The Pittsburgh Flyer Derailed

PITTSBURGH, Aug. 28—The engineer and fireman of the Pittsburgh-Buffalo flyer were injured, the former seriously, when the train was derailed near here today. A number of passengers in two day coaches were shaken up, but were able to continue their journey to Buffalo. The flyer was wrecked on a switch and the locomotive turned over. Engineer A. G. Miller of Oil City, suffered from scalds and other injuries, being pinned in the wreckage, and his condition is critical. Fireman J. H. Fiddler, of Oil City, was also scalded.

ENTRIES FOR RACES CLOSE SEPT. 1ST.

On September 1st the final payment and nomination of horses must be made for the nine races to be held Exhibition Week, Sept. 22 to 25. It is understood that quite a number of stakes are available, due to parties dropping out. This means that if you have a horse eligible for any class from 2.15 to 2.40 you can get a chance to race him for $500 purses which are by the way, the only purses of like size in the Maritime Provinces.

When The Nerves Are Out Of Gear

They Need New, Rich Blood to Restore Their Tone

Men and women with nerves out of gear become irritable and fretful and are blamed for ill-temper; whereas the fault is not theirs. Their poor health is the cause. The tired, over-busy wife or mother, whose household cares have worn her out; the breadwinner whose anxiety for his family has worried him until he is thin and ill, are the nerve sufferers who become run down. Their nerves, like all bodily organs, need healthy red blood; worry tells on their digestion and their nerves are ill-fed. In such cases a course of Dr. Williams' Pink Pills is necessary, for these pills make new blood and tone up the nervous system. The patient becomes full of energy and happiness for themselves and others returns. Mrs. Wm. Hughes, Coldwater, Ont., has proved the value of Dr. Williams' Pink Pills, and does not hesitate to say so. She says:—"Two years ago I suffered untold agonies with my nerves. The pains in my head and the back of my neck were unbearable. I was depressed and cranky all the time. All the rest I took, and best of medical attention did me no good. I was advised to try Dr. Williams' Pink Pills and after taking them for a time felt much better. I continued their use with great benefit, and after my baby was born they were the only tonic that helped me nurse her. I found them a splendid blood enricher, and cannot recommend them too highly."

You can get these Pills from any medicine dealer, or by mail, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Conclusion

(Continued from Page 1)

elements of legislation in our own day. It was deplorable too, how much time and money were spent on questionable means of advancing the Kingdom of God in the world.

This was followed by an able paper by the Rev. Mr. Lowry on, "The Book of Jonah," in which at great length, he stated the different positions held by commentators, and scholars, and critics, as to the historicity and authenticity of that most interesting prophecy. There was nothing more unusual or incredible in the repentance and revival under the prophet's preaching at Neviveh, than under the preaching of John the Baptist, or that under Jonathan Edwards, Chas. C. Finney, D. L. Moody, the Revivals of Kiloyth and Cambreslang, and of 1859 in Ireland, and 1860 on Prince Edward Island. After all its great moral and spiritual lessons, and its missionary lessons were the value of the Book of Jonah, and these were closely applicable to our own times. But he stood unflinchingly for the historicity of the prophecy.

Friday Evening.

The evening session of the Conference was largely attended, the church being filled. After the exercises of praise and prayer, Rev. W. Orr Mulligan presented an able paper on, "Three Cardinal Points of Presbyterianism."

First—Predestination, which the speaker said was a very much maligned doctrine. Mr. Mulligan gave a very lucid and exhaustive defence of the doctrine and explained the position of the Calvinistic teaching on the sovereignity of God, and the fact that a superintending Providence was directing all things and overshadowing all things in the affairs of the universe.

Second—The perseverance of the saints. The Calvenistic teaching on scriptural grounds was, that a believer redeemed and saved, though he might wander and stray would never be finally lost.

Third—The doctrine that God alone is Lord of the conscience, a sound, and sane, and truly scriptural principle. No man was to give the keeping of his conscience over to any man, or church, or potentate. It had made men and women strong for God in all the ages, and it was opposed to time serving and expediency.

The Bulwarks of The Bible.

The above was the subject of a very able paper given by Rev. D. M. Lamont, who said that the Reformers of the sixteenth century laid aside the doctrine of an infallible Pope, and adopted that of an infallible book—the Holy Bible. There was a spiritual red flag being hoisted to-day in many of the churches against the teachings and authority of the Bible. Some were saying that we should allow the Holy Spirit to lead us as he did of old. But why take the guidance of God's Spirit, if they reject the word which that Spirit has given them. Some say why insist upon the doctrine of an infallible book where we have no infallible interpreters? The real truths of the Word were almost universally accepted by the different bodies of christendom throughout the world. The Bible is sufficiently inspired to teach God's mind for our salvation was a plausible theory of inspiration held by some, but they might inquire, What portions of it? It was a safer ground that "all scripture was given by inspiration of God.

A survey of the Gospel according to John was given by Rev. J. E. Purdie, which was a convincing defence of the authenticity and the great message of the fourth gospel. After a cordial vote of thanks to the minister and officials of the People's Church for the use of their building and to Rev. Mr. Lowry, the Conference closed with praise and prayer.

Resolution of sympathy with Rev. Mr. Malone of St. Peter's Church.

In the most tender and sympathetic manner, a resolution of sympathy with Rev. Mr. Malone, on the bereavement sustained by him in the death of his wife, was moved by Rev. W. O. Mulligan, seconded by Mr. P. J. Macdonald, and passed by Rev. Neil Herman, for comfort and consolation and calm resignation to be given to those bereaved.

IMPERIAL FOX BISCUITS

Manufactured by The Imperial Biscuit Company, Ltd., Charlottetown, P. E. I.

Industries on Prince Edward Island are not nearly as numerous as we would like them to be. It is,therefore, with particular pleasure that we note the enlargement of one very successful local enterprise, the *Imperial Biscuit Factory*, located on Longworth Ave., Charlottetown.

This Biscuit Company was first established in a small way by Ross & MacMillan, but owing to Mr. MacMillan being unable to give it his complete attention it was decided in 1921 to form a Company, and a number of prominent fox ranchers became interested in it, and the present plant at Longworth Ave. was opened. It has been most successful and its product has found its way to all parts of the world where foxes are domiciled. The formula has been greatly improved since the biscuits were first put on the market and now represents the very highest nutritional value for fox breeding.

So great has been the demand for the product of the Company that it was deemed advisable at a meeting of the directors held some months ago to double the capacity; the result is the completion today of the new plant by our competent contractors, Messrs. MacDougall & MacAulay. Every care and forethought was exercised in the plans for its building and the well-known architect, Mr. J. E. Harris, was called in for consultation frequently. The spacing has been arranged with the idea in mind of baking in the most economical manner and the lay-out of the factory is as nearly perfect in that sense as it could possibly be.

The floor is of concrete and the walls are of tiled concrete, so as to obviate any danger from the extreme heat. A large new capacity drying room has been built directly overhead to which the biscuits will be conveyed by a specially constructed elevator. The steel wire used in the construction of the drying room is of extraordinary tensible strength and weight and had to be imported especially for this purpose from the manufacturers.

Heavy steel rails are used as supporting beams so that a weight of four tons can be supported in the new drying room without inconvenience. Two new chimneys have been erected, the one in the drying room being built with particular care so as to give a steady draft at all times and in all winds.

In the new baking room there will be six special bake ovens. These represent the very newest and most improved form of baking apparatus and will be fitted with a special thermometric attachment which will give instant indication of any undue temperature. There are other features connected with the ovens which are the results of recent improvements and will be of great usefulness in turning out an improved product.

A re-arrangement has been made of the cutter so that the Biscuits will be fed to the ovens by means of a continuous roller system, thereby doing away with a considerable amount of handling. A new large mixer having two barrels capacity has been installed. This will give the Company ample means of turning out the double quantities of Biscuits which the new factory can cater to. To drive the new apparatus a new twenty horse-power electric dynamo has been purchased through the Maritime Electric Co. This is necessary owing to the increased machinery which will be operated.

A new apparatus for the grinding of Puppy Meal Biscuits has been installed in the upper story. This will be driven by a belt from the electric dynamo and the crushed Biscuit will be conveyed through a chute to the bagging department. Arrangements have been made in the drying room for the installation of ultra violet ray lights so that if experiments in that line prove successful these can be used. Just now scientists are experimenting along that line.

The office of the Company will in future be at the plant and a new office has been built there. It is nicely finished in oak and is very attractive in appearance.

Up-to-date, the management of the Imperial Biscuit Co. has been in the hands of Mr. J. K. Ross, but he has recently resigned and has in company with Mr. Miller, of Toronto, established a factory in Ontario. This factory has no connection with the *Imperial Biscuit Company, Limited*. The directors regret Mr. Ross' departure, but will carry on the Company, giving to the public the very best possible product and the very best possible service and price. This year, owing to the high cost of flour, biscuit factories have had to operate at a very small margin of profit, if any at all. The directors and shareholders of the Imperial Biscuit Co., Ltd., however, are not so interested in the question of profits as in the turning out of a real high class fox biscuit. They are, without exception, all men largely engaged in Silver Fox farming and the aggregate foxes owned by them run into the thousands. As the profits of Silver Fox farming depend on the use of proper foods, they wish to retain the factory here under their own observation and management so that they can be sure at all times of having the most desirable product turned out for them and their patrons.

The directors have secured the services as manager of Mr. Ross Bethune, who has been connected with the Company, from the very first, as its accountant. Mr. Bethune, we need scarcely say, is a young man in whom everyone has confidence and can be depended upon to look after the patrons of the *Imperial Biscuit Co., Ltd.*, to their entire satisfaction.

A great deal of the success of the *Imperial Biscuit Co. Ltd.*, is due to the thorough manner in which the manufacture of the biscuits is attended to by Mr. Leigh Warren, who has been the factory superintendent during the last four years. Mr. Warren is exceedingly conscientious and very careful, and the formula in his hands is always strictly adhered to.

Assisting Mr. Warren are Mr. Ray Frizzell and Mr. Peter Coles, the chief bakers. Mr. John Hanson is expert mixer. These, together with Messrs. Earl McMillan, Wallace McIntyre and Milburn Keenan, constitute the manufacturing staff which has been turning out such a good product for years.

As mentioned before, the formula of the *Imperial Biscuits* has been improved from time to time and is believed today to be the most valuable food for foxes. It is a fact that all the most successful ranches on Prince Edward Island are using it and that all the great Show Foxes for the past three years have been fed on *Imperial Biscuits*. The flour and other ingredients are the best possible and the Cod Liver Oil is the finest refined oil obtainable in Newfoundland. The question of quality is always uppermost in ingredients for *Imperial Biscuits* and, no matter what the cost, the best are always used.

As instancing the great demand for the Biscuits, we may say that the factory has, for the past six weeks, been running a day and night shift in order to keep up with it. With the new plant in operation on Monday, this will be unnecessary and the factory will be able to turn out between three and four tons daily so that the Company will be in a position to handle all the old business and as many new customers as offer.

Prince Edward Islanders can take a pride in this little industry which serves them so well. Every dollar of the receipts, with the exception of the amount paid for oil and flour, is spent on Prince Edward Island and the flour is purchased largely through local dealers. This is sound business and, if we could all imitate this example, Prince Edward Island would "blossom like the rose."

The directors of the Company are grateful to the fox breeders of Prince Edward Island for the generous support they have always accorded and trust that support will continue. On their part, they guarantee that only the highest standards of materials will be used and the best possible product offered for sale. 4615
