RECORD CONTRIBUTION TO NOMINATE CLARK

RED DEER, Alb. Oct. 23.—It is expected that tomorrow afternoon's convention of the Win-the-War League at which Dr. Michael Clark will receive the nomination for the Federal constituency of Red Deer, will be the largest gathering that has ever taken place in this constituency.

R. L. Gaetz president of the league, will be chairman of the convention.

Queen's County Dominion Election

To the Electors of Queen's County, Ladies and Gentlemen:

Six years ago Mr. A. A. McLean and myself were elected to represent you in the House of Commons. As the result of the election then held the Liberal-Conservative party came into power. During the years that have passed since then I have endeavored to the best of my ability to procure as large a portion as possible of governmental advantages for my native Province. The Government of the party I was elected to support, has done much for the betterment of our trade and commerce and our agricultural interests. It gave us the Jar Ferry, increased grants to agriculture, the addition of \$100,000 annually to our provincial subsidy, secured for our Province four members for all time to come, built a number of wharves for the convenience of our farmers and shippers, also dredged the docks at Charlottetown and elsewhere.

When it is considered that for over three years of his period, the Dominion revenues have been urgently required for war purposes, I feel assured that our efforts are not unappreciated by the people of the Province, irrespective of party. I am convinced that what has been done will prove a lasting benefit to the Province and will afford a great impetus to our future prosperity.

During the last session of Parliament I was pleased to support Sir Robert Borden in his endeavors to unite the two great political parties which divide Canada in one Government. Such a consummation would insure a more vigorous prosecution of the war, and would be the means of raising with the least possible friction the necessary recruits to go to the assistance of our hard pressed brave boys at the front.

I am highly gratified that a Union Government has now been formed. It is composed of the strongest men of both parties and shall have my full support.

At the last session of Parliament an Act was passed establishing machinery for the holding of a Dominion election. It provided for the appointment of enumerators to make up lists of voters for all the polls. These will shortly be appointed. May I be permitted to request that every possible assistance be given the enumerators in the preparation of these lists, so that everyone in the County, entitled to a vote, shall have his or her name on the lists before polling day.

In thus giving an account of my Stewardship, permit me to state I shall be candidate for this Country at the coming election.

The crisis which involves our Country is the most important in its history. It devolves upon everyone to consider well the issue raised: are the people of Canada to leave unsupported our brave boys at the Front, who have so long and so well fought for the preservation of our rights and liberties, and whose splendid deeds of heroism have covered Canada with glory and renown? It is impossible.

I respectfully ask for the votes of all true and loyal men and women of this large and intelligent County of Queen's, assuring them that the best interests of our province and especially our soldiers shall have at all times my sincere support.

D. NICHOLSON.

ARCADIA

Oh, the zephyrs' there sweep o'er Grand, old castles on the shore, Lovely gardens filled with many-colored flowers.

There are roses blooming there, There are lilies snowy fair, There are pansies, there are poppies all aglow, There fall fountains crystal clear, There the birds sing all the year, In the land of dreams, Arcadia, you know.

There are stately ships that glide O'er the sea so deep and wide, In the rosy dawn or when the sun is low, And I watch them sail at night, By the pale moon's silver light, In Arcadia, the land of dreams, you know.

Oh, what joy it is to be, In a castle by the sea, Watching stately vessels sailing to and fro, Or in gardens fair to stray, Where clear, crystal fountains play, While the birds sing cheery carols as I go.
