Beaver Monopoly

VANCOUVER, B. C. July 15.—The discovery that a highly organized smuggling "ring" is in existence, dealing in beaver skins, caught in this province, has led to a drastic order-in-Council at Victoria, whereby the beaver industry is practically made a Government monopoly, and any person found in possession of beaver skins will be liable to six months' imprisonment without the option of a fine.

Ottawa Getting Ready For Long "Dry Spell"

OTTAWA, July 17—All roads leading yesterday and Friday to the Hull vendor's shop for many bibulously inclined from Ottawa. From the opening hour at 7 o'clock until the supply depot closed at 7 o'clock, a queue stretched outside the liquor depot and each one patiently waited to receive a "supply." At times during the day the line of persons in waiting formed a formidable looking column of fours with eyes front on the opening and closing door.

A staff of expert dispensers was on the job and handled the thirsty crowds in a most systematic manner. There was no confusion or delay, and not one face could be seen leaving the store that did not have some expression of joy inscribed thereon.

Stewart May Lead U.F.A. Government

CALGARY, July 15.—In political circles throughout the province there is a rumor which cannot officially be confirmed at this time, that in the event of a victory at the polls in Monday's provincial election of the United Farmers of Alberta, the premiership of the province will be offered to Hon. Charles Stewart, present head of the Liberal Government. Those who claim to credit this report point out that Stewart is an expression of the view of W. Wood, president of the United Farmers of Alberta, that the farmers should get the best administrator possible, "regardless of whether he is elected by you, or even a member of our organization." It is pointed out that neither Mr. Wood nor Herbert Greenfield, vice-president of the United Farmers, has had any administrative experience, and few of the official farmer candidates have sat in any legislative body.

Crews Stood Aloof While Train Burned

SUDEBURY, Ont., July 18.—After a week's battle with bush fires in the townships of St. Louis and Champagne, Inspector Duval is back in his office in Sudbury today with an amazing story of two engine and train crews of the Canadian National Railway, who met their doom among themselves while a train of 27 cars, twenty-one of which were loaded with ties, were reduced to ashes. Inspector Duval makes the astounding statement that the trainmen not only refused to move the train, but also refused him any assistance, stating it was not their business to fight fires. This occurred at Mawka on Tuesday afternoon.

Made Altitude Record

PARIS, July 15.—Lieut. Kirsch, the French aviator, who last year was contestant in the James Gordon Bennett Cup race, at Etampes, is declared to have reached an altitude of 10,000 meters (about 34,758 feet), today in an attempt to break the world's altitude record. Although the official world's altitude record made by Captain R. W. Schroeder, of the United States Army at Dayton, Ohio, on February 27, 1920, is only 32,000 feet, it is thought probable that the Aero Club of France will not certify Lieut. Kirsch's record.

What The Conference of British Premiers Has Accomplished

LONDON, July 18.—(Grattan O'Leary, staff correspondent Canadian Press)—with the congress of premiers of the British Empire nearing its close, it is now possible to sum up what it has achieved. This, in brief compass, may be summed up under seven separate heads, as follows: 1.—It paved the way for and made possible the great disarmament conference of the world powers. 2.—Its deliberations resulted in the decision that the Anglo-Japanese alliance must be brought into harmony with the covenant of the League of Nations, which means that the military clause of the treaty must be eliminated, and it promoted the idea of a conference on Pacific problems, which, if it is successful, will make the Anglo-Japanese alliance unnecessary. 3.—It created the atmosphere favorable for the step toward the settlement of the Irish question and produced General Smuts to rescue the negotiations from failure, at an extremely critical juncture. 4.—It enabled the statesmen of the dominions to arrive at full knowledge and comprehension of the principles underlying the British foreign policy and of the effect which the application of such principles produced upon the international situation. 5.—It settled the important question of the distribution of the German reparations among the various portions of the empire in a way satisfactory to all. 6.—It reaffirmed and defined certain basic principles of the empire's constitutional development and cleared up misconceptions and misunderstandings regarding a number of questions, such as, for instance, the decision to appoint a Canadian minister at Washington. 7.—It discussed and passed useful resolutions upon important problems as overseas settlement, development of aerial transportation, improved wireless cable communications and shipping.

New Scripture Version For English Catholics

LONDON, England, July 15.—Questions of considerable moment to Canadian Roman Catholics will be included in the discussions at the Bible Congress arranged by the Catholic church authorities at Cambridge, beginning to-morrow July 16. Of these, perhaps the most important is the proposal to provide a new version of the Scriptures for the use of English-speaking Catholics. The question has aroused considerable interest because of the feeling which exists in favor of a version which will encourage Bible reading among Catholics, and because several outstanding figures in the church here are urging that the authorized or King James version, subject to certain alterations, be adopted because of its high literary value. Rev. Dr. William Barry, a writer not unknown in Canada, will urge at Cambridge that this action be taken, and will point out that while the original framers of the authorized version cared their ancient text to St. Jerome, they contributed to their English translation a beauty and force of language which might well be availed of by the church with comparatively few alterations. Cardinal Casquet, who has been engaged for years in the revision of the Vulgate at Rome, is now in England and will attend the Congress.

GANG ATTEMPTS SAVE LIVES OF HANGED CRIMINALS.

CHICAGO, July 18.—An organized gang banded together to seize bodies cut from the gallows and resuscitate them by means of pulmotors was revealed today by Walter E. Boerger, attorney for Henry Ward, the "lone wolf bandit" who was hanged today. Boerger said that before the hanging he was approached by a stranger with an offer to attempt to resuscitate Ward. He proposed that the body be obtained immediately after the hanging and taken to an undertaker, where the effort to revive life would be made. Boerger refused the offer and told the authorities, who held the body in the jail for an hour after Ward had been pronounced dead.

Alberta Has Election Dispute

EDMONTON, Alta., July 15.—According to information received here today, the returning officer for Whitford constituency has declared A. Shandro, Liberal, M. L. A., elected by acclamation, because the U. F. A. candidate, M. Chornob, signed his name to the papers with "Z" instead of an "S". The U. F. A. is appealing to the courts for an injunction restraining the returning officer from withholding the taking of the poll next Monday because of this technicality.
