The Prince County Hospital \$300,000 DRIVE. A father, and his little boy of whom the entire family were very proud, were taking a walk down town. A friend wishing to get a raise out of the little fellow said to the father, "How much will you sell the boy for?" The father promptly replied, "A million dollars." This is probably the same reply you would have given under similar circumstances. Your Prince County Hospital is a nice hospital. What it lacks in modern building and equipment they try to make up for with efficiency, hard work, thoughtfulness, cheerfulness and a surprising amount of happiness for a place which of necessity is associated with pain and illness. The doctors say this is a normal year in reference to sickness and disease. Yet this hospital is full to capacity at all times. Have you thought about your returning heroes? So many crippled and ill. What about just a 10% increase in sickness or an epidemic? What a terrible one sided gamble we are taking in not already having provided this most worthy institution with sufficient funds to expand. Like the father mentioned above, you place a very high value on every member of your family. Tonight after supper and your chores are done, all of you sit down and thrash this matter out. Mail your cheque at once to the Prince County Hospital Building Committee. Tomorrow call on your neighbor, tell him what you have done and ask him to do the same. Some of you older people, who expect to be called to your Lord within the next few years, could send a substantial cheque to your hospital now instead of making arrangements in your will for a gift to your favourite charity. Enjoy now while you may what your money will help to do. In the wintertime, after a nice fall of snow and conditioned just right, the youngsters like to climb a steep hill and on the top make an immense snow ball. After a lot of pushing and shoving it starts downhill. Soon it is gaining momentum, increasing in size—fairly flying down the hill. It is just like that. Please folks, start pushing and shoving at once and start our Prince County Hospital drive flying down the hill at a fast pace. This space donated by: S. R. PENDLETON
