

265th Anniversary of the "Cup that Cheers"

It is 265 years since Samuel Pepys of London, England, said in his diary that he had just had his first "dish of tea."

While undoubtedly it came to Canada early in the 18th Century, one of the first printed references to it was in the Saint John "Gazette," founded by the Loyalists.

In Pepys' time people paid as high as \$50 for a pound of tea. In 1783 the price was around \$5. Nowadays you can buy far better made, nicer flavored tea at a fraction of the cost to our ancestors, milk and sugar included.

Just remember to ask for RED ROSE TEA, and if you would like what judges declare is the very best, ask, by its full name, for RED ROSE ORANGE PEKOE TEA. It is always sold in sealed packages which preserve its freshness and fragrance.

The name "RED ROSE" has been a guarantee of quality for over 30 years.

And our personal guarantee is that if ever a package of RED ROSE TEA fails to please you the price you paid will be refunded. Will you try it? It is sure to prove its quality to you.

Notes by the Way

(Continued from Page 4)

honest and patriotic citizenship of Canada. But we still have ground for hope. The darkest period of the night is often just before the dawn of day, and it not infrequently happens that when things have reached their worst they begin to mend. So may it be in this year of grace 1926.

The Progress

(Continued from Page 4)

heart, into the abdomen to watch the progress of a meal through the intestines. He may also use this same X-Ray successfully for the treatment of certain diseases. Electricity has been utilized in numerous ways for the treatment of disease. And lastly, Physics has enabled the medical scientists to create artificially the most health restoring of the sun's rays (The Violet Ray) and utilize it in treatment.

In spite of this brilliant record of progress medicine in common with all the sciences still has much to learn. The causes and treatment, or both, of too many diseases still linger in the shadows. Such common infectious diseases as Measles, Chickenpox, Mumps, etc., supposed to be due to germs too small to be seen through a microscope, still baffle us. The treatment of Pneumonia, the so called "Captain of the Men of Death," diseases of the heart as inflammation of the heart lining and valves, Angina Pectoris; diseases of the arteries and kidneys, these are some of the problems yet to be solved by medical scientists.

TREE-TOP STORIES

THE LEAF QUEEN

ROSEMARY was gathering bright red and yellow leaves.

"They would make a beautiful dress," she said.

So she began pinning them together with leaf-stems. It took a long time, but when the dress was done it was so very gay and pretty.

Then she made a cap, and pulled a long yellow grass for a fairy-wand. She danced down the road just as Daddy came home.

"Why! Here comes the Queen of the Maple Leaves!" he exclaimed. "Of won't you come home with me?"

"O yes! I will!" laughed Rosemary.

Sure Way to Get Rid of Blackheads

There is one simple, safe, and sure way that never fails to get rid of blackheads; that is to dissolve them. To do this, get two ounces of peroxide powder from any drug store—sprinkle a little on a hot wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dust and dirt and secretions that form in the pores of the skin. The peroxide powder and the water dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition.

ECZEMA IN RASH AND BLISTERS

Had to Keep Hands Bandaged. Cuticura Healed.

Eczeema broke out in a rash and blisters between my fingers and on the backs of my hands. The skin was red and swollen and used to peel off. It itched and burned badly and was awfully sore especially when I put my hands in water. I had to keep my hands bandaged. I sent for a free sample of Cuticura Soap and Ointment and it helped me. I purchased more and after using one cake of Cuticura Soap and one box of Cuticura Ointment I was completely healed." (Signed) Miss Nettie Keeso, R. R. 1, Listowel, Ontario.

Cuticura Soap, Ointment and Talcum are all you need for everyday toilet and nursery purposes.

Sample Book Free by Mail. Address Canadian Depot, "Hudson's Bay," Montreal. Price, Soap 25c, Ointment 25c and Talcum 25c. Cuticura Shaving Stick 25c.

An Ounce of Performance is Worth a Ton of Complaint

You will have no cause to complain if you fortify your system against April's damp and changeable weather by taking Wampole's Emulsion of Cod Liver Oil.

We recommend it as the best spring tonic in two size bottles. Get a bottle to-day at

Harold L. Worthy DRUGGIST

On the floor is the "Kashmir" design, Congoleum Art-Rug No. 562.

So cheerful and so spick and span—thanks to the Congoleum Rug!

The attractiveness of every kitchen depends largely on the floor-covering. That is one of the reasons why the many beautiful patterns in Congoleum Gold Seal Rugs are so popular.

On the floor of this cheery kitchen is shown the "Kashmir" design, Congoleum Rug No. 562. It has a moire field of warm buff with contrasting border and floral figures. If you should prefer a conventional pattern you can select from neat tile and mosaic reproductions. And for the dining, living and bedrooms there are many Oriental and other elaborate motifs.

Exceptional Quality

And you're sure of getting full value for your money when you choose a Congoleum Gold Seal Rug. All the materials are carefully selected—every step in the process of manufacture closely inspected.

Result: a waterproof, rot-proof floor-covering with a wearing surface that retains its beauty through long service.

study and care of your bodies, with conditions which are most favorable to life. This service to the living, every atom of scientific knowledge available, to aid the power within the human body in its fight against death, commands all that the physician has to give of learning and of his spirit. With such a spirit we may approach nearer and nearer to the time when the rebuke of Paracelsus to the faint hearted physician may be warranted in its fullest measure: "Never must the physician say the disease is incurable. By that admission he denies God, our Creator, he doubts nature with her profusion of hidden powers and mysteries."
