Price sept 1920 \$31.05
Increase 1 10%

One of the chief sources of the
additional value offered in Good-
year Tires is the savings effected
through Goodyear's system of
distribution.

It is a system made possible by
the enormous sale of Goodyear
Tires.

To several thousand selected
Canadian dealers Goodyear sells
tires direct, and the money that
would go as profit to jobber is
largely saved.

Shipments to distributing points
are so large that we make the sav-
ing of carload freight rates. Or-
ders from dealers are large enough
to reduce clerical expense to a
small factor.

Such efficiency in practice and
the resulting increased business
has reduced expense-per-tire to a
minimum.
