PAUL'S WHARVES

Louis Auger, M. P. for Prescott and Canada's youngest member of parliament, who was the victim of a singular case of mistaken identity in an Ottawa court in which he was unsuccessfully sued by a doctor who maintained that he had not received payment for a series of treatments he thought he had administered to Auger. The court decided the doctor was mistaken in his identification.

Mount Stewart Notes

No signs of the sea ice disappearing yet. On Sunday last it was in as far as the eye could reach and no open water to be seen.

Mrs. James Duffy, Brighton Rd., Charlottetown, spent the week end at her former home here.

Her many friends will be glad to learn that Miss Eileen Trainor returned home Saturday evening from the City Hospital, where she recently underwent an operation.

We are glad to learn that the condition of Mr. James Dwyer, who was taken ill a short time ago, has taken a turn for the better.

Our blacksmiths are being kept very busy these days attending to the various needs of the farmers here and in the surrounding districts, some having colliers laid, others their harrows sharpened, etc beside the regular horse-shoeing which in itself is something to attend. Mr. George Jay one of our foremost blacksmiths shoeing eight one day beside a share of the other work mentioned.

The indoor circus held Tuesday night in the I. O. O. F. hall here, proved interesting to many, and the hall, which is a large one, was taxed to its utmost capacity.

On Sunday last at 3 p. m. the Rev. Dr. McKinnon addressed the members of the United Church on Temperance.

On Monday evening the electors of Mount Stewart had a rare treat when they were addressed by Mrs. Howard Falls, of Peterboro, Ont. and those who did not attend certainly missed a chance to learn the true meaning of Government Control of liquor. Mrs. Falls clearly outlined the meaning of Government Control and stated that it was by no means "free rum" as some are wont to call it, and also that there would be no barrooms and rumshops on every corner but that it was a far more strict temperance law and those who broke it should suffer the consequences. Mrs. Falls is a talented speaker and held the rapt attention of all while she delivered her address, and Peterboro might well be proud of her. Other speakers were: Messrs. Pomeroy, Woodman and McDonald, but all spoke very briefly. Mrs. Falls being the speaker for the evening. Mr. H. F. Feehan very capably acted as chairman.

Rapid progress is being made on the new main road which is being built across the lower fields of Mr. Stewart McEachern's farm. This road when finished will start at Mr. George Jay's corner, thence up where a spur of the railway formerly ran down to the Gov't wharf and across the Georgetown R.R. track leading to Mr. Fred Jay's corner Plaquid.

Mr. Fred Leard, Leard's Mills, is putting a line of poles along this road, which he intends to carry the electric wires from the power plant he intends to install shortly.

pressure to the leather, insuring a perfect fit. About 300,000 acres of new barren land in the Sudan will be made suitable for cotton raising by the construction of an irrigation dam on the Blue Nile.

The lenses of new traffic lights are equipped with arrows that revolve to show the length of time that will elapse before the lights change color.

Gleanings From Tryon And Vicinity

Mr. and Mrs. Vernon MacLeod of Albany, were visitors in Victoria on Sunday, the guests of Mr. and Mrs. Abner Howatt.

The Temperance Alliance of this community held their first meeting in Tryon Hall on Monday evening, May 16th. Mr. David J. Thompson of North Tryon was appointed chairman for the evening. The first speaker was the Rev. G. Somers, pastor of The United Church, who gave a very eloquent address outlining the work of the Temperance Alliance. The next speaker, the Rev. Mr. Banyard, Baptist pastor, spoke very strongly in favor of prohibition, explaining the conditions as they exist in England. The business part of the meeting was then taken up and a committee of twelve respectable citizens were appointed to further the cause of Temperance in this vicinity and arrange for speakers for other meetings. The committee are: D. J. Thompson, Austin Toombs, Fred Leard, Elma Inman, Mrs. Major Carruthers, Harold Howatt, Howard Wood, C. D. Wright, Webster, Boutler, Albro Howard, Mrs. Alley Foy, and Mrs. Wright. The meeting then closed by the singing of the National Anthem, the committee remaining afterwards to arrange matters.

Friends of Mr. Lea M. Callbeck, of North Tryon are delighted to hear of his successful graduation from Dalhousie University as doctor of dentistry. We understand he has already had an office renovated and remodeled at Crapaud, where he intends establishing himself and practicing his chosen profession, and no doubt, this brilliant young man will make himself a success.

Mrs. Slet Mullins and Miss Ruth of West Tryon, made a trip to Victoria on Sunday. Miss Mullins is remaining there for a few days.

Mr. Hartford Woodside of Tryon made a business call to Crapaud on Monday.

No young people's meeting was held on Friday evening, due to some pranks of the weather.

Mrs. James Dixon of Dixon's Mills, who is spending a few days with her son, Mr. Reginald Dixon of North Tryon, was a visitor to Cape Traverse on Sunday, where she visited her brother, William E. Bell, who is still quite seriously ill.

Mrs. Alexander Robblee and Miss Penzie Bell of Cape Traverse, returned to their home on Monday evening after spending a pleasant week in Tryon.

Many old friends in this province will regret to learn of the death of Mrs. George Ives of N. Tryon, (nee Charlotte Dawson) which took place at her home on Saturday, May 14th, after a lingering illness. The deceased was 76 years of age. Mrs. Ives was a favorite of all and was held in high esteem by friends and neighbors. The sympathy of the entire community is extended to the bereaved family, her husband and three sons, Everett, Jack and Bruce.

Three of Tryon's young ladies made a recent visit to Crapaud—oh no—it's not gonna' rain no more!

The Victoria dramatic club intend presenting their two act comedy drama in Victoria hall in the very near future.

A very enjoyable evening was spent on Tuesday evening, May 17th, when over seventy of the friends of Mr. Alex. Morrison and Mr. and Mrs. Clayton Morrison and family, gathered for a friendly evening with them, previous to their departure to Hampton, P. E. I. Two well worded addresses were read by the Messrs. David John Thompson and Austin Toombs, after which Mr. Alex Morrison was presented with a beautiful leather rocking chair and Mr. and Mrs. Morrison with a nice large sum of money. This in itself testifies the high esteem in which these worthy people are held. Refreshments were then served and enjoyed, as the Tryon ladies certainly excel in culinary ability. After a short sing-song the people repaired to their respective homes, thinking the evening was indeed well spent.

Potato growers are busily engaged these days getting their land ready and harrowing home their fertilizer. —D

George Branting, prominent Swedish lawyer, who is sailing for the United States to aid Sacco and Vanzetti, convicted of murder in Boston and sentenced to die some time in July. Several Swedish Labor organizations have sent in their protest at the verdict of the case and a collection was taken up for the despatching of Branting to help the two convicted men.

Crop Report

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

GENERAL.

Wheat seeding in western Canada is from ten days to two weeks behind the ten year average owing to the backward season, and it is likely that there will be a decrease in wheat acreage with an increase in coarse grains. The weather, however, is now good over the prairies and operations are gradually becoming general. In practically all districts the seed bed is in excellent condition with abundant moisture stored in the ground. In Quebec favourable spring weather has enabled farmers to get an early start in cultivating their land while in Ontario operations are also well advanced, the season being three weeks earlier than last year. In the Maritime Provinces the spring opened early but the weather or lately has been cold and development is backward. In British Columbia the spring is three weeks late, but prospects are good. Details follow:—

PRAIRIE PROVINCES

ALBERTA WESTERN AREA—Seeding from 10 to 50 percent completed. ALBERTA NORTHEASTERN AREA—Not more than 10 percent of seeding has been completed. ALBERTA SOUTHEASTERN AREA—Seeding 50 percent completed. SASKATCHEWAN NORTHERN AREA—Wheat seeding general with seed bed in excellent condition except in some areas where there is too much moisture. SASKATCHEWAN SOUTHERN AREA. Wheat seeding is general in all but a few localities and 10 to 20 percent has been completed. Owing to heavy rain and snowfalls last autumn and winter and the lateness of the spring season, the acreage sown to wheat will likely be somewhat less than last year. MANITOBA.—Adverse weather has interfered with work on the land and little ploughing has been done except in well drained areas. Only a small percentage wheat seeding has been completed and a decrease in wheat acreage likely, with increase in coarse grains.

PROVINCE OF QUEBEC

In the Eastern Townships, southern counties and western section, all farm work is well advanced and seeding is general. In the Lake St. John and lower St. Lawrence districts ploughing has commenced but seeding will not be general for another week or ten days. There is ample moisture and conditions are satisfactory.

PROVINCE OF ONTARIO

There is a smaller acreage of fall wheat this year but the crop has wintered fairly well, although some fields are patchy. The weather has been ideal for seeding which is nearly completed and a larger acreage than normal has been sown. Ground is now being prepared for corn. In the southwestern section of the Province fruit trees are well covered with blossom. Pastures are short but healthy.

MARITIME PROVINCES

Some work has been done on the land and seeding should soon be general. The ground is in excellent condition. Grass pasture and fruit trees wintered well. The potato acreage is expected to exceed a five year average.

PROVINCE OF BRITISH COLUMBIA

Due to a cold wet spring there is much seeding and planting of roots to be done. The average acreage of grain is being sown. April frost have damaged peaches, apricots and particularly cherries. Small fruits are also frost damaged and below average. Hops are doing well. Pasturage is in excellent condition.

The Witch Doctor

TO the awed and superstitious members of his primitive tribe he was the Old Man—the Wise One—holding the secrets of life and death, potent in magic, working spells upon his enemies by mysterious and awful rites.

With weird chants and loathsome potions he cured the sick of all their ailments. Usually the remedy was more to be dreaded than the disease, and many were the luckless victims who died of the Witch Doctor's "cures."

Agas have come and gone. Civilization has spread its enlightening influence over the world—but the ghosts of old superstitions still persist in our minds.

Thousands of people in Canada are seeking to rectify health disorders by methods as absurd and superstitious as the incantations of the Witch Doctor.

A great proportion of the disease which takes toll of our health, happiness, even life itself, is unnecessary. In its earliest stages it might have been eradicated easily. But doubt or fear or superstition deters us from consulting an authority. We neglect nature's warnings, take refuge in old wives' tales or fall prey to the quack and charlatan.

To keep well and to regain lost health are matters of knowledge and enlightenment. Follow Nature's Laws. Consult modern books which contain information regarding healthful living, correct diet, exercise, care of children, hints for the middle-aged, care of the teeth, skin, eyes, etc.

Sick or well—make it a rule to have a thorough medical examination at least once a year.

IN MEMORIAM

LEO. L. MacCORMACK.

It is with feelings of regret that we are called upon to chronicle the passing at the Charlottetown Hospital, on the 3rd inst., of Leo. L. MacCormack, of Rock Barra, in the sixty-fifth year of his age. The deceased, always of a robust constitution, was suddenly stricken in October last. Medical aid was obtained from Souris and Charlottetown, and for a time he seemed to be answering to their treatment, but in December was compelled to enter the City Hospital, where he so far recovered that he was able to return home, but about five weeks before his demise he again entered the hospital. Everything was there done to prolong life, but the hand of death was upon him and he calmly breathed his last on the date above mentioned. His remains were met at Harmony Junction on the 4th inst., by numerous friends and relatives, and conveyed to his late residence.

The late Mr. MacCormack travelled extensively, and could recount many thrilling narratives of places visited and people with whom he came in contact; indeed, he listened to him as the date above mentioned. His remains were met at Harmony Junction on the 4th inst., by numerous friends and relatives, and conveyed to his late residence. The pall-bearers were: Joseph A. Morrison, Pius Macdonald, D. J. McIsaac, A. J. Keays, Leo, MacCormack and Joseph MacCormack.

MR. DOUGALD McPHERSON.

On Tuesday, April 19th, Mr. Dougald McPherson, a highly esteemed resident of Darlington, passed peacefully away at the age of 79 years. The deceased had been in failing health for over a year, so that the coming of the end was not altogether unexpected. Up until shortly before his death, his health had been somewhat better than usual, until he was stricken down with an attack of smallpox. In his more or less weakened condition he was not able to throw off this dread disease and he gradually sank until on the above mentioned date his spirit winged its homeward flight. Besides a sorrowing widow Mr. McPherson leaves to mourn the loss of a kind and thoughtful father,

NORTH CARLETON SCHOOL.

Report of North Carleton school for the month of April. Grade I.—Annie Lowther; 2, Margaret Lowther. Grade VII.—1, Arthur Wright; 2, Norman Pickering. Grade V.—1, Dorothy McFarlane; 2, Ashley Bartlett; 3, Lloyd Lowther; 4, Evelyn Gould; 5, Emmett McInnis. Grade IV.—1, James Bartlett; 2, Rita Gould; 3, Alexander Muttart; 4, Norman McFarlane. Grade III.—1, Teresa Muttart; 2, Wanda Lowther. Grade II.—1, Sadie Muttart; 2, Gerald McBride; 3, Wilbert Muttart; 4, Frank Muttart. Grade I.—1, Edward Lowther. Teacher.—Glady's Murphy.

CLEAR SPRINGS SCHOOL
