LEGISLATURE IN SESSION YESTERDAY

Legislative Assembly March 29th.

The House met at 3.20 p.m.

No questions.

Hon. Mr. Prowse presented a petition from the Mayor and Council of the City of Charlottetown for authority to issue $10,000 water works debentures for a term of twenty years at a rate not exceeding 4 percent per annum. A bill in accordance with the petition was received and read.

Hon. Mr. McGuigan tabled the 6th annual report of the Old Age Pensions Commission.

Premier Campbell on a question of privilege said he wished to correct a statement appearing in a letter in this morning's issue of The Guardian newspaper, which quoted him as stating that the number of convictions under the Prohibition Act last year was 94. "The origin of that report," he said, "was probably the statement that I made the other day to the effect that 94 convictions had resulted from the activities of undercover investigators. Part of those convictions were in 1937, part in 1938, so that the number 94 had really nothing to do with the year 1938 at all. The actual number of convictions under the Prohibition Act in 1938 was 316."

The following bills were read a third time and passed: The Joint Stock Companies Act; an Act respecting Witnesses and Evidence; an Act respecting Magistrates and Justices of the Peace; an Act respecting the property of Married Women; the Surety and Guarantee Companies Act; an Act to further amend the Summerside Incorporation Act.

Alberton Women's Franchise

On motion of Mr. Aeneas Gallant the House went into committee with Mr. Mustard in the chair on an Act to amend the Town of Alberton Incorporation Act.

Sec. 1 of the bill extends the civic franchise to married women.

Hon. Mr. Allen congratulated the Town of Alberton on its initiative in this legislation and expressed surprise that Charlottetown, with such able representatives, had not introduced a similar Act.

Hon. Mr. Prowse: "I may inform the hon. member that that was put on the statutes two years ago, when I happened to be a member of the Charlottetown City Council."

Hon. Mr. Allen insisted on seeing a copy of the Act giving Charlottetown women the right to vote.

The Chairman: "I think the hon. member is out of order. We are not dealing with the City of Charlottetown."

Hon. Mr. Allen: "I made a statement in the House and my statement has been contradicted. I asked the hon. member to produce the proof that I am incorrect. It is not permissible for you, Mr. Chairman, to rule me out of order when my statement has been challenged. If you don't know enough about it we will have to train you."

On the Act in question being consulted, Mr. Allen admitted he had been mistaken. "I must confess that I am very disappointed in the Town of Summerside not having similar legislation," he said.

Sec. 6 authorizes the laying down of permanent streets and sidewalks, provided the owners of the land bordering on the part of the street or sidewalk along which such work is done shall be liable to be assessed to an amount not exceeding one-half part of the actual cost of such work as the Town Council shall determine.

Objection was taken by Hon. Mr. Allen, Mr. Baker and others to authorizing such assessment up to one-half the cost of the work. It was decided to hold the section over for further discussion.

Other sections passed without discussion, after which progress was reported.

On motion of Mr. McIsaac the House went into committee with Mr. Stewart in the chair on second reading of an Act to vest certain lands at Monticello in Township No. 42 in the Roman Catholic Episcopal Corporation of the Diocese of Charlottetown. It was agreed to without amendment.

Dairymen's Act

On motion of Hon. Mr. Dennis the House resumed committee reading with Mr. Stewart in the chair on an Act to amend the Dairymen's Association Act.

Sec. 12 provides that all the regulations applying to cheese and butter factories and cream grading stations, shall likewise apply to ice-cream plants and pasteurizing plants. Mr. Dennis moved as an amendment thereto: "Provided that no person producing less than fifty gallons shall be construed to be operating an ice-cream plant in the meaning of the section."

Mr. Jones objected that under the Public Health Department there is a Sanitary Inspector who last year made 2,937 inspections.

There was no need for further inspections, he maintained.

The amendment carried without division and the bill was reported agreed to.

Temporary Loans Bill

On motion of Premier Campbell the House went into committee with Mr. Baker in the chair on second reading of an Act to amend an Act to enable the Government of Prince Edward Island to receive temporary loans.

The Premier explained that under the existing law the Government was authorized to receive temporary loans up to $750,000, on which 3 per cent interest is paid. It was proposed to increase the amount to $1,000,000.

Hon. Mr. Allen stressed the desirability of receiving loans up to even $1,500,000.

Mr. Mustard asked what advantage this would be to the Province.

Premier Campbell said there was a considerable advantage from month to month, as the rate of interest paid to the bank on current loans was 3 1-4 per cent, and bond interest rates have varied in the past three years from 3.10 to 3.61 percent.

Mr. McIsaac: "The Government has asked for the privilege of extending the amount of loans receivable from $750,000 to $1,000,000. Now we see an individual member of the Government asking that it be extended to $1,500,000. Why should that be? Shouldn't the Government speak with one voice?"

Premier Campbell: "We have an open mind as to the proper amount. What we are really asking for is an extension."

Mr. Mustard: "If it was good policy to accept $750,000 it ought to be good policy to accept twice that amount."

Hon. Mr. McIntyre moved that the amount be extended to $1,500,000. He stressed the advantage to both the Government and the investor.

Mr. Mustard: "Why set any limit at all? Accept all the money you can get at 3 percent."

Premier Campbell: "Supposing we accepted $5,000,000 and the interest rate suddenly went up to 5 percent, we might be in an embarrassing position."

Mr. Hughes asked if it was intended to use the money instead of refunding, or for current expenses.

Premier Campbell: "I wouldn't advocate its use to any great extent instead of a refund, because if we took a big block of that and the interest rate went up we would make a loss."

Hon. Mr. McIntyre's amendment carried on a standing vote.

The bill was then reported agreed to.

Land Assessment

On motion of Premier Campbell the House went into committee with Mr. Jones in the chair on second reading of an Act to amend the Land Assessment Act, 1926.

The bill extends the land tax exemption in the case of returned soldiers to the year 1944—twenty years from the date of the original Act. It was agreed to without amendment.

On motion of Premier Campbell the House went into committee with Mr. Wright in the chair on second reading of the Real Property Act. The bill is a consolidation and revision of fifteen different Acts, extending over nearly one hundred years. The Premier explained that there was little variation in the substance of the law.

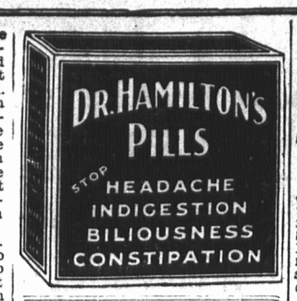
One of the sections containing several typographical errors, the Premier moved that progress be reported and leave asked to sit again. Motion carried.

Mr. Stewart suggested that in view of so many typographical errors in the consolidating bills, it would have been better had they first been submitted to the Law Society.

Premier Campbell: "That would probably take a year."

Mr. Stewart: "We have waited quite a number of years now. One year more wouldn't make very much difference. We are not a competent committee here to judge on the merits."

The House, at 5.45 p.m., adjourned until 11 a.m. Thursday.



Mussolini's Claims On France Demand Action Say Nazis

BERLIN, March 28—(AP)—Government quarters declared today that Premier Mussolini's claims regarding Tunisia, Djibouti and the Suez Canal demand action by France despite the fact Il Duce did not issue an ultimatum in his speech yesterday mentioning these claims.

Dienst Aus Deutschland, information service with excellent foreign office connections, said the first reactions in London and Paris to Mussolini's talk were "unreal" and Deutsche Diplomatisch - Politische Korrespondenz, semi-official foreign office mouthpiece, said "it will be difficult" for France and Britain to remain unyielding to Italian demands.

Meanwhile Nazi leaders are going away on holidays after strenuous weeks of building a greater Germany.

Slight Increase In Employment Over February

(By The Canadian Press)

OTTAWA, March 28—Employment in Canada on March 1 showed a slight increase over Feb. 1 but was lower than the corresponding date last year, Dominion Bureau of Statistics reported today. The 11,309 employers reported an aggregate staff of 1,027,846 persons compared with 1,027,619 while the 10,416 employers reporting at March 1, 1938, had a payroll of 1,027,992 persons.

Moderate improvement was reported in manufacturing industries, with leather, lumber and textile factories showing the most pronounced increases. Among non-manufacturing industries, mining transportation and highway and railway construction and maintenance also showed heightened activity. Logging, communications, building construction and services reported declines.

In the Maritime Provinces, there was an increase in industrial activity, the 812 reporting firms enlarging their staffs from 73,913 at Feb. 1 to 74,366 at March 1. Construction and maintenance afforded more employment while mining, transportation and trade also were slightly more active. The 719 firms reporting for March 1, 1938, had a payroll of 78,250 persons.

Employment in Quebec showed a slight decrease from Feb. 1 but was higher than at March 1, 1938. A slackening was noted in Ontario. Of the Prairie Provinces, Manitoba and Saskatchewan showed a moderate increase but Alberta reported slight curtailment. Employment in British Columbia was higher.

Army Measure Passes Senate

WASHINGTON, Barch 29—(AP)—The largest peacetime army appropriation bill in United States history slipped quickly through the Senate today—and with only one voice raised to question the need for the expenditure.

The $513,188,000 measure which was left untouched as it came from committee, included $13,330,000 more than the House of Representatives voted. The bill now goes to a joint committee for adjustment of differences between the House and Senate.

Senator King (Democrat-Utah), warning against being "swept off our feet by reason of fires raging in Europe," proposed that the bill be sent back to committee for a 10 per cent pruning.

But when his motion was put there was no audible "ayes" and a chorus of "noes." A moment later a voice vote passed the measure.

"Tanker" Aircraft For Dominion

(By The Canadian Press)

MONTREAL, March 29— Two huge airplanes, among the largest ever flown in Canada, will be brought here from England and flown to Newfoundland this spring to act as refuelling ships for Imperial Airways' Transatlantic service, it was announced today.

The planes will be brought to Montreal by ship and assembled here shortly after the opening of St. Lawrence River navigation. They are Handley-Page Harrow bombers, adapted for use as "tanker" aircraft.

Stationed at Newfoundland airport, they will make it possible for Imperial's flying boats to make the flight from Ireland to Montreal non-stop.

Implement Inquiry Report Approved

REGINA, March 29—Although it might be "through sheer coincidence" or by tacit understanding there could be no denying a combine exitsed to fix the price of farm machinery in Saskatchewan, said Hon. T. C. Davis, Attorney General, in the legislature today as the House approved the report of the special committee which investigated farm implement prices.

Premier Patterson was absent because of the death of his brother, Thomas, at Grenfell, Sask., and the Legislature was led by Mr. Davis.

After W. G. Cross (Lib, Moose Jaw) chairman of the committee, had moved adoption of the report, and after other members had endorsed the findings, Mr. Davis said he had no doubt immediate steps would be taken to get the Dominion Government and the three Prairie Provinces to carry out the contents of the report which urged co-operation in purchase and distribution of machinery as the means of reducing prices.

STEVEDORES STRIKE

GLASGOW, March 29—(CP-Havas)—Fifteen hundred stevedores went on strike here today as the result of a wage dispute.

CONFEDERATION LIFE INSURANCE L-9749-7-21-31.

FOX CLUB annual meeting tonight. L-1511.

THE WOMEN'S National Conservative annual meeting tonight at 8 p. m. in the McLure Committee Rooms, Kent St. L-1512.

HI-Y GRAD MEETING—The monthly meeting of the Hi-Y Grad Club was held in the Y. M. C. A. supper room. Reports were heard from the dance and program and other committees. The date for the Easter dance was set.

TO INAUGURATE SERVICE—Pilot H. S. Jones, superintendent of Canadian Airways here flew a twin-motored Dragon to Halifax yesterday to complete arrangements for inaugurating a week-end service between Charlottetown, Summerside, Halifax, Saint John and Moncton. Prior to making the flight to the Nova Scotia capital Pilot Jones made a trip to the Magdalen Islands. Four passengers were carried on the return trip.

MISSIONARY MEETING HELD—Rev. H. L. Denton, pastor of the church, gave an inspiring address at a public missionary meeting in the Charlottetown Baptist Church Schoolroom last night. Mrs. J. A. Clark presided. There was a good attendance. In addition the program included a tableau, "The Way of the Cross" and a one act play in which the cast included, Mrs. Gordon Starratt, Mrs. Benj. Stentiford and Miss Hilda Quick. Mr. Russell Jones and Mr. Earl Cook sang an enjoyable duet.

FLORIDA GROWERS WORRIED—Writing from St. Petersburg, Florida, to Hon. L. R. Allen, Mr T. Arthur Dawson, of Tryon, states that lack of rain since last October has seriously affected the fruit crop in some parts of Florida. "Should this condition continue," he writes, "it will prove a calamity to the fruit growers, also the market gardeners. Talking to one grower yesterday he informed me that 40 percent of his new crop of oranges was on the ground already. The first of this week I saw twenty-two acres of beans in one field. They were in the blossom stage yet with the pods just beginning to form, but the main plants were just drying up and they will not be worth a chew of gum."

ANNUAL MEETING—The annual meeting of the P. E. I. Enterprise Poultry and Kennel Club Association was held at the Agricultural Hall on Monday, March 27, 1939, with a large attendance. All business was transacted satisfactorily. The following officers were duly elected for the ensuing year: President, Tom Gardham; Vice President, Queens, Herb Carr; Vice President, Kings, J. H. Livingstone; Secretary-Treasurer, Fred DeCoste; Board of Directors: John Dan McDonald (re-elected), Bill Bevans, Nelson Whitlock, Hugh McKinnon, (re-elected), Stan Biggar, James R. Carr, Lloyd Moore.

HOBBIES BOOKLET OFF THE PRESS—The Girls and Boys' Hobbies Exhibition Booklet for the 5th annual event is now off the press and is being distributed. The publication this year is presented in an attractive red color, and even a casual review of the booklet contents would indicate that the Exhibition is maintaining the splendid standard set up from year to year on the part of those responsible for conducting this community enterprise. The number of participants and attendants has grown from year to year, and it is anticipated that the event for 1939 will draw even larger support than it has in the past. Mr. P. W. Turner, President; Mrs. J. L. Curran, Vice-President; and the group of girls and boys serving with them on the Board are to be congratulated on the splendid work which is thus far evidenced in relation to the Exhibition for this year.

SPECIAL SERVICES will be held in the Presbyterian Church, Summerside, each night next week, beginning Monday, April 3, and continuing through Good Friday, April 7, all meetings beginning at 7.45 o'clock. Arrangements have been made to have the Rev. William Ooms, B.A., of St. Andrew's Presbyterian Church, New Glasgow, N.S., as the guest speaker. Mr. Ooms is particularly well liked by young people, having been engaged in young people's work for several years. His subjects he has announced as follows: "The Spectacle of the Ages"; "The Conflict in Gethsemane"; "The Unavoidable Question"; "The Miracle of Darkness"; "The Forsaken Christ." Miss Florence MacDonald, organist, will play favourite Christian hymns beginning at 7.30 each evening.

AN EXPLANATION—Y. M. C. A. CO-OPERATION—A group of ladies, representing a number of our city churches, is directing a very commendable and necessary piece of community service on four days a week which is drawing deserving support from a number of our citizens and civic organizations. The Board of Directors of the Y. M. C. A. is pleased to place the facilities of the Association Building at the disposal of the committee directing the particular community service referred to. An explanation is due the public in fairness to contributors and in fairness to the Association itself. Funds or contributions of any kind donated for this particular work are in no sense, whatsoever, a contribution to the Y. M. C. A. The Y. M. C. A. is a contributor along the lines indicated and neither receives or expects any part or share of donations marked for the work directed by the ladies of our churches. From the standpoint of actual work and physical effort, the credit is altogether theirs, and contributions of any kind forwarded to aid them in their good work go into their own particular fund, and has no relation, whatsoever, to the work and funds of the Y. M. C. A. as such, except as indicated above.

ON ROYAL VOYAGE

(By The Canadian Press)

LONDON—Both the King and Queen are enthusiastic dancers and the band to accompany the royal party to Canada on H.M.S. Repulse in May has a list of the latest dance hits among its scores.

(The young lady sports a bras — but we sell vests. We think you'll like them better)

Yours for a shapely Spring
Be Slim—Be Trim—Be Dainty
with KAYSER
Undies as light as a Feather!
Slips that fit like a Frock—
and Pantie Girdles for curves!

"JAUNTS" those new tailored lacey striped rayon undies—panties and vests will snug your figure close, yet not bind. No wrinkles—no bulges—and they launder like a hankie. Peachblush and white, small, medium and large sizes. Four different styles in panties — 50c

Kayser's New Pantie-girdle gently restrains those curves —and hips do look so much prettier with gentle restriant. You'll like the feel of these light two-way stretch lastex girdles, moulding but not rigid. Excellent hose supporters—and a removable crotch (extra ones may be purchased for 25c.) Tearose Small medium and large — $1.95

You'll admire your figure in Kayser slips. They mould the bust, fit the hips trimly—and the hemlines won't sag. Kayser slips are skilfully cut, brassiere tops are double—seams are guaranteed not to pull out.

Rayon Taffeta "Twinside" in white — $1.50

Heavy Satin in white and tearose — $2.00

Faith Necessary To Effect Cures

By HOWARD BLAKESLEE
Associated Press Staff Writer

NEW YORK, March 29—A network linking mind and matter, over whose processes thought and faith appear definitely to control health, has been identified by science.

The ills that plug into this system are asthma, hay fever, sinusitis of the "serious" type, polypus growing in the nose, stomach ulcers, headaches, skin rashes, colic abdominal pains and nervousness.

The story of physicians' experience in this field of cure is told in "The New York Physician." So convincing have been the results of the experiments that some doctors have reported benefits from self-treatments.

Mind alone is never the complete cure, they report. But always there is no cure unless, and until, faith is added to medicines.

The network comprises two main parts. One is the autonomic nervous system, the nerves which regulate automatic functions like the heartbeat. The other is the watery fluid which filters into the tissues and membranes and is valved by these same autonomic nerves.

Too much fluid released into tissue or membrane results in swelling or attendant disturbances. Operations, medicine and diets will take away the excess fluid but only a function of the mind can prevent refilling. How to prevent refill is the new medical advance.

Research in this direction began to take form 10 years ago when Dr. Julius Haiman began to wonder who so many people apparently cured of certain ailments were back for more treatment within a short time. Delving into the previous histories of his patients he discovered that asthmatics, as a class, showed a similarity in histories. They all told of some real or imagined misfortune. Some were worried by financial problems, some by broken marriage engagements, and others by violent death of loved ones.

Dr. Haiman began to try less surgery, more care in diet and sought other approaches to calm their griefs and fears. One middle-aged woman, nearly bed-ridden, had little to occupy her mind. Induced to open a shop, she found her time fully occupied, stopped worrying and has remained free from asthma for 10 years.

Calming upset minds cured so many asthmatic cases and other sufferers that the faith factor appeared definitely proved for these troubles. Patients with "long-incurable" headaches, skin eruptions, gastric ulcers and other nervous illnesses were among the cured. In all these and in a wide variety of other recorded cases, a change in mental attitude preceded the recovery.

Some of the sufferers had no worries or fears to explain their troubles. Yet all these people improved when induced to believe implicitly they were going to get well. Here the mental tonic seems to have been almost pure faith. The belief in the treatment in all cases quieted the autonomic nerves so that no more excess fluid was dumped into the tissues.

NEW STATIONS OPEN FOR CBC

TORONTO, Mar. 29—(CP)—Radio listeners in the Maritimes and on the prairies soon will be served by the Canadian Broadcasting Corporation's new high-power broadcasting stations. Two other similar stations have been built in the past two years, and the latest are at Sackville, N.B., and Watrous, Sask.

The Sackville station is reported now ready for "on the air" testing and construction officials expect that the Watrous transmitter will be sufficiently advanced for testing about the end of May.

To be known as CBA, the Maritime station is located on a 50-acre site, two miles east of Sackville, close to the border between Nova Scotia and New Brunswick. The Saskatchewan station—CBK—is centrally located so its output may be heard in neighboring Alberta and Manitoba.

CBA will radiate its programs with a carrier-power of 50,000 watts on 1030 kilocycles, from a 468-foot insulated and vertical steel radiator.

Concentrate on some special service in life. Stand out, and you will stand up, first.

..*SUBSCRIPTIONS to the Charlottetown Guardian may be handed to their Rep: Archie Hume

MR. MICHAEL J. MacDONALD

The death took place at Cavilier, North Dakota, after a brief illness of Michael J. MacDonald, son of the late Joseph and Mrs. MacDonald of Greenvale, Souris, P.E.I., in the 67th year of his age, leaving a wife and seven children and three grandchildren; also four brothers and one sister: H. J. MacDonald of Souris West; Jerome, of Newport, P.E.I.; Angus of Boston; Andrew, of Superior, Wis.; and Mrs. J. George McDonald, Vernon P.E.I.

ALL-GOTHAM SILK

(By The Canadian Press)

NEW YORK—Believed the first all-American silk flags ever produced, John Ousta, silkworm breeder is showing the flags from silk of worms born, bred and raised in his attic in a Bronx house.

Treat seed wheat, oats and barley with CERESAN

WAKE UP to what you're losing if you don't treat seed with CERESAN — *ethyl mercury phosphate*. Reduces stinking smut of wheat; smuts of oats; covered and black loose smuts and stripe of barley. Recommended in Bulletin 92, University of Saskatchewan, for better control of seed-borne root rots. Generally increases yields — in tests, an actual average of 6% on wheat and barley and 18% on oats. Costs as little as 3c per bushel of seed. Treat now—be ready to plant. Write for grain pamphlet and circular describing automatic treater.

AMAZING Results of "MASKED SOAP" TEST
CONCENTRATED
SUPER SUDS
3 to 1 favorite with WOMEN!

Here's interesting news:—because it affects your home and your budget. 1,000 "neighbors" have made a most unusual test to prove which home laundry soap really offers you the *best value*. The test was made on leading granulated soaps packed in PLAIN boxes so the women could not tell what brands of soap they were comparing. 3 out of 4 women wrote that the best soap was "Soap No. 1" (really *Concentrated Super Suds*). We believe you will be enthusiastic about it, too. Read what women wrote:—

"No. 1 SOAP GAVE LOTS OF SUDS *that lasted a long time. It softened the water and made my clothes nice and white.*"

"No. 1 SOAP SOAKS OUT DIRT MUCH FASTER *from my clothes and goes FARTHER.*"

"I LIKED No. 1 BEST IN MY WASHER. *It is very EASY on my hands. This soap also leaves DISHES sparkling.*"

"I RECOMMEND No. 1 SOAP FOR COLORED THINGS—*and also for your WOOLLENS. This soap dissolves amazingly fast in warm water and rinses easiest.*"

You owe it to yourself to try Concentrated Super Suds, next washday. This superior granulated soap contains MORE SOAP, that's why it gives you MORE SUDS. Safe for your clothes and gentle to your hands. Washes your clothes Hospital-clean. Most germs dangerous to health are killed or removed in the washing process. Very economical! Being *concentrated a little goes a long way!*
