

Tells of quick relief to aching, swollen joints

RELIEVED PAIN AND SWELLING OVERNIGHT

Long-standing case of rheumatism helped in a few hours

After having suffered with rheumatism for years, and tried all kinds of remedies in vain, thousands of people have at last found a way to get quick, sure relief.

"I have been a sufferer from rheumatism for years," writes one woman from Washington, D. C. "At times my hands are terribly swollen. Sloan's always gives me relief in a very short time. I have tried other liniments, but nothing equals Sloan's."

The marvelous effectiveness of Sloan's is due to its stimulating effect upon the circulation. Straight to the sick, aching tissues, it sends a healing tide of fresh new blood - clears out rheumatism germs - kills pain.

So pleasant and clean to use, too. You don't even have to rub. Just pat it on gently and you will get immediate results. All druggists - 35 cents.

EXPECT EASIER TERMS ON DEBT TO AMERICANS

Right to Hope for Same Generosity Italians Received

(PARIS, November 16.)—The French appear to take for granted the favorable debt terms granted Italy will mean easier terms for them in the coming negotiations than were offered the Callaux mission at Washington. The attitude of the French capital seems summed up by the Temps tonight, which says:

"France has a right to hope her American friends, taking account of her present capacity for payment, will not treat her with less generosity."

Some editorial writers think the easy terms given Italy represent a change of attitude on the part of the Americans; others see the effect of the large Italian vote in the United States which has no French counterpart; but all agree the Italian settlement means France will look for similar terms.

The tangled French political-financial situation is claiming most of the attention from the Paris press, but some newspapers find room to comment on the settlement between the Americans and the Italians. The Nationaliste Liberte, which never is very kind to Uncle Sam, says it does not want to hear any more talk about sister republics when the American republic gives the Italian dictatorship better terms than offered the republican France.

"The relatively favorable treatment Italy has just received from Washington, where Count Volpi had more luck than our M. Callaux, seems to indicate the American Government is getting a fairer appreciation of the situation," it says. "Happy Italy; they ask her for five million dollars per year over a period they tried to make us pay forty millions."

—ALBERTON.—W. D. White, Esq., and his daughter, Mrs. W. S. O'Keefe were in Summerside on Friday, Mrs. O'Keefe is returning to Medford, Mass., after spending five months at her old home taking care of her mother, who passed away October 18th.

—EXPRESS.—The Canadian National Express office at Summerside does one of the largest businesses of any express point on the Island and one morning last week three extra cars were necessary to convey the outgoing express cargoes.

Foxes and smelts make up most of the shipments at present. From 40 to 60 barrels of smelts leave the western metropolis each day and from one to two cars of smelts leave the Island daily for Boston and New York. So far this month over 600 pairs of black foxes have been shipped from Summerside and other points in Prince County have shipped from two to three hundreds pairs.

FISH FOR ENGLAND

The chief export of Iceland is fish, and much of the fish brought in London may have been caught in the south of Iceland. Large quantities of salted fish are exported to Spain and Italy, and numbers of girls go to the fish-drying grounds during the summer and then return to work as servants during the winter.

Iceland is not as cold as many people imagine. "In the southern part it is never very cold," said Miss Larusdottir, "and the houses nowadays are centrally heated, but in the older houses we still have high stoves, which are placed in a corner of the room."

As in other countries, especially Norway and Sweden, there is a considerable revival of hand weaving in Iceland.

A modern philosopher says: "It's what we learn after we know it all that counts."

Gleanings From Tryon And Vicinity

Mrs. Charles Poole who recently went to the States is now settled in Amesbury, Mass., where she has obtained a satisfactory position.

Mrs. A. J. Robinson and children, Eric, Ruth and Ralph, were in Charlottetown this week visiting Mr. Robinson who is ill in the hospital.

We regret to report that Jas. Dawson, who is in the hospital at Summerside, is not doing as well as his friends desire. His condition is causing considerable anxiety.

Thos. Bell of Victoria, has been appointed special officer under the Department of the Interior. One of his duties is to look out for illicit liquor stills. There has been considerable talk of a number of stills operating in this vicinity; we are sure Mr. Bell will do his duty, but he must have the cooperation of the public. There is now an opportunity for those who say they know where these stills are, to give the officer the information which they profess to have and to lend him every assistance in putting an end to this business, if it exists. It's up to you gentlemen.

Few rural districts are favoured as Tryon is with electric service. Our excellent service is due to the enterprise of one man, Charles Ives. At present our service is only for the night. There is an agitation for service at least two days in the week. This would be a great boon. As power could then be had for many uses, such as washing, ironing, pumping, threshing, etc. At present there are only a few electric irons in our community, as the ironing must be done in the evening. If sufficient support would be guaranteed Mr. Ives we are sure he would be willing to enlarge his service. He is that kind of a man.

The new horse sheds at the Baptist church have been wired and the lights turned on. This is certainly a great convenience to the public, and the committee which had this work in hand deserve much credit for the way they have pushed the work along.

The largest flock of wild geese that has been seen in years in this vicinity was on Ross Boulter's shore last week. It was estimated that there was between two and three hundred in the flock. Every body was so busy with fall work they were unmolested.

The car embargo has compelled our farmers to warehouse a large quantity of potatoes, that they expect to send forward to the markets this week. Having been put in cellars they will hardly come out now until the spring.

Misses Winifred Best and Leolia McVittie who are attending Prince of Wales spent Thanksgiving with their parents at Crapaud.

Miss May Leard of Cuscumpec, P. E. I. who was in attendance at the Bible Conference recently held at Tryon, is visiting relatives and friends in Augustus Cove.

NOT THE MISSING-LINK.

The famous Taungskull, recently discovered in Africa by Prof. Dart, is not that of the "Missing Link" between ape and man. This is the opinion of Sir Arthur Keith, the world's greatest anthropologist, expressed in a letter in the current issue of "Nature." "An examination of the casts exhibited at Wombles," he writes, "will satisfy zoologists that this claim is preposterous. The skull is that of a young anthropoid ape one which was in the fourth year of
