BY THEIR OWN PRIVATE WIRE

NEW YORK, Oct. 24—Something of an agreeable surprise was sprung this morning by U. S. Steel opening up about two points, the interest of which spread to other portions of the list and in some cases strength, particularly noticeable in the Van Sweeringen issues which had been under pressure yesterday. Undisclosed overnight developments apparently accounted for the better sentiment and the market wasevidently beneficiary of activities on the part of influential interests. The constructive trend was also furthered by the optimistic remarks emenating from the American Iron and Steel Institute, especially those of Chas. M. Schwab of Beth. Steel and Pres. Jas. A. Farrel of U. S. Steel Corp. Around mid-day announcement was made that Mont. Ward directors had decided to omit the dividend. While this produced some voluminous selling in the issue itself, it had little if any effect on the rest of the list. This dividend in the long run may prove constructive, as resources for rehabilitation and expansion are thus conserved.

In the late afternoon strength developed in the Motor shares following remarks by J. J. Raskob to the effect that a rvival of the trade would be in full swing early in 1931. The strong tone of the market continued with practically no interruptions during the day. The closing being at about the highest of the day. The oils and copper were steady. The market continued to show imprevousness to adverse news which gives basis for greater certainty of profits from the buying side, provided operations are conducted on the assumption that periods of irregularity may still be encountered.

P. E. ISLAND HOSPITAL CAMPAIGN

Chairman H. Hooper Horne, of the Allied Towns Committee, informed the Executive Committee of the $250,000 Prince Edward Island Hospital Campaign last night, Friday, that he had completed the recruiting of District Chairmen for the forty-five Provincial District Committees operating under the direction of his committee, and that he expected all of them to begin reporting generous subscriptions by Monday next, October 27.

"Councillor B. Roy Holman, one of my four vice-chairmen on the Allied Towns Committee," Mr. Horne explained, "and Mr. Wallace L. Higgins, another of my vice-chairmen, have visited strategic points all over Queens and Kings Counties, and have organized strong district committees. We look for great results from all forty-five of those strongholds of prosperity.

"Prince Edward Island farmers are the most prosperous in Canada, and they are the most lightly taxed agriculturists in the world. They also are men of character, vision and warm human feeling. I am convinced they will make a magnificent showing in this campaign.

"Souris, Montague, Georgetown, Hunter River and the other urban centres also are well cushioned against want," Chairman Horne added. "We are justified in looking for equally gratifying contributions from those points."

Colonel Keith Rogers broadcasts over CFCY to all forty-five of the District Chairmen every evening the subscriptions reported at the rally suppers in the Social Hall of Trinity United Church. He also radios the grand total to the twenty-four points where the smaller campaign clocks are displayed throughout the two Counties, so that they may show the same amount as that which is indicated on the big campaign clock on the Canadian Bank of Commerce Building, at Queen and Grafton streets, which is under the direct supervision of Chairman Leslie Stacey, of the Outdoor Display Committee.

Following is the final roster of District Chairmen:

Annandale, Edwin McFarlane; Belle River, Capt. D. J. Riley; Bonshaw, W. F. Alan Stewart; Bradalbane, W. J. Seaman; Bridgetown, T. J. Wigginton; Bunbury, Major A. S. Robertson; Caledonia, Charles K. MARKET REVIEW FOR OCTOBER, 21 1930

With the probable resumption today of negotiations towards a merger of Canadian newsprint mills, we understand that there appears to be no reasonable grounds for doubting the carrying through of a merger in the comparatively near future. This would prove of extreme importance to the Canadian industry, to Canadian newsprint stocks, and to Canadian stock exchanges as a whole.

Moreover, it seems reasonably safe to conclude that the price war for next year that has been feared by a wide circle of shareholders of Canadian newsprint companies, has been averted by the recognition amongst the different newsprint leaders that such a course would be little short of suicidal towards their properties, their securities, and their shareholders.

A third conclusion that has been reached in connection with this supremely important topic is that the sale of newsprint securities at current levels would involve a sacrifice that will be made clear in the not distant future. The industry appears to have reached the bottom, and in various directions helpful influences are at work towards an improvement in operating conditions that must result in improved earning power and a betterment in the position of the various securities.

IMPERIAL OIL:

A good deal of buying has been going on of Imperial Oil on the Toronto and Montreal markets at current levels, where the stock can be picked up at a price that looks highly favorable as compared with levels of some little time ago. The Company's business this year is running very close to that of last year, and a dividend doubly earned may be reasonably expected. The intimation a short time ago that International Petroleum would maintain its courrent dividend of $1 has a very direct bearing on Imperial Oil, as the latter holds 54 p.c. of International's stock. The present dividend is over 2½ times what it was before International Petroleums stock was split. Imperial Oil is more than any other similar organization closely linked up with the business of the whole country through hundreds of service stations. A very strong feature also is a similar geographical distribution of its refineries a position that will be still more advantageous once the benefit from the duty of gasoline becomes really effective.

One of the hardest things about a worth while task is keeping at it.

Many a man can't sleep except at the time he ought to be getting up.
