called "A Retrieved Reformation" and is dramatized by Paul Armstrong, and is one of the best that author has ever written. The balance of the week's repertoire will be "The House of a Thousand Candles," "Deep Purple," "Girls," "The Gamblers," and "The House That Jack Built." The company is headed by Miss Maisie Cecil and Harden Klark and supported by the best company these people have ever had. Local theatre goers are assured of performances, which in real point of merit and minuteness of detail are unexcelled by any company playing at popular prices today. All special scenery is carried by the company for the entire repertoire and no local settings will be used from the opening to the closing bill. High class vaudeville will be introduced between the acts at every performance. Seats on sale at Jamiesons and Rankins Drug Stores.

"PEARLS INDIGENOUS TO THE SOIL."

The above is the happy phrase of a Charlottetown editor in speaking of the agricultural resources of the Province. Let us quote the whole sentence as it appeared in the press:—"Dazzled by the glare of the wealth that has come to it (the black fox industry) the majority are watching it; waiting for an opportunity to get into it, or are selling all they have to secure this pearl of great price, forgetting that there are other and even greater pearls lying at their feet, pearls indigenous to the soil, and pearls, too, which are inexhaustible and rich." The oat crop is the staple crop of this Island, and should on no account be reduced in quality. On the contrary the crop should be increased and improved from this time forward. When the new grain elevator, with its capacity for storing 300,000 bushels, is completed next year there will be an opportunity—the first in our history—to have our oats cleaned and graded by modern mechanical methods. The result of this will be that Island oats will command the attention of the world as never before, especially in Great Britain, where there is a great demand for Canadian oats.

This peculiar out producing quality of Island soil is one of the "indigenous pearls" which are "inexhaustible and rich." The Prince Edward Island Cereal Co. will want a million bushels per annum for their mill at Charlottetown, and may also export large quantities in bulk to European markets, which will be made possible by the new grading process, as the lower grades can be ground into chopped feed and sent to the New England markets. 1709.

and ready for work. The C.P.R. is the only company on the American continent which has gone to this trouble and expense with respect to this class of employee. There is good business in it, of course, for the service is recommended and cleanliness of the attendants. But there is also human interest and kindness—though the C.P.R., would scout the idea of playing the role of philanthropist. It is the simple truth, however, that the company does go out of its way to conserve the interests of all its employees in every possible way, making at once for the highest efficiency and contentment. The demonstration farms are doing a good work in the West. The C.P.R. had difficulty in getting supplies at various points west, and bought itself of starting these demonstration farms to show what could be done, and profitably done, in the way of producing milk, cream, vegetables, eggs, etc. The farmers were surprised to see the difference between scientific farming and the old-fashioned, lazy and ignorant way. The supplies from the demonstration farms were simply doubled. The farmers have had been slow to perceive the advantage of copying the methods disclosed by the company and today the latter can get increas-

ed quantities of supplies as a consequence of the lesson learned. The milk and cream, after being pasteurized, are put in sealed bottles with the date of milking shown thereon, and the bottle is opened the presence of the passenger. The eggs, too, are stamped with the date, packed in cartons and sealed for the commissionary store, be turned over to the dining cars needed. 1586-M

IN MEMORIAM

—THE LATE MR. WRIGHT.— death occurred at Summerside yesterday after an illness of several months of Mr. Norman R. Wright, one of the town's best known citizens. The deceased was born in England 77 years ago, and when a young man came to Summerside where in conjunction with his brother Elihu he conducted the well known firm of Wright Bros. Later he removed to Cranford and took charge of firm's store there. He retired from business about thirteen years ago returning to Summerside where he has since resided. He leaves mourning his wife, formerly Mrs. Wadman of Cranford, and also a brother, Elisha and two sisters, Mrs. Morris, Bedouque, and Mrs. M. Granville. The funeral takes place tomorrow, Friday, afternoon at 2 o'clock to the Methodist Church. Short service will be held at home at 2.30 and the remains be interred in the People's Cemetery, Summerside.—J.
